*ANNEX*

**SUMMARY OF PRODUCT CHARACTERISTICS  
FOR A BIOCIDAL PRODUCT FAMILY**

DAAP19

**Product type(s)**

PT02: Disinfectants and algaecides not intended for direct application to humans or animals

PT04: Food and feed area

PT03: Veterinary hygiene

**Authorisation number** FR-2022-0034

**R4BP asset number** FR-0020890-0000

**Part I.**  
**FIRST INFORMATION LEVEL**

## 1. ADMINISTRATIVE INFORMATION

### 1.1. Family name

Name	DAAP19
------	--------

### 1.2. Product type(s)

Product type(s)	PT02: Disinfectants and algaecides not intended for direct application to humans or animals PT04: Food and feed area PT03: Veterinary hygiene
-----------------	---

### 1.3. Authorisation holder

Name and address of the authorisation holder	Name	Ets. PINTAUD
	Address	Rue Maurice Pintaud 16230 Mansle France
Authorisation number	FR-2022-0034	
<i>R4BP asset number</i>	FR-0020890-0000	
Date of the authorisation	05/04/2022	
Expiry date of the authorisation	04/04/2032	

### 1.4. Manufacturer(s) of the product

Name of manufacturer	Ets. PiNTAUD
Address of manufacturer	Rue Maurice Pintaud 16230 MANSLE France
Location of manufacturing sites	Rue Maurice PINTAUD 16230 MANSLE France

Name of manufacturer	Ets. RICHET
Address of manufacturer	8 rue de Marle 02250 TAVAUX-ET-PONTSERICOURT France
Location of manufacturing sites	8 rue de Marle 02250 TAVAUX-ET-PONTSERICOURT France

### 1.5. Manufacturer(s) of the active substance(s)

Active substance	Active chlorine released from sodium hypochlorite
Name of manufacturer	Arkema France
Address of manufacturer	420, rue d'Estienne d'Orves 92705 COLOMBES Cedex France
Location of manufacturing sites	Route nationale 85 BP1 38560 JARRIE France

Active substance	Active chlorine released from sodium hypochlorite
Name of manufacturer	Electroquímica de Hernani, S.A.
Address of manufacturer	Entidad Epele 29 20120 HERNANI, SANTIAGO ODRIOZOLA Spain

---

Location of manufacturing sites	Entidad Epele 29 20120 HERNANI Spain
---------------------------------	--------------------------------------

Active substance	Active chlorine released from sodium hypochlorite
Name of manufacturer	KEM ONE
Address of manufacturer	Immeuble Le Quadrille, 19, Rue Jacqueline Auriol 69008 Lyon France
Location of manufacturing sites	Etablissement de Saint Fons, Quai Aulagne, CS 70035 69191 SAINT-FONS Cedex France  Etablissement de Lavera, Ecopolis Lavera Sud, BP3 13117 LAVERA Cedex France

---

## 2. PRODUCT FAMILY COMPOSITION AND FORMULATION

### 2.1. Qualitative and quantitative information on the composition of the family

Common name	IUPAC name	Function	CAS number	EC number	Content (%)
Active chlorine released from sodium hypochlorite		active substance			1,5 - 13,5 % (w/w)
Sodium hypochlorite (technical solution with minimum purity of 14.7% w/w NaOCl)	Sodium hypochlorite	Non-active substance	7681-52-9	231-668-3	10,71 - 96,42 % (w/w)
Sodium hydroxide	Sodium hydroxide	Non-active substance	1310-73-2	215-185-5	0 - 8,55 % (w/w)

### 2.2. Type(s) of formulation

Formulation type(s)	Soluble concentrate Ready to use gel Ready to use liquid (spray)
---------------------	--

---

**Part II.**  
**SECOND INFORMATION LEVEL - META SPC(S)**

---

## 1. META SPC 1 ADMINISTRATIVE INFORMATION

### 1.1. Meta SPC 1 identifier

Identifier	Meta SPC: Meta SPC 1.1
------------	------------------------

### 1.2. Suffix to the authorisation number

Number	1-15
--------	------

### 1.3. Product type(s)

Product type(s)	PT02: Disinfectants and algaecides not intended for direct application to humans or animals
-----------------	---

---

## 2. META SPC 1 COMPOSITION

### 2.1. Qualitative and quantitative information on the composition of the meta SPC 1

Common name	IUPAC name	Function	CAS number	EC number	Content (%)
Active chlorine released from sodium hypochlorite		active substance			9,6 - 9,6 % (w/w)
Sodium hypochlorite (technical solution with minimum purity of 14.7% w/w NaOCl)	Sodium hypochlorite	Non-active substance	7681-52-9	231-668-3	68,57 - 68,57 % (w/w)

### 2.2. Type(s) of formulation of the meta SPC 1

Formulation type(s)	Soluble concentrate
---------------------	---------------------

### 3. HAZARD AND PRECAUTIONARY STATEMENTS OF THE META SPC 1

Hazard statements	<p>H290: May be corrosive to metals.</p> <p>H315: Causes skin irritation.</p> <p>H318: Causes serious eye damage.</p> <p>H410: Very toxic to aquatic life with long lasting effects.</p> <p>EUH031: Contact with acids liberates toxic gas.</p> <p>EUH206: Warning! Do not use together with other products. May release dangerous gases (chlorine).</p>
Precautionary statements	<p>P501: Dispose of contents to according to local instructions..</p> <p>P391: Collect spillage.</p> <p>P390: Absorb spillage to prevent material damage.</p> <p>P273: Avoid release to the environment.</p> <p>P310: Immediately call a POISON CENTER.</p> <p>P305+P351+P338: IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.</p> <p>P302+P352: IF ON SKIN: Wash with plenty of water.</p> <p>P280: Wear protective gloves.</p> <p>P280: Wear eye protection.</p> <p>P280: Wear face protection.</p> <p>P234: Keep only in original packaging.</p> <p>P102: Keep out of reach of children.</p> <p>P101: If medical advice is needed, have product container or label at hand.</p> <p>P264: Wash hands thoroughly after handling.</p> <p>P332+P313: If skin irritation occurs: Get medical advice.</p> <p>P362+P364: Take off contaminated clothing and wash it before reuse.</p> <p>P321: Specific treatment (see instruction on this label).</p>

## 4. AUTHORISED USE(S) OF THE META SPC

### 4.1. Use description 1

**Table 1. disinfection of private swimming pools**

Product type	PT02: Disinfectants and algaecides not intended for direct application to humans or animals
Where relevant, an exact description of the authorised use	-
Target organism(s) (including development stage)	Scientific name: no data Common name: Viruses Development stage: no data  Scientific name: no data Common name: Bacteria Development stage: no data
Field(s) of use	indoor use outdoor use  Indoor Outdoor
Application method(s)	Method: closed system  Detailed description: Automated dosing, continuous flow
Application rate(s) and frequency	Application Rate: 3 mg/L  Dilution (%): Continuous disinfection for pools: 3 mg/L available chlorine in water  Number and timing of application: Continuous disinfection for pools
Category(ies) of users	general public (non-professional)
Pack sizes and packaging material	5L, 10L, 20L PEHD, childproof closure

#### 4.1.1. Use-specific instructions for use

#### 4.1.2. Use-specific risk mitigation measures

#### 4.1.3. Where specific to the use, the particulars of likely direct or indirect effects, first aid instructions and emergency measures to protect the environment

#### 4.1.4. Where specific to the use, the instructions for safe disposal of the product and its packaging

#### 4.1.5. Where specific to the use, the conditions of storage and shelf-life of the product under normal conditions of storage

### 4.2. Use description 2

**Table 2. shock disinfection of private swimming pools**

Product type	PT02: Disinfectants and algaecides not intended for direct application to humans or animals
--------------	---

Where relevant, an exact description of the authorised use	-
Target organism(s) (including development stage)	<p>Scientific name: no data Common name: Viruses Development stage: no data</p> <p>Scientific name: no data Common name: Bacteria Development stage: no data</p> <p>Scientific name: no data Common name: green algae Development stage: no data</p>
Field(s) of use	<p>indoor use outdoor use</p> <p>Indoor Outdoor</p>
Application method(s)	<p>Method: closed system</p> <p>Detailed description: Automated dosing of the concentrated product into the swimming pool 50 mg/L of available chlorine in water, Contact times: - bacteria and virus : 10 minutes - green algae: 48 hours</p>
Application rate(s) and frequency	<p>Application Rate: 50 mg/L</p> <p>Dilution (%): 50 mg/L of available chlorine in water,</p> <p>Number and timing of application: - bacteria and virus: 10 minutes - green algae: 48 hours</p>
Category(ies) of users	general public (non-professional)
Pack sizes and packaging material	<p>5L, 10L, 20L</p> <p>PEHD, childproof closure</p>

#### **4.2.1. Use-specific instructions for use**

#### **4.2.2. Use-specific risk mitigation measures**

#### **4.2.3. Where specific to the use, the particulars of likely direct or indirect effects, first aid instructions and emergency measures to protect the environment**

#### **4.2.4. Where specific to the use, the instructions for safe disposal of the product and its packaging**

#### **4.2.5. Where specific to the use, the conditions of storage and shelf-life of the product under normal conditions of storage**

---

## **5. GENERAL DIRECTIONS FOR USE OF THE META SPC 1**

### **5.1. Instructions for use**

- Comply with the instructions for use.
- Inform the registration holder if the treatment is ineffective.
- Products should not be used in conjunction with acids or ammonia.
- The treatment should be performed at pH range 6.8-7.4.
- Check regularly chlorine content in the pools as UV could partially degrade chlorine.
- Ensure complete mixing of the product to water.

