## Summary

In accordance with Article 10 of Regulation (EU) No 649/2012 (the PIC Regulation), exporters and importers were required to give information about trade in Annex I chemicals in 2017 to their Designated National Authorities (DNAs) by 31 March 2018. In accordance with Annex III of the regulation, each EU Member State should provide ECHA with aggregated information so that ECHA can summarise the data at Union level and make non-confidential information publicly available.

This report summarises the trade activity of chemicals in Annex I of PIC in 2017 based on the data received from the Member States.

### 1. Export of chemicals

The following 20 Member States reported trade activities and submitted data about exports in 2017 of Annex I chemicals: Austria; Belgium; Bulgaria; Croatia; Czech Republic; Denmark; Finland; France; Germany; Hungary; Italy; Lithuania; Netherlands; Poland; Portugal; Slovakia; Slovenia; Spain; Sweden; United Kingdom. The following 8 Member States reported that no chemicals were exported: Cyprus; Estonia; Greece; Ireland; Latvia; Luxembourg; Malta; Romania.

473 exporters provided data. On the basis of this information, the non-confidential summary of the data on exports is available in tables 1 and 2. Table 1 provides a more detailed breakdown of the data whereas table 2 presents an aggregated view by Annex I entry (to the maximum level of detail, whilst not disclosing confidential information).
