Please note that you have a notification that references this mixture which has not yet been submitted to the DNA. Any changes applied to this mixture record prior to submission, will be automatically reflected to the notification. Any changes applied to this mixture after submission of the notification, will not be reflected to the notification.

Conclusions

- User-friendly manage mixture/article functionality in ePIC
- Mandatory fields clearly marked
- Recommended to attach English SDS, if available
- Changes to mixtures/article reflected in un-submitted notifications

Thank you