### **5.2. Risk mitigation measures**

- Application of this product is exclusively allowed in swimming pools with connection to a STP. It is not allowed to directly discharge swimming pool water to the surface water.
- Wash hands after loading of the product and maintenance/cleaning of the dispensing pumps;
- Avoid contact with skin and eyes;
- Child proof closure is required.

### **5.3. Particulars of likely direct or indirect effects, first aid instructions and emergency measures to protect the environment**

IF ON SKIN: Take off all contaminated clothing and wash it before reuse. Wash skin with water. If skin irritation occurs: Get medical advice.

IF IN EYES: Immediately rinse with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing for at least 15 minutes.

Call 112/ambulance for medical assistance.

Information to Healthcare personnel/doctor:

The eyes should also be rinsed repeatedly on the way to the doctor if eye exposure to alkaline chemicals (pH > 11), amines and acids like acetic acid, formic acid or propionic acid

IF SWALLOWED: Rinse mouth. Give something to drink, if exposed person is able to swallow. Do NOT induce vomiting. Call a POISON CENTRE or a doctor.

IF INHALED: Move to fresh air and keep at rest in a position comfortable for breathing.

If symptoms: Call 112/ambulance for medical assistance.

If no symptoms: Call a POISON CENTRE or a doctor.

### **5.4. Instructions for safe disposal of the product and its packaging**

- Do not discharge unused product on the ground, into water courses, into pipes (sink, toilets...) nor down the drains.
- Dispose of unused product, its packaging and all other waste, in accordance with local regulations.

### **5.5. Conditions of storage and shelf-life of the product under normal conditions of storage**

Do not store above 30°C

Protect from frost

Protect from direct sunlight

Shelf life: 6 months

Keep out of reach of children and pets

---

## 6. OTHER INFORMATION

## 7. THIRD INFORMATION LEVEL: INDIVIDUAL PRODUCTS IN THE META SPC 1

### 7.1. Trade name(s), authorisation number and specific composition of each individual product

Trade name(s)	5L BEC Spécial Piscine	Market area: FR
	10L BEC Spécial Piscine	Market area: FR
	20L BEC Spécial Piscine	Market area: FR
	CHLORE LIQUIDE SPECIAL POMPE DOSEUR LTCSA	Market area: FR
	CHLORE LIQUIDE SPECIAL POMPE DOSEUR LTSA	Market area: FR
	REVA KLOR LIQUIDE 9,6% C.A.	Market area: FR
	REV PISCINE	Market area: FR
Authorisation number	FR-0020890-0028 1-15	

Common name	IUPAC name	Function	CAS number	EC number	Content (%)
Active chlorine released from sodium hypochlorite		active substance			9,6
Sodium hypochlorite (technical solution with minimum purity of 14.7% w/w NaOCl)	Sodium hypochlorite	Non-active substance	7681-52-9	231-668-3	68,57

---

## 1. META SPC 2 ADMINISTRATIVE INFORMATION

### 1.1. Meta SPC 2 identifier

Identifier	Meta SPC: Meta SPC 1.2
------------	------------------------

### 1.2. Suffix to the authorisation number

Number	1-1
--------	-----

### 1.3. Product type(s)

Product type(s)	PT02: Disinfectants and algaecides not intended for direct application to humans or animals
-----------------	---

---

## 2. META SPC 2 COMPOSITION

### 2.1. Qualitative and quantitative information on the composition of the meta SPC 2

Common name	IUPAC name	Function	CAS number	EC number	Content (%)
Active chlorine released from sodium hypochlorite		active substance			12,5 - 12,5 % (w/w)
Sodium hypochlorite (technical solution with minimum purity of 14.7% w/w NaOCl)	Sodium hypochlorite	Non-active substance	7681-52-9	231-668-3	89,29 - 89,29 % (w/w)

### 2.2. Type(s) of formulation of the meta SPC 2

Formulation type(s)	Soluble concentrate
---------------------	---------------------

### 3. HAZARD AND PRECAUTIONARY STATEMENTS OF THE META SPC 2

Hazard statements	<p>H290: May be corrosive to metals.</p> <p>H314: Causes severe skin burns and eye damage.</p> <p>H410: Very toxic to aquatic life with long lasting effects.</p> <p>EUH031: Contact with acids liberates toxic gas.</p> <p>EUH071: Corrosive to the respiratory tract.</p>
Precautionary statements	<p>P234: Keep only in original packaging.</p> <p>P273: Avoid release to the environment.</p> <p>P260: Do not breathe vapours.</p> <p>P264: Wash hands thoroughly after handling.</p> <p>P280: Wear protective gloves/ protective clothing/eye protection/face protection.</p> <p>P301+P330+P331: IF SWALLOWED: rinse mouth. Do NOT induce vomiting.</p> <p>P303+P361+P353: IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water [or shower].</p> <p>P304+P340: IF INHALED: Remove person to fresh air and keep comfortable for breathing.</p> <p>P310: Immediately call a POISON CENTER/doctor/....</p> <p>P321: Specific treatment (see instructions on this label).</p> <p>P305+P351+P338: IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.</p> <p>P405: Store locked up.</p> <p>P390: Absorb spillage to prevent material damage.</p> <p>P391: Collect spillage.</p> <p>P501: Dispose of contents to in accordance with the national regulation..</p>

## 4. AUTHORISED USE(S) OF THE META SPC

### 4.1. Use description 1

**Table 1. Disinfection of public and private swimming pools**

Product type	PT02: Disinfectants and algacides not intended for direct application to humans or animals
Where relevant, an exact description of the authorised use	-
Target organism(s) (including development stage)	Scientific name: no data Common name: Bacteria Development stage: no data  Scientific name: no data Common name: Viruses Development stage: no data
Field(s) of use	indoor use outdoor use  Indoor Outdoor
Application method(s)	Method: closed system  Detailed description: Automated dosing continuous flow or pouring of the concentrated product into the swimming pool
Application rate(s) and frequency	Application Rate: 3 mg/L  Dilution (%): Continuous disinfection for pools: 3 mg/L available chlorine in water  Number and timing of application: Continuous disinfection for pools: 3 mg/L available chlorine in water
Category(ies) of users	professional
Pack sizes and packaging material	HDPE can in 10L, 20L

#### 4.1.1. Use-specific instructions for use

-

#### 4.1.2. Use-specific risk mitigation measures

-

#### 4.1.3. Where specific to the use, the particulars of likely direct or indirect effects, first aid instructions and emergency measures to protect the environment

-

#### 4.1.4. Where specific to the use, the instructions for safe disposal of the product and its packaging

-

#### 4.1.5. Where specific to the use, the conditions of storage and shelf-life of the product under normal conditions of storage

-

-

**4.2.5. Where specific to the use, the conditions of storage and shelf-life of the product under normal conditions of storage**

-

---

## **5. GENERAL DIRECTIONS FOR USE OF THE META SPC 2**

### **5.1. Instructions for use**

- Comply with the instructions for use.
- Inform the registration holder if the treatment is ineffective.
- Products should not be used in conjunction with acids or ammonia.

### **5.2. Risk mitigation measures**

- Application of this product is exclusively allowed in swimming pools with connection to a STP. It is not allowed to directly discharge swimming pool water to the surface water.
- Wear protective chemical resistant gloves (glove material to be specified by the authorisation holder within the product information), a protective coverall, goggles and a respiratory protection during the application of the product and the maintenance of the system.

### **5.3. Particulars of likely direct or indirect effects, first aid instructions and emergency measures to protect the environment**

IF ON SKIN: Immediately wash skin with plenty of water. Thereafter take off all contaminated clothing and wash it before reuse. Continue to wash the skin with water for 15 minutes.

Call a POISON CENTRE or a doctor.

IF IN EYES: Immediately rinse with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing for at least 15 minutes.

Call 112/ambulance for medical assistance.

