

Regulation (EU) No 528/2012 concerning the  
making available on the market and use of  
biocidal products

**PRODUCT ASSESSMENT REPORT OF A  
BIOCIDAL PRODUCT FOR THE RENEWAL OF  
NATIONAL AUTHORISATION APPLICATION**

(submitted by the evaluating Competent Authority)

**MURIBROM BROMADIOLONE GRAIN  
QM BROMADIOLONE GRAIN  
BR BROMADIOLONE GRAIN  
DIPTRON BROMADIOLONE GRAIN**

Product type 14 Rodenticide

Bromadiolone as included in the Union list of approved  
active substances

Case Number in R4BP: BC-BX034608-15

Evaluating Competent Authority: Poland

Date: 17/12/2019

## CONCLUSION

The biocidal product MURIBROM BROMADIOLONE GRAIN (additional tradenames: QM BROMADIOLONE GRAIN, BR BROMADIOLONE GRAIN, DIPTRON BROMADIOLONE GRAIN) to be authorised in Poland is the same biocidal product as AGRORAT BD-5 PRO (Case Number in R4BP: BC-TC014257-48, Asset Number in R4BP: ES-0005466-0000, Authorisation number: ES/APP(NA)-2018-14-00178) authorised in Spain. The Polish CA agrees with the Product Assessment Report for the renewal of the authorisation of the biocidal product AGRORAT BD-5 PRO conducted by the Spanish CA and renews the authorisation of the product MURIBROM BROMADIOLONE GRAIN (additional tradenames: QM BROMADIOLONE GRAIN, BR BROMADIOLONE GRAIN, DIPTRON BROMADIOLONE GRAIN) in Poland.

Specific conditions applying to the active substance bromadiolone laid down in the Commission Implementing Regulation (EU) No. 2017/1380 were considered for the re-assessment of the biocidal product AGRORAT BD-5 PRO.

The assessment presented in the Product Assessment Report has shown that the ready-to-use product, AGRORAT BD-5 PRO with the active substance bromadiolone, at a level of 0.005% w/w, may be authorised for use as a rodenticide (product-type 14) since the conclusions of initial evaluation remain valid.

MURIBROM BROMADIOLONE GRAIN (additional tradenames: QM BROMADIOLONE GRAIN, BR BROMADIOLONE GRAIN, DIPTRON BROMADIOLONE GRAIN) is granted in Poland as a rodenticide product against house mice (*Mus musculus*) and brown rats (*Rattus norvegicus*). It is to be used: indoors buildings by professional. It is a ready to used grain bait to be used in tamper-resistant bait stations. The Polish CA renews the first authorization of the product MURIBROM BROMADIOLONE GRAIN (additional tradenames: QM BROMADIOLONE GRAIN, BR BROMADIOLONE GRAIN, DIPTRON BROMADIOLONE GRAIN) based on the Product Assessment Report for the renewal of the authorisation of the biocidal product AGRORAT BD-5 PRO.

Anticoagulant rodenticides are considered essential to ensure appropriate rodent control by efficient pest management and as a consequence, to prevent or control any serious danger to human and animal health which rodents may cause. Non-renewal of anticoagulant rodenticides could lead to insufficient rodent control. It could not only cause significant negative impact on human or animal health, or the environment, but could also affect the public's perception of its safety with regard to exposure to rodents or the security of a number of economic activities that could be vulnerable to rodents, resulting in economic and social consequences.

**Conditions for the renewal of the biocidal product MURIBROM BROMADIOLONE GRAIN (additional tradenames: QM BROMADIOLONE GRAIN, BR BROMADIOLONE GRAIN, DIPTRON BROMADIOLONE GRAIN)) in Poland.**

The biocidal product will be authorised according to Article 19 (5) of Regulation (EU) No. 528/2012 (BPR) in conjunction with Article 23 (6) of the BPR. According to Article 23 (6) of the BPR, the authorisation of the product will be renewed for 5 years.

For full report and details of the assessment please see the documentation recorded under Asset Number in R4BP: ES-0005466-0000.
