Extension of expiry date for national authorisation of the biocidal product Bromadiolone Wax Block (compressed)

The biocidal product Bromadiolone Wax Block (compressed) is authorised in Iceland under the asset number IS-0009390-0000. The expiry date of the authorisation was 31 December 2022. Bábolna Bioenvironmental Centre Private Limited Company submitted on behalf of the asset owner, Streymi heildverslun ehf, an application for renewal of national authorisation on 24 June 2021, case No BC-AC067799-36.

The biocidal product contains the active substance bromadiolone (CAS No 28772-56-7). The expiry date of the approval of bromadiolone for use in biocidal products of product-type 14 is 30 June 2024 and a renewal of the approval is in process.

Member states are allowed to extend the duration of their current authorisation where, for reasons beyond the control of the authorisation holder, no decision is taken on the renewal of the authorisation before its expiry, in accordance with Article 31(7) of Regulation (EU) No 528/2012 and Article 5(4) of Commission Delegated Regulation (EU) No 492/2014.

The renewal process of the active substance bromadiolone has been delayed and therefore, a decision on the renewal of the authorisation could not be made before the expiry date of the biocidal product. As proposed at the 92nd CA Meeting in June 2021 it is appropriate to extend the expiry date of the product authorisation for Bromadiolone Wax Block (compressed) in Iceland.

The expiry date of the product authorisation for Bromadiolone Wax Block (compressed), UST201706-184, is hereby extended until **1 July 2024**.

Apart from the extension of the expiry date outlined above, the authorisation conditions as stated in the authorisation letter dated 14 December 2020 remain valid.

This administrative decision may be appealed before the Minister for the Environment, Energy and Climate, in accordance with Article 68 of the Chemicals Act No 61/2013 and Article 26 of the Icelandic Administrative Act No 37/1993. Appeals should be directed, within three months from the receipt of this decision, to the Ministry of Environment, Energy and Climate, Skuggasundi 1, 101 Reykjavík, Iceland.

Sincerely,

Hafdís Inga Ingvarsdóttir