Information to Healthcare personnel/doctor:

The eyes should also be rinsed repeatedly on the way to the doctor if eye exposure to alkaline chemicals (pH > 11), amines and acids like acetic acid, formic acid or propionic acid

IF SWALLOWED: Immediately rinse mouth. Give something to drink, if exposed person is able to swallow.

Do NOT induce vomiting. Call 112/ambulance for medical assistance.

IF INHALED: Move to fresh air and keep at rest in a position comfortable for breathing. If symptoms: Call 112/ambulance for medical assistance. If no symptoms: Call a POISON CENTRE or a doctor.

### **5.4. Instructions for safe disposal of the product and its packaging**

- Do not discharge unused product on the ground, into water courses, into pipes (sink, toilets...) nor down the drains.
- Dispose of unused product, its packaging and all other waste, in accordance with local regulations.

### **5.5. Conditions of storage and shelf-life of the product under normal conditions of storage**

Do not store above 30°C

Protect from frost

Protect from direct sunlight

Shelf life: 4 months

## 6. OTHER INFORMATION

-

## 7. THIRD INFORMATION LEVEL: INDIVIDUAL PRODUCTS IN THE META SPC 2

### 7.1. Trade name(s), authorisation number and specific composition of each individual product

Trade name(s)	10L STROMB Anticalcaire	Market area: FR
	20L STROMB Anticalcaire	Market area: FR
	HYPOCHLORE DE SOUDE 13% LTSA PISCINE	Market area: FR
	HYPOCHLORE DE SOUDE 13% LTCSA PISCINE	Market area: FR
	REVA KLOR LIQUIDE 12,5% C.A.	Market area: FR
	BAYROL CHLORE LIQUIDE PROFESSIONNEL	Market area: FR
Authorisation number	FR-0020890-0001 1-1	

Common name	IUPAC name	Function	CAS number	EC number	Content (%)
Active chlorine released from sodium hypochlorite		active substance			12,5
Sodium hypochlorite (technical solution with minimum purity of 14.7% w/w NaOCl)	Sodium hypochlorite	Non-active substance	7681-52-9	231-668-3	89,29

---

## 1. META SPC 3 ADMINISTRATIVE INFORMATION

### 1.1. Meta SPC 3 identifier

Identifier	Meta SPC: Meta SPC 2.1
------------	------------------------

### 1.2. Suffix to the authorisation number

Number	1-16
--------	------

### 1.3. Product type(s)

Product type(s)	PT02: Disinfectants and algaecides not intended for direct application to humans or animals PT04: Food and feed area PT03: Veterinary hygiene
-----------------	---

---

## 2. META SPC 3 COMPOSITION

### 2.1. Qualitative and quantitative information on the composition of the meta SPC 3

Common name	IUPAC name	Function	CAS number	EC number	Content (%)
Active chlorine released from sodium hypochlorite		active substance			2,6 - 2,6 % (w/w)
Sodium hypochlorite (technical solution with minimum purity of 14.7% w/w NaOCl)	Sodium hypochlorite	Non-active substance	7681-52-9	231-668-3	18,57 - 18,57 % (w/w)

### 2.2. Type(s) of formulation of the meta SPC 3

Formulation type(s)	Soluble concentrate
---------------------	---------------------

### 3. HAZARD AND PRECAUTIONARY STATEMENTS OF THE META SPC 3

Hazard statements	H290: May be corrosive to metals. H315: Causes skin irritation. H410: Very toxic to aquatic life with long lasting effects. EUH206: Warning! Do not use together with other products. May release dangerous gases (chlorine).
Precautionary statements	P501: Dispose of contents to according to local instructions.. P391: Collect spillage. P390: Absorb spillage to prevent material damage. P302+P352: IF ON SKIN: Wash with plenty of water. P264: Wash hands thoroughly after handling. P234: Keep only in original packaging. P102: Keep out of reach of children. P101: If medical advice is needed, have product container or label at hand. P273: Avoid release to the environment. P332+P313: If skin irritation occurs: Get medical advice. P321: Specific treatment (see instructions on this label). P362+P364: Take off contaminated clothing and wash it before reuse.

## 4. AUTHORISED USE(S) OF THE META SPC

### 4.1. Use description 1

**Table 1. Disinfection of surfaces (floors) by wiping with mop and bucket**

Product type	PT02: Disinfectants and algaecides not intended for direct application to humans or animals

**Table 5. Disinfection of companion animal housing and associated equipment**

Product type	PT03: Veterinary hygiene
Where relevant, an exact description of the authorised use	-
Target organism(s) (including development stage)	<p>Scientific name: no data Common name: Bacteria Development stage: no data</p> <p>Scientific name: no data Common name: fungi Development stage: no data</p> <p>Scientific name: no data Common name: Yeasts Development stage: no data</p> <p>Scientific name: no data Common name: Viruses Development stage: no data</p>
Field(s) of use	indoor use  Household
Application method(s)	Method: manual application  Detailed description: Wiping, mopping (without mechanical action)
Application rate(s) and frequency	Application Rate: -  Dilution (%): Mandatory target organisms: - Bacteria and yeasts: 28.6% v/v Other target organisms: - Fungi and virus: 37,5% v/v  Number and timing of application:

	Contact time: 5 min Room temperature
Category(ies) of users	general public (non-professional)
Pack sizes and packaging material	HDPE bottle 1L, 2L HDPE container 5L, 10L

**4.5.1. Use-specific instructions for use**

**4.5.2. Use-specific risk mitigation measures**

Avoid any direct or indirect contact with food

Rinse surfaces after treatment

Only use in empty animal housing.

Remove all feed and drinks prior to treatment

Do not allow to enter the room before the treated surfaces are completely dried.

Do not allow animals to enter the treated area during the disinfection process and before the surfaces are completely dried

Ensure that the children are not present during the application of the product and until the surfaces are completely dried.

**4.5.3. Where specific to the use, the particulars of likely direct or indirect effects, first aid instructions and emergency measures to protect the environment**

**4.5.4. Where specific to the use, the instructions for safe disposal of the product and its packaging**

**4.5.5. Where specific to the use, the conditions of storage and shelf-life of the product under normal conditions of storage**

---

## **5. GENERAL DIRECTIONS FOR USE OF THE META SPC 3**

### **5.1. Instructions for use**

- Products should not be used in conjunction with acids or ammonia.
- Comply with the instructions for use.
- Inform the registration holder if the treatment is ineffective.
- Make sure to wet surfaces completely. Allow to take effect for the contact time needed.
- Apply only on non porous surfaces.
- The applicant should give indications of application of the product (dilution, quantity applied on surfaces, etc.) on the label in order to guarantee a proper application of the product. The volume of product to be diluted and the specified volume of water should be clearly indicated on the label (e.g. take X volumes of product into Y volumes of water)

### **5.2. Risk mitigation measures**

- Wash hands after use.
- Avoid contact with eyes.

### **5.3. Particulars of likely direct or indirect effects, first aid instructions and emergency measures to protect the environment**

IF ON SKIN: Take off all contaminated clothing and wash it before reuse. Wash skin with water. If skin irritation occurs: Get medical advice.

IF IN EYES: Rinse with water. Remove contact lenses, if present and easy to do. Continue rinsing for 5 minutes. Call a POISON CENTRE or a doctor.

IF INHALED: If symptoms occur call a POISON CENTRE or a doctor.

IF SWALLOWED: Rinse mouth. Give something to drink, if exposed person is able to swallow. Do NOT induce vomiting. Call a POISON CENTRE or a doctor.

### **5.4. Instructions for safe disposal of the product and its packaging**

- Do not discharge unused product on the ground, into water courses, into pipes (sink, toilets...) nor down the drains.
- Dispose of unused product, its packaging and all other waste, in accordance with local regulations.

### **5.5. Conditions of storage and shelf-life of the product under normal conditions of storage**

Do not store above 30°C

Protect from frost

Protect from direct sunlight

Shelf life: 11 months

Keep out of reach of children and pets

---

## **6. OTHER INFORMATION**

- The products are foaming formulations.

## 7. THIRD INFORMATION LEVEL: INDIVIDUAL PRODUCTS IN THE META SPC 3

## **5. GENERAL DIRECTIONS FOR USE OF THE META SPC 4**

### **5.1. Instructions for use**

- Products should not be used in conjunction with acids or ammonia.
- Comply with the instructions for use.
- Inform the registration holder if the treatment is ineffective.
- Make sure to wet surfaces completely. Allow to take effect for the contact time needed.
- Apply only on non-porous surfaces.
- The applicant should give indications of application of the product (dilution, quantity applied on surfaces, etc.) on the label in order to guarantee a proper application of the product. The volume of product to be diluted and the specified volume of water should be clearly indicated on the label (e.g. take X volumes of product into Y volumes of water).

