

Public consultation on candidates for exclusion – Chlorophene, PT 2

Estonian Health Board as competent authority on biocides has collected the responses from different bodies (Tartu University Hospital Lung Clinic Department of Tuberculosis, Health Board Department of Medical Device). According to the received responses and based on information of Department of Chemical Safety (Health Board) we can report that there are no products containing chlorophene in product type 2 on Estonian market.

Kind regards,

Kaja Ilmarinen

On behalf of Estonian CA for biocides
