

HelpNet CLP workshop agenda*
23 September 2015

Venue:
Annankatu 18, Helsinki, Finland

- 11:00 - 11:30 Registration and coffee*
- 11:30 - 11:40 1. Opening by Andreas Herdina, Chair of the HelpNet Steering Group
- 11:40 - 12:30 2. Update on discussions in CASG-LP. Items to be included in Guidance:
- Recommendation on font size
 - Further specifications for fold-out labels
 - Use of INCI names
- 12:30 - 13:00 3. Labelling of difficult-to-label products (pens and markers (HelpEx 12660), candles, air fresheners, matchboxes)
- 13:00 - 14:00 Lunch break*
- 14:00 - 14:30 4. Classification of aerosols: How should the propellant be considered, when classifying the aerosol form of the mixture.
- 14:30 - 14:50 5. The meaning of Article 48 CLP on advertising – is there a need to modify the existing FAQ 273?
- 14:50 - 15:30 6. Possible FAQ updates
- FAQ 234 (depending on outcome of ‘placing on the market’ discussion in CARACAL)
 - FAQ on food and feed
 - Other relevant FAQ
- 15:30-16:00 Coffee break*
7. Discussions in smaller groups on current issues
- 7.1 Cut-off values when classifying mixtures for corrosion: clarification on where there can be a presumption of effects below cut-off value.
 - 7.2 Classification of mixtures containing an UVCB: state of play. Clarification for applying the mixture-rules on hazardous components of an UVCB when classifying the whole mixture is needed.
 - 7.3 Ecotoxicological testing of mixtures: classification of e.g. a PPP mixture. Is testing on different tropic levels unnecessary, if the outcome can be predicted? Examples from Cefic.
- 16:00-17:30 8. Sharing the outcomes of the group discussions
- 17:30 End of the workshop*
- 18:00 Dinner at Ravintola Konstan Möljä, Hietalahdenkatu 14, Helsinki*

*) HelpNet CLP full members will also be invited to join the Mixture classification training provided by the Forum Train-the-trainers working group on 24-25 September.