### **5.2. Risk mitigation measures**

- Wash hands after use.
- Avoid contact with skin and eyes.
- A child proof closure is required.
- Do not allow to enter the room before the treated surfaces are completely dried.
- Ensure that the children are not present during the application of the product and until the surfaces are completely dried.

### **5.3. Particulars of likely direct or indirect effects, first aid instructions and emergency measures to protect the environment**

IF ON SKIN: Take off all contaminated clothing and wash it before reuse. Wash skin with water. If skin irritation occurs: Get medical advice.

IF IN EYES: Immediately rinse with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing for at least 15 minutes.

Call 112/ambulance for medical assistance.

Information to Healthcare personnel/doctor:

The eyes should also be rinsed repeatedly on the way to the doctor if eye exposure to alkaline chemicals (pH > 11), amines and acids like acetic acid, formic acid or propionic acid

IF SWALLOWED: Rinse mouth. Give something to drink, if exposed person is able to swallow. Do NOT induce vomiting. Call a POISON CENTRE or a doctor.

IF INHALED: Move to fresh air and keep at rest in a position comfortable for breathing.

If symptoms: Call 112/ambulance for medical assistance.

If no symptoms: Call a POISON CENTRE or a doctor.

### **5.4. Instructions for safe disposal of the product and its packaging**

- Do not discharge unused product on the ground, into water courses, into pipes (sink, toilets...) nor down the drains.
- Dispose of unused product, its packaging and all other waste, in accordance with local regulations.

### **5.5. Conditions of storage and shelf-life of the product under normal conditions of storage**

Do not store above 30°C

Protect from frost

Protect from direct sunlight

Shelf life: 8 months

Keep out of reach of children and pets

---

## 1. META SPC 5 ADMINISTRATIVE INFORMATION

### 1.1. Meta SPC 5 identifier

Identifier	Meta SPC: Meta-SPC 2.22
------------	-------------------------

### 1.2. Suffix to the authorisation number

Number	1-18
--------	------

### 1.3. Product type(s)

Product type(s)	PT02: Disinfectants and algaecides not intended for direct application to humans or animals PT04: Food and feed area PT03: Veterinary hygiene
-----------------	---

---

## 2. META SPC 5 COMPOSITION

### 2.1. Qualitative and quantitative information on the composition of the meta SPC 5

Common name	IUPAC name	Function	CAS number	EC number	Content (%)
Active chlorine released from sodium hypochlorite		active substance			3,6 - 3,6 % (w/w)
Sodium hypochlorite (technical solution with minimum purity of 14.7% w/w NaOCl)	Sodium hypochlorite	Non-active substance	7681-52-9	231-668-3	25,71 - 25,71 % (w/w)
Sodium hydroxide	Sodium hydroxide	Non-active substance	1310-73-2	215-185-5	0 - 0,081 % (w/w)

### 2.2. Type(s) of formulation of the meta SPC 5

Formulation type(s)	Soluble concentrate
---------------------	---------------------

### 3. HAZARD AND PRECAUTIONARY STATEMENTS OF THE META SPC 5

<p>Hazard statements</p>	<p>H290: May be corrosive to metals.</p> <p>H315: Causes skin irritation.</p> <p>H410: Very toxic to aquatic life with long lasting effects.</p> <p>H318: Causes serious eye damage.</p> <p>EUH206: Warning! Do not use together with other products. May release dangerous gases (chlorine).</p>
<p>Precautionary statements</p>	<p>P501: Dispose of contents to according to local instructions..</p> <p>P391: Collect spillage.</p> <p>P390: Absorb spillage to prevent material damage.</p> <p>P273: Avoid release to the environment.</p> <p>P310: Immediately call a POISON CENTER.</p> <p>P305+P351+P338: IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.</p> <p>P302+P352: IF ON SKIN: Wash with plenty of water.</p> <p>P102: Keep out of reach of children.</p> <p>P101: If medical advice is needed, have product container or label at hand.</p> <p>P234: Keep only in original packaging.</p> <p>P264: Wash hands thoroughly after handling.</p> <p>P332+P313: If skin irritation occurs: Get medical advice.</p>

## 4. AUTHORISED USE(S) OF THE META SPC

### 4.1. Use description 1

**Table 1. Disinfection of surfaces (floors) by wiping with mop and bucket**

Product type	PT02: Disinfectants and algaecides not intended for direct application to humans or animals
Where relevant, an exact description of the authorised use	-

### 1.1. Meta SPC 6 identifier

Identifier	Meta SPC: Meta SPC 3
------------	----------------------

### 1.2. Suffix to the authorisation number

Number	1-2
--------	-----

### 1.3. Product type(s)

Product type(s)	PT02: Disinfectants and algaecides not intended for direct application to humans or animals
-----------------	---

---

## 2. META SPC 6 COMPOSITION

### 2.1. Qualitative and quantitative information on the composition of the meta SPC 6

Common name	IUPAC name	Function	CAS number	EC number	Content (%)
Active chlorine released from sodium hypochlorite		active substance			2,6 - 2,6 % (w/w)
Sodium hypochlorite (technical solution with minimum purity of 14.7% w/w NaOCl)	Sodium hypochlorite	Non-active substance	7681-52-9	231-668-3	18,57 - 18,57 % (w/w)
Sodium hydroxide	Sodium hydroxide	Non-active substance	1310-73-2	215-185-5	0,65 - 0,65 % (w/w)

### 2.2. Type(s) of formulation of the meta SPC 6

Formulation type(s)	Ready to use gel
---------------------	------------------

### 3. HAZARD AND PRECAUTIONARY STATEMENTS OF THE META SPC 6

Hazard statements	<p>H290: May be corrosive to metals.</p> <p>H314: Causes severe skin burns and eye damage.</p> <p>H410: Very toxic to aquatic life with long lasting effects.</p> <p>EUH206: Warning! Do not use together with other products. May release dangerous gases (chlorine).</p>
Precautionary statements	<p>P501: Dispose of contents to according to local instructions..</p> <p>P391: Collect spillage.</p> <p>P390: Absorb spillage to prevent material damage.</p> <p>P273: Avoid release to the environment.</p> <p>P310: Immediately call a POISON CENTER.</p> <p>P305+P351+P338: IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.</p> <p>P234: Keep only in original packaging.</p> <p>P102: Keep out of reach of children.</p> <p>P101: If medical advice is needed, have product container or label at hand.</p> <p>P264: Wash hands thoroughly after handling.</p> <p>P332+P313: If skin irritation occurs: Get medical advice.</p> <p>P260: Do not breathe vapours.</p> <p>P301+P330+P331: IF SWALLOWED: rinse mouth. Do NOT induce vomiting.</p> <p>P303+P361+P353: IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water [or shower].</p> <p>P304+P340: IF INHALED: Remove person to fresh air and keep comfortable for breathing.</p> <p>P321: Specific treatment (see instructions on this label).</p> <p>P405: Store locked up.</p> <p>P280: Wear protective gloves / protective clothing / eye protection / face protection.</p>

## 4. AUTHORISED USE(S) OF THE META SPC

### 4.1. Use description 1

**Table 1. Disinfection of toilet bowls**

Product type	PT02: Disinfectants and algacides not intended for direct application to humans or animals
Where relevant, an exact description of the authorised use	-
Target organism(s) (including development stage)	Scientific name: no data Common name: Bacteria Development stage: no data  Scientific name: no data Common name: fungi Development stage: no data  Scientific name: no data Common name: Yeasts Development stage: no data  Scientific name: no data Common name: Viruses Development stage: no data
Field(s) of use	indoor use  Household Professional only: institutions, industries (general case), healthcare
Application method(s)	Method: manual application  Detailed description: Direct application of the product (by pressing on the packaging) and rinse with flush (without mechanical action)
Application rate(s) and frequency	Application Rate: -  Dilution (%): 0  Number and timing of application: Ready to use product. Contact time: 5 min Room temperature
Category(ies) of users	professional ; general public (non-professional)
Pack sizes and packaging material	For Non professional : HDPE bottle with gooseneck 0.75L For professionals: HDPE bottle with gooseneck 0.75L, HDPE bottle 0.75L

#### 4.1.1. Use-specific instructions for use

-

#### 4.1.2. Use-specific risk mitigation measures

-

#### 4.1.3. Where specific to the use, the particulars of likely direct or indirect effects, first aid instructions and emergency measures to protect the environment

-

---

**4.1.4. Where specific to the use, the instructions for safe disposal of the product and its packaging**

-

**4.1.5. Where specific to the use, the conditions of storage and shelf-life of the product under normal conditions of storage**

-

---

## **5. GENERAL DIRECTIONS FOR USE OF THE META SPC 6**

### **5.1. Instructions for use**

- Products should not be used in conjunction with acids or ammonia.
- Comply with the instructions for use.
- Inform the registration holder if the treatment is ineffective.
- Make sure to wet surfaces completely. Allow to take effect for the contact time needed.
- Apply only on non-porous surfaces.

