

**Alternate member of the
Forum on Exchange of Information on Enforcement**

1. General Information:

Name: TANGHE, Philip Ms / x Mr
Appointed by (MS/Forum): MS
Nationality: Belgian nationality

2. Education:

Chemical civil engineer (1986)
Followed the courses of environmental sciences (1988)
Prevention advisor level 1 (2007)

3. Relevant Employment

Present employment	<i>Flemish Government, Department Environment, Enforcement Section (province of West Flanders, office in Bruges)</i>
Previous relevant employment	<i>Since 1987 continuously employed in the Flemish Government (environmental permit advisor 1987-1999; advisor to the general director of the department 1999-2001; advisor to the Flemish minister of environment 2001-2004; expert safety reports 2004-2006; inspector Seveso and RIE since 2006)</i>

4. Relevant fields of in-depth expertise:

Area of expertise	Description
Process safety	As an inspector of Seveso companies during more than 14 years, I have experience in and knowledge of the processes and safety measures in chemical and other industry branches
Environmental issues (RIE)	Since more than 10 years, I have experience in inspecting the RIE-companies.
Classification and labelling (CLP)	I have studied the CLP-regulation since the beginning, and was part of the working group for implementation of CLP-rules in the Flemish environmental regulation (VLAREM).
REACH	I am currently starting to build up experience as a REACH-inspector, since my predecessor REACH-inspector for the Flemish region, Paul Cuypers, left the Enforcement section on 01/12/2020.

5. Membership of relevant professional bodies:

No specific memberships relevant in this.

6. Other Relevant Information:

I am the successor of Paul Cuypers, former Forum member, in the Enforcement division of the Flemish Department Environment. In 2021 I will coordinate (for the Flemish region) the inspections following REF-9 on authorisations and the inspections in the pilot project for Recovered substances. I am national coordinator for these 2 inspection campaigns. I was also national coordinator for REF-7.

Since it is estimated that the Forum member is expected to commit about 30% - 40% of his time per year for dealing with the Forum related issues, and my other inspection work (Seveso and RIE) takes minimum 60% of my available FTE, and I need time to do the REACH inspections, **I am only candidate as an alternate member for the Forum.**