### **5.2. Risk mitigation measures**

- For professionals, wear protective chemical resistant gloves (glove material to be specified by the authorisation holder within the product information), a protective coverall and goggles during the application of the product.
- Wash hands after use.
- Avoid contact with eyes.

### **5.3. Particulars of likely direct or indirect effects, first aid instructions and emergency measures to protect the environment**

- If medical advice is needed, have product container or label at hand
- IF ON SKIN: Immediately wash skin with plenty of water. Thereafter take off all contaminated clothing and wash it before reuse. Continue to wash the skin with water for 15 minutes.  
Call a POISON CENTRE or a doctor.
- IF IN EYES: Immediately rinse with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing for at least 15 minutes.  
Call 112/ambulance for medical assistance.  
Information to Healthcare personnel/doctor:  
The eyes should also be rinsed repeatedly on the way to the doctor if eye exposure to alkaline chemicals (pH > 11), amines and acids like acetic acid, formic acid or propionic acid
- IF SWALLOWED: Immediately rinse mouth. Give something to drink, if exposed person is able to swallow.  
Do NOT induce vomiting. Call 112/ambulance for medical assistance.
- IF INHALED: Move to fresh air and keep at rest in a position comfortable for breathing. If symptoms: Call 112/ambulance for medical assistance. If no symptoms: Call a POISON CENTRE or a doctor.

### **5.4. Instructions for safe disposal of the product and its packaging**

- Do not discharge unused product on the ground, into water courses, into pipes (sink, toilets...) nor down the drains.
- Dispose of unused product, its packaging and all other waste, in accordance with local regulations.

### **5.5. Conditions of storage and shelf-life of the product under normal conditions of storage**

Do not store above 30°C  
Protect from frost  
Protect from direct sunlight  
Shelf life: 11 months  
Keep out of reach of children and pets

---

-

---

## **5. GENERAL DIRECTIONS FOR USE OF THE META SPC 7**

### **5.1. Instructions for use**

- Products should not be used in conjunction with acids or ammonia.
- Comply with the instructions for use.
- Inform the registration holder if the treatment is ineffective.
- Make sure to wet surfaces completely. Allow to take effect for the contact time needed.
- Apply only on non-porous surfaces.

### **5.2. Risk mitigation measures**

- Avoid any direct or indirect contact with food
- For professionals, wear protective chemical resistant gloves (glove material to be specified by the authorisation holder within the product information), a protective coverall and goggles during the application of the product. Wash hands after use;
- Avoid contact with skin and eyes

### **5.3. Particulars of likely direct or indirect effects, first aid instructions and emergency measures to protect the environment**

- If medical advice is needed, have product container or label at hand
- IF ON SKIN: Immediately wash skin with plenty of water. Thereafter take off all contaminated clothing and wash it before reuse. Continue to wash the skin with water for 15 minutes.

Call a POISON CENTRE or a doctor.

IF IN EYES: Immediately rinse with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing for at least 15 minutes.

Call 112/ambulance for medical assistance.

Information to Healthcare personnel/doctor:

The eyes should also be rinsed repeatedly on the way to the doctor if eye exposure to alkaline chemicals (pH > 11), amines and acids like acetic acid, formic acid or propionic acid

IF SWALLOWED: Immediately rinse mouth. Give something to drink, if exposed person is able to swallow.

Do NOT induce vomiting. Call 112/ambulance for medical assistance.

IF INHALED: Move to fresh air and keep at rest in a position comfortable for breathing. If symptoms: Call 112/ambulance for medical assistance. If no symptoms: Call a POISON CENTRE or a doctor.

### **5.4. Instructions for safe disposal of the product and its packaging**

- Do not discharge unused product on the ground, into water courses, into pipes (sink, toilets...) nor down the drains.
- Dispose of unused product, its packaging and all other waste, in accordance with local regulations.

### **5.5. Conditions of storage and shelf-life of the product under normal conditions of storage**

Do not store above 30°C

Protect from frost

Protect from direct sunlight

Shelf life: 11 months

Keep out of reach of children and pets

### 1.3. Product type(s)

Product type(s)	PT02: Disinfectants and algaecides not intended for direct application to humans or animals
-----------------	---

---

## 2. META SPC 8 COMPOSITION

### 2.1. Qualitative and quantitative information on the composition of the meta SPC 8

Common name	IUPAC name	Function	CAS number	EC number	Content (%)
Active chlorine released from sodium hypochlorite		active substance			1,5 - 1,5 % (w/w)
Sodium hypochlorite (technical solution with minimum purity of 14.7% w/w NaOCl)	Sodium hypochlorite	Non-active substance	7681-52-9	231-668-3	10,71 - 10,71 % (w/w)
Sodium hydroxide	Sodium hydroxide	Non-active substance	1310-73-2	215-185-5	0,62 - 0,62 % (w/w)

### 2.2. Type(s) of formulation of the meta SPC 8

Formulation type(s)	Ready to use liquid (spray)
---------------------	-----------------------------

---

### 3. HAZARD AND PRECAUTIONARY STATEMENTS OF THE META SPC 8

Hazard statements	H290: May be corrosive to metals. H412: Harmful to aquatic life with long lasting effects. EUH206: Warning! Do not use together with other products. May release dangerous gases (chlorine).
Precautionary statements	P501: Dispose of contents to according to local instructions.. P390: Absorb spillage to prevent material damage. P273: Avoid release to the environment. P234: Keep only in original packaging.

## 4. AUTHORISED USE(S) OF THE META SPC

### 4.1. Use description 1

**Table 1. Disinfection of surfaces by spraying with trigger spray**

Product type	PT02: Disinfectants and algaecides not intended for direct application to humans or animals
Where relevant, an exact description of the authorised use	-
Target organism(s) (including development stage)	Scientific name: no data Common name: Bacteria Development stage: no data  Scientific name: no data Common name: fungi Development stage: no data  Scientific name: no data Common name: Yeasts Development stage: no data  Scientific name: no data Common name: Viruses Development stage: no data
Field(s) of use	indoor use  Household Professional users only: institutions, healthcare, industries (general case)
Application method(s)	Method: spraying  Detailed description: -
Application rate(s) and frequency	Application Rate: Ready to use product.  Dilution (%): Ready to use product.  Number and timing of application: Contact time: 5 min Room temperature
Category(ies) of users	professional ; general public (non-professional)
Pack sizes and packaging material	HDPE bottle with PP/PE trigger spray TS 5S 0.5L, 0.75L

#### 4.1.1. Use-specific instructions for use

- Allow to take effect at least 5 minutes and then rinsing is required.

#### 4.1.2. Use-specific risk mitigation measures

-

#### 4.1.3. Where specific to the use, the particulars of likely direct or indirect effects, first aid instructions and emergency measures to protect the environment

-

#### 4.1.4. Where specific to the use, the instructions for safe disposal of the product and its packaging

-

---

**4.1.5. Where specific to the use, the conditions of storage and shelf-life of the product under normal conditions of storage**

---

## **5. GENERAL DIRECTIONS FOR USE OF THE META SPC 8**

### **5.1. Instructions for use**

- Comply with the instructions of use
- Products should not be used in conjunction with acids or ammonia.
- Inform the registration holder if the treatment is ineffective.
- Make sure to wet surfaces completely. Allow to take effect for the contact time needed.
- Apply only on non-porous surfaces.

### **5.2. Risk mitigation measures**

- Avoid any direct or indirect contact with food

### **5.3. Particulars of likely direct or indirect effects, first aid instructions and emergency measures to protect the environment**

IF IN EYES: If symptoms occur rinse with water. Remove contact lenses, if present and easy to do. Call a POISON CENTRE or a doctor.

IF ON SKIN: Wash skin with water. If symptoms occur call a POISON CENTRE or a doctor.

IF SWALLOWED: If symptoms occur call a POISON CENTRE or a doctor.

### **5.4. Instructions for safe disposal of the product and its packaging**

- Do not discharge unused product on the ground, into water courses, into pipes (sink, toilets...) nor down the drains.
- Dispose of unused product, its packaging and all other waste, in accordance with local regulations.

### **5.5. Conditions of storage and shelf-life of the product under normal conditions of storage**

Do not store above 30°C

Protect from frost

Protect from direct sunlight

Shelf life: 11 months

---

## 6. OTHER INFORMATION

-

## 7. THIRD INFORMATION LEVEL: INDIVIDUAL PRODUCTS IN THE META SPC 8

### 7.1. Trade name(s), authorisation number and specific composition of each individual product

Trade name(s)	500mL Spray Javel à 1,5% c.a. BECX- SPRAY	Market area: FR
	750mL Spray Javel à 1,5% c.a. BECX- SPRAY	Market area: FR
	500mL SPRAY LE LYNX	Market area: FR
	Spray nettoyant Javel 1,5% W5 Cuisine et salle de bain 750mL	Market area: FR
Authorisation number	FR-0020890-0011 1-4	

Common name	IUPAC name	Function	CAS number	EC number	Content (%)
Active chlorine released from sodium hypochlorite		active substance			1,5
Sodium hypochlorite (technical solution with minimum purity of 14.7% w/w NaOCl)	Sodium hypochlorite	Non-active substance	7681-52-9	231-668-3	10,71

---

Pack sizes and packaging material	5L, 10L, 20L PEHD, childproof closure
-----------------------------------	--

**4.4.1. Use-specific instructions for use**

**4.4.2. Use-specific risk mitigation measures**

- Do not allow animals to enter the treated area during the disinfection process and before the surfaces are completely dried
- Rinse surfaces after treatment
- Only use in empty animal housing.
- Remove all feed and drinks prior to treatment
- Do not allow to enter the room before the treated surfaces are completely dried.
- Ensure that the children are not present during the application of the product and until the surfaces are completely dried.

**4.4.3. Where specific to the use, the particulars of likely direct or indirect effects, first aid instructions and emergency measures to protect the environment**

**4.4.4. Where specific to the use, the instructions for safe disposal of the product and its packaging**

**4.4.5. Where specific to the use, the conditions of storage and shelf-life of the product under normal conditions of storage**

---

## **5. GENERAL DIRECTIONS FOR USE OF THE META SPC 9**

### **5.1. Instructions for use**

- Products should not be used in conjunction with acids or ammonia.
- Comply with the instructions for use.
- Inform the registration holder if the treatment is ineffective.
- Make sure to wet surfaces completely. Allow to take effect for the contact time needed.
- Apply only on non-porous surfaces.
- The applicant should give indications of application of the product (dilution, quantity applied on surfaces, etc.) on the label in order to guarantee a proper application of the product. The volume of product to be diluted and the specified volume of water should be clearly indicated on the label (e.g. take X volumes of product into Y volumes of water).

### **5.2. Risk mitigation measures**

- Wash hands after use.
- Avoid contact with skin and eyes.
- Child proof closure is required.

### **5.3. Particulars of likely direct or indirect effects, first aid instructions and emergency measures to protect the environment**

IF ON SKIN: Take off all contaminated clothing and wash it before reuse. Wash skin with water. If skin irritation occurs: Get medical advice.

IF IN EYES: Immediately rinse with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing for at least 15 minutes.

Call 112/ambulance for medical assistance.

Information to Healthcare personnel/doctor:

The eyes should also be rinsed repeatedly on the way to the doctor if eye exposure to alkaline chemicals (pH > 11), amines and acids like acetic acid, formic acid or propionic acid

IF SWALLOWED: Rinse mouth. Give something to drink, if exposed person is able to swallow. Do NOT induce vomiting. Call a POISON CENTRE or a doctor.

IF INHALED: Move to fresh air and keep at rest in a position comfortable for breathing.

If symptoms: Call 112/ambulance for medical assistance.

If no symptoms: Call a POISON CENTRE or a doctor.

### **5.4. Instructions for safe disposal of the product and its packaging**

- Do not discharge unused product on the ground, into water courses, into pipes (sink, toilets...) nor down the drains.
- Dispose of unused product, its packaging and all other waste, in accordance with local regulations.

### **5.5. Conditions of storage and shelf-life of the product under normal conditions of storage**

Do not store above 30°C

Protect from frost

Protect from direct sunlight

Shelf life: 6 months

Keep out of reach of children and pets

---

## **5. GENERAL DIRECTIONS FOR USE OF THE META SPC 10**

### **5.1. Instructions for use**

- Products should not be used in conjunction with acids or ammonia.
- Inform the registration holder if the treatment is ineffective.
- Make sure to wet surfaces completely. Allow to take effect for the contact time needed.
- Apply only on non-porous surfaces.

### **5.2. Risk mitigation measures**

-

### **5.3. Particulars of likely direct or indirect effects, first aid instructions and emergency measures to protect the environment**

IF ON SKIN: Immediately wash skin with plenty of water. Thereafter take off all contaminated clothing and wash it before reuse. Continue to wash the skin with water for 15 minutes.

Call a POISON CENTRE or a doctor.

IF IN EYES: Immediately rinse with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing for at least 15 minutes.

Call 112/ambulance for medical assistance.

Information to Healthcare personnel/doctor:

The eyes should also be rinsed repeatedly on the way to the doctor if eye exposure to alkaline chemicals (pH > 11), amines and acids like acetic acid, formic acid or propionic acid

IF SWALLOWED: Immediately rinse mouth. Give something to drink, if exposed person is able to swallow.

Do NOT induce vomiting. Call 112/ambulance for medical assistance.

IF INHALED: Move to fresh air and keep at rest in a position comfortable for breathing. If symptoms: Call 112/ambulance for medical assistance. If no symptoms: Call a POISON CENTRE or a doctor.

### **5.4. Instructions for safe disposal of the product and its packaging**

- Do not discharge unused product on the ground, into water courses, into pipes (sink, toilets...) nor down the drains.
- Dispose of unused product, its packaging and all other waste, in accordance with local regulations.

### **5.5. Conditions of storage and shelf-life of the product under normal conditions of storage**

Do not store above 30°C

Protect from frost

Protect from direct sunlight

Shelf life: 6 months

---

## **6. OTHER INFORMATION**

- For PT3 and PT4 professional uses, the applicant should inform users of the product of the existence of MRLs for chlorates. They may be held liable if these MRLs are exceeded during controls carried out on foodstuffs.
- For professional PT4 use Disinfection of inner surfaces in water systems: The user should control the concentration of chlorate present in the drinking water to ensure that this concentration does not exceed the parametric values set in Directive 2020/2184.

## 7. THIRD INFORMATION LEVEL: INDIVIDUAL PRODUCTS IN THE META SPC 10

### 7.1. Trade name(s), authorisation number and specific composition of each individual product

Trade name(s)	Dose 250mL Eau de Javel à 9,6% c.a. BEC Professionnels	Market area: FR
	10L Eau de Javel à 9,6% c.a. BEC Professionnels	Market area: FR
	20L Eau de Javel à 9,6% c.a. BEC Professionnels	Market area: FR
	1000L Eau de Javel à 9,6% c.a. BEC Professionnels	Market area: FR
	FV 250mL Eau de Javel 9,6% c.a. Lajot	Market area: FR
	5L Eau de Javel à 9,6% c.a. PROMOCASH	Market area: FR
	200L Eau de Javel à 9,6% c.a. BEC Professionnels	Market area: FR
	5L REIJAVEL L	Market area: FR
	20L REIJAVEL L	Market area: FR
	EAU DE JAVEL 02 JAVEL A 9,6% C.A.	Market area: FR
Authorisation number	FR-0020890-0012 1-5	

Common name	IUPAC name	Function	CAS number	EC number	Content (%)
Active chlorine released		active substance			9,6

---

from sodium hypochlorite					
Sodium hypochlorite (technical solution with minimum purity of 14.7% w/w NaOCl)	Sodium hypochlorite	Non-active substance	7681-52-9	231-668-3	68,57

---

## 1. META SPC 11 ADMINISTRATIVE INFORMATION

### 1.1. Meta SPC 11 identifier

Identifier	Meta SPC: Meta SPC 6.22
------------	-------------------------

### 1.2. Suffix to the authorisation number

Number	1-6
--------	-----

### 1.3. Product type(s)

Product type(s)	PT02: Disinfectants and algaecides not intended for direct application to humans or animals PT04: Food and feed area PT03: Veterinary hygiene
-----------------	---

---

## 2. META SPC 11 COMPOSITION

### 2.1. Qualitative and quantitative information on the composition of the meta SPC 11

Common name	IUPAC name	Function	CAS number	EC number	Content (%)
Active chlorine released from sodium hypochlorite		active substance			12,5 - 12,5 % (w/w)
Sodium hypochlorite (technical solution with minimum purity of 14.7% w/w NaOCl)	Sodium hypochlorite	Non-active substance	7681-52-9	231-668-3	89,29 - 89,29 % (w/w)

### 2.2. Type(s) of formulation of the meta SPC 11

Formulation type(s)	Soluble concentrate
---------------------	---------------------

### 3. HAZARD AND PRECAUTIONARY STATEMENTS OF THE META SPC 11

Hazard statements	<p>H290: May be corrosive to metals.</p> <p>H314: Causes severe skin burns and eye damage.</p> <p>H410: Very toxic to aquatic life with long lasting effects.</p> <p>EUH031: Contact with acids liberates toxic gas.</p> <p>EUH071: Corrosive to the respiratory tract.</p>
Precautionary statements	<p>P273: Avoid release to the environment.</p> <p>P234: Keep only in original packaging.</p> <p>P260: Do not breathe vapours.</p> <p>P264: Wash hands thoroughly after handling.</p> <p>P280: Wear protective gloves/ protective clothing/eye protection/face protection.</p> <p>P301+P330+P331: IF SWALLOWED: rinse mouth. Do NOT induce vomiting.</p> <p>P303+P361+P353: IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water [or shower].</p> <p>P304+P340: IF INHALED: Remove person to fresh air and keep comfortable for breathing.</p> <p>P310: Immediately call a POISON CENTER/doctor/....</p> <p>P321: Specific treatment (see instructions on this label).</p> <p>P305+P351+P338: IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.</p> <p>P405: Store locked up.</p> <p>P390: Absorb spillage to prevent material damage.</p> <p>P391: Collect spillage.</p> <p>P501: Dispose of container to in accordance with the national regulation.</p>

## 4. AUTHORISED USE(S) OF THE META SPC

### 4.1. Use description 1

**Table 1. Disinfection of surfaces in medical area**

Product type	PT02: Disinfectants and algaecides not intended for direct application to humans or animals
Where relevant, an exact description of the authorised use	-
Target organism(s) (including development stage)	Scientific name: no data Common name: Bacteria Development stage: no data  Scientific name: no data Common name: fungi Development stage: no data  Scientific name: no data Common name: Yeast Development stage: no data  Scientific name: no data Common name: Virus Development stage: no data
Field(s) of use	indoor use  Healthcare
Application method(s)	Method: manual application  Detailed description: Wiping, moping (without mechanical action)
Application rate(s) and frequency	Application Rate: -  Dilution (%): Mandatory target organisms: - Bacteria and yeasts: 7.9% v/v Other target organisms: - Fungi and virus: 7.9% v/v  Number and timing of application: Contact time: 5 min Room temperature
Category(ies) of users	professional
Pack sizes and packaging material	HDPE container: 10L, 20L HDPE tank: 1000L

#### 4.1.1. Use-specific instructions for use

-

#### 4.1.2. Use-specific risk mitigation measures

- Avoid any direct or indirect contact with food
- Wear protective chemical resistant gloves (glove material to be specified by the authorisation holder within the product information), a protective coverall and goggles during the handling phase of the product (M&L and application).
- Do not allow to enter the room before the treated surfaces are completely dried.
- Ensure that the children are not present during the application of the product and until the surfaces are completely dried.

**4.1.3. Where specific to the use, the particulars of likely direct or indirect effects, first aid instructions and emergency measures to protect the environment**

-

**4.1.4. Where specific to the use, the instructions for safe disposal of the product and its packaging**

-

**4.1.5. Where specific to the use, the conditions of storage and shelf-life of the product under normal conditions of storage**

-

**4.2. Use description 2**

**Table 2. Disinfection of surfaces in contact with food**

Product type	PT04: Food and feed area
Where relevant, an exact description of the authorised use	-
Target organism(s) (including development stage)	<p>Scientific name: no data Common name: Bacteria Development stage: no data</p> <p>Scientific name: no data Common name: fungi Development stage: no data</p> <p>Scientific name: no data Common name: Yeast Development stage: no data</p> <p>Scientific name: no data Common name: Virus (except for agricultural areas) Development stage: no data</p>
Field(s) of use	<p>indoor use</p> <p>Industry (general case, meat, milk, non-alcoholic, alcoholic beverages, agricultural), institutions</p>
Application method(s)	<p>Method: manual application</p> <p>Detailed description: Wiping, mopping (without mechanical action)</p>
Application rate(s) and frequency	<p>Application Rate: -</p> <p>Dilution (%): Disinfection of surfaces in institutions, industries (general case), meat industries, milk industries and alcoholic beverages industries) by wiping, mopping: Mandatory target organisms: - Bacteria and yeasts: 7.9% v/v Other target organisms: - Fungi and virus: 7.9% v/v Disinfection of hard surfaces in non-alcoholic beverages industries by wiping, mopping: Mandatory target organisms: - Bacteria and yeasts: 11.2% v/v Other target organisms: - Fungi and virus: 11.2% v/v Disinfection of hard surfaces in agricultural by wiping, mopping: Mandatory target organisms: - Bacteria and yeasts: 11.2% v/v Other target organisms: - Fungi: 11.2% v/v</p>

	Number and timing of application: Contact time: 5 min Room temperature
Category(ies) of users	professional
Pack sizes and packaging material	HDPE container 10L, 20L HDPE tank 1000L

#### 4.2.1. Use-specific instructions for use

-

#### 4.2.2. Use-specific risk mitigation measures

- Rinse surfaces after treatment
- Wear protective chemical resistant gloves (glove material to be specified by the authorisation holder within the product information), a protective coverall and goggles during the handling phase of the product (M&L and application).
- Do not allow to enter the room before the treated surfaces are completely dried.
- Ensure that the children are not present during the application of the product and until the surfaces are completely dried.

#### 4.2.3. Where specific to the use, the particulars of likely direct or indirect effects, first aid instructions and emergency measures to protect the environment

-

#### 4.2.4. Where specific to the use, the instructions for safe disposal of the product and its packaging

-

#### 4.2.5. Where specific to the use, the conditions of storage and shelf-life of the product under normal conditions of storage

-

### 4.3. Use description 3

**Table 3. Disinfection of hard surfaces in institutions/industry**

Product type	PT02: Disinfectants and algacides not intended for direct application to humans or animals
Where relevant, an exact description of the authorised use	-
Target organism(s) (including development stage)	<p>Scientific name: no data Common name: Bacteria Development stage: no data</p> <p>Scientific name: no data Common name: fungi Development stage: no data</p> <p>Scientific name: no data Common name: Yeast Development stage: no data</p> <p>Scientific name: no data Common name: Virus (except for agricultural areas) Development stage: no data</p>
Field(s) of use	indoor use

	Industry (cosmetics, agricultural, general case), institutions
Application method(s)	Method: manual application  Detailed description: Wiping, moping (without mechanical action)
Application rate(s) and frequency	Application Rate: -  Dilution (%): Disinfection of surfaces in institutions, industries (general case) and cosmetic industries) by wiping, mopping: Mandatory target organisms: - Bacteria and yeasts: 7.9% v/v Other target organisms: - Fungi and virus: 7.9% v/v Disinfection of hard surfaces in agricultural industries by wiping, mopping: Mandatory target organisms: - Bacteria and yeasts: 11.2% v/v Other target organisms: - Fungi: 11.2% v/v  Number and timing of application: Contact time: 5 min Room temperature

**Table 6. Disinfection of non-porous hard surfaces in livestock transport vehicles**

Product type	PT03: Veterinary hygiene
Where relevant, an exact description of the authorised use	-
Target organism(s) (including development stage)	<p>Scientific name: no data Common name: Bacteria Development stage: no data</p> <p>Scientific name: no data Common name: fungi Development stage: no data</p> <p>Scientific name: no data Common name: Yeast Development stage: no data</p> <p>Scientific name: no data Common name: Virus Development stage: no data</p>
Field(s) of use	<p>indoor use</p> <p>Veterinary healthcare facilities, animal housings (such as kennels, hutches, cages, bee hives, stables, etc.), livestock (poultry, bovine, etc.) buildings</p>
Application method(s)	<p>Method: manual application</p> <p>Detailed description: Wiping, moping (without mechanical action)</p>
Application rate(s) and frequency	<p>Application Rate: -</p> <p>Dilution (%): Mandatory target organisms: - Bacteria, yeasts and virus: 9.3% v/v Other target organisms: - Fungi: 9.3% v/v</p>

	Number and timing of application: Contact time: 5 min Room temperature
Category(ies) of users	professional
Pack sizes and packaging material	HDPE container 10L, 20L HDPE tank 1000L

#### 4.6.1. Use-specific instructions for use

#### 4.6.2. Use-specific risk mitigation measures

- Rinse surfaces after treatment
- Only use in empty livestock transport vehicles.
- Remove all feed and drinks prior to treatment
- Wear protective chemical resistant gloves (glove material to be specified by the authorisation holder within the product information), a protective coverall and goggles during the handling phase of the product (M&L and application).
- Do not allow to enter the room before the treated surfaces are completely dried.
- Do not allow animals to enter the treated area during the disinfection process and before the surfaces are completely dried

#### 4.6.3. Where specific to the use, the particulars of likely direct or indirect effects, first aid instructions and emergency measures to protect the environment

-

#### 4.6.4. Where specific to the use, the instructions for safe disposal of the product and its packaging

-

## **5. GENERAL DIRECTIONS FOR USE OF THE META SPC 11**

### **5.1. Instructions for use**

- Products should not be used in conjunction with acids or ammonia.
- Inform the registration holder if the treatment is ineffective.
- Make sure to wet surfaces completely. Allow to take effect for the contact time needed.
- Apply only on non-porous surfaces.

### **5.2. Risk mitigation measures**

-

### **5.3. Particulars of likely direct or indirect effects, first aid instructions and emergency measures to protect the environment**

IF ON SKIN: Immediately wash skin with plenty of water. Thereafter take off all contaminated clothing and wash it before reuse. Continue to wash the skin with water for 15 minutes.

Call a POISON CENTRE or a doctor.

IF IN EYES: Immediately rinse with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing for at least 15 minutes.

Call 112/ambulance for medical assistance.

Information to Healthcare personnel/doctor:

The eyes should also be rinsed repeatedly on the way to the doctor if eye exposure to alkaline chemicals (pH > 11), amines and acids like acetic acid, formic acid or propionic acid

IF SWALLOWED: Immediately rinse mouth. Give something to drink, if exposed person is able to swallow.

Do NOT induce vomiting. Call 112/ambulance for medical assistance.

IF INHALED: Move to fresh air and keep at rest in a position comfortable for breathing. If symptoms: Call 112/ambulance for medical assistance. If no symptoms: Call a POISON CENTRE or a doctor.

### **5.4. Instructions for safe disposal of the product and its packaging**

- Do not discharge unused product on the ground, into water courses, into pipes (sink, toilets...) nor down the drains.
- Dispose of unused product, its packaging and all other waste, in accordance with local regulations.

### **5.5. Conditions of storage and shelf-life of the product under normal conditions of storage**

Do not store above 30°C

Protect from frost

Protect from direct sunlight

Shelf life: 3 months

---

## **6. OTHER INFORMATION**

- For PT3 and PT4 professional uses, the applicant should inform users of the product of the existence of MRLs for chlorates. They may be held liable if these MRLs are exceeded during controls carried out on foodstuffs.
- For professional PT4 use Disinfection of inner surfaces in water systems: The user should control the concentration of chlorate present in the drinking water to ensure that this concentration does not exceed the parametric values set in Directive 2020/2184.

## 7. THIRD INFORMATION LEVEL: INDIVIDUAL PRODUCTS IN THE META SPC 11

### 7.1. Trade name(s), authorisation number and specific composition of each individual product

Trade name(s)	20L Eau de Javel 12,5% c.a. STROMB	Market area: FR
	1000L Eau de Javel 12,5% c.a. STROMB	Market area: FR
	10L Eau de Javel 12,5% c.a. STROMB	Market area: FR
	20L Eau de Javel 12,5% c.a. First Clean	Market area: FR
	HYPOCHLORITE DE SOUDE 13% LTSA	Market area: FR
	HYPOCHLORITE DE SOUDE 13% LTCSA	Market area: FR
Authorisation number	FR-0020890-0013 1-6	

Common name	IUPAC name	Function	CAS number	EC number	Content (%)
Active chlorine released from sodium hypochlorite		active substance			12,5
Sodium hypochlorite (technical solution with minimum purity of 14.7% w/w NaOCl)	Sodium hypochlorite	Non-active substance	7681-52-9	231-668-3	89,29

---

## 1. META SPC 12 ADMINISTRATIVE INFORMATION

### 1.1. Meta SPC 12 identifier

Identifier	Meta SPC: Meta SPC 7.11
------------	-------------------------

### 1.2. Suffix to the authorisation number

Number	1-7
--------	-----

### 1.3. Product type(s)

Product type(s)	PT02: Disinfectants and algaecides not intended for direct application to humans or animals PT04: Food and feed area PT03: Veterinary hygiene
-----------------	---

---

## 2. META SPC 12 COMPOSITION

### 2.1. Qualitative and quantitative information on the composition of the meta SPC 12

Common name	IUPAC name	Function	CAS number	EC number	Content (%)
Active chlorine released from sodium hypochlorite		active substance			3,6 - 3,6 % (w/w)
Sodium hypochlorite (technical solution with minimum purity of 14.7% w/w NaOCl)	Sodium hypochlorite	Non-active substance	7681-52-9	231-668-3	25,71 - 25,71 % (w/w)

### 2.2. Type(s) of formulation of the meta SPC 12

Formulation type(s)	Soluble concentrate
---------------------	---------------------

### 3. HAZARD AND PRECAUTIONARY STATEMENTS OF THE META SPC 12

Hazard statements	<p>H290: May be corrosive to metals.</p> <p>H315: Causes skin irritation.</p> <p>H318: Causes serious eye damage.</p> <p>H410: Very toxic to aquatic life with long lasting effects.</p>
Precautionary statements	<p>P501: Dispose of contents to according to local instructions..</p> <p>P391: Collect spillage.</p> <p>P390: Absorb spillage to prevent material damage.</p> <p>P310: Immediately call a POISON CENTER.</p> <p>P305+P351+P338: IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.</p> <p>P302+P352: IF ON SKIN: Wash with plenty of water.</p> <p>P273: Avoid release to the environment.</p> <p>P102: Keep out of reach of children.</p> <p>P332+P313: If skin irritation occurs: Get medical advice.</p> <p>P264: Wash hands thoroughly after handling.</p> <p>P234: Keep only in original packaging.</p> <p>P273: Avoid release to the environment.</p> <p>P362+P364: Take off contaminated clothing and wash it before reuse.</p> <p>P321: Specific treatment (see instructions on this label).</p> <p>P280: Wear protective gloves/ protective clothing/eye protection/face protection.</p>

## 4. AUTHORISED USE(S) OF THE META SPC

### 4.1. Use description 1

**Table 1. Disinfection of surfaces in medical area**

Product type	PT02: Disinfectants and algaecides not intended for direct application to humans or animals
Where relevant, an exact description of the authorised use	-
Target organism(s) (including development stage)	Scientific name: no data Common name: Bacteria Development stage: no data  Scientific name: no data Common name: fungi Development stage: no data  Scientific name: no data Common name: Yeast Development stage: no data  Scientific name: no data Common name: Virus Development stage: no data
Field(s) of use	indoor use  Healthcare
Application method(s)	Method: manual application  Detailed description: Wiping, moping (without mechanical action)
Application rate(s) and frequency	Application Rate: -  Dilution (%): Mandatory target organisms: - Bacteria and yeast: 23% v/v Other target organisms: - Fungi and virus: 23% v/v  Number and timing of application: Contact time: 5 min Room temperature
Category(ies) of users	professional
Pack sizes and packaging material	HDPE bottle 0.12L, 0.25L HDPE container 5L

#### 4.1.1. Use-specific instructions for use

-

#### 4.1.2. Use-specific risk mitigation measures

- Avoid any direct or indirect contact with food
- Wear protective chemical resistant gloves (glove material to be specified by the authorisation holder within the product information), a protective coverall and goggles during the handling phase of the product (M&L and application).
- Do not allow to enter the room before the treated surfaces are completely dried.
- Ensure that the children are not present during the application of the product and until the surfaces are completely dried.

**4.1.3. Where specific to the use, the particulars of likely direct or indirect effects, first aid instructions and emergency measures to protect the environment**

-

**4.1.4. Where specific to the use, the instructions for safe disposal of the product and its packaging**

-

**4.1.5. Where specific to the use, the conditions of storage and shelf-life of the product under normal conditions of storage**

-

**4.2. Use description 2**

**Table 2. Disinfection of surfaces in contact with food**

Product type	PT04: Food and feed area
Where relevant, an exact description of the authorised use	-
Target organism(s) (including development stage)	<p>Scientific name: no data Common name: Bacteria Development stage: no data</p> <p>Scientific name: no data Common name: fungi Development stage: no data</p> <p>Scientific name: no data Common name: Yeast Development stage: no data</p> <p>Scientific name: no data Common name: Virus (except for agricultural areas) Development stage: no data</p>
Field(s) of use	<p>indoor use</p> <p>Industry (general case, meat, milk, non-alcoholic, alcoholic beverages, agricultural), institutions</p>
Application method(s)	<p>Method: manual application</p> <p>Detailed description: Wiping, mopping (without mechanical action)</p>
Application rate(s) and frequency	<p>Application Rate: -</p> <p>Dilution (%): Disinfection of surfaces in institutions, industries (general case), meat industries, milk industries and alcoholic beverages industries) by wiping, mopping: Mandatory target organisms: - Bacteria and yeast: 23% v/v Other target organisms: - Fungi and virus: 23% v/v Disinfection of hard surfaces in non-alcoholic beverages industries by wiping, mopping: Mandatory target organisms: - Bacteria and yeast: 34% v/v Other target organisms: - Fungi and virus: 34% v/v Disinfection of hard surfaces in agricultural by wiping, mopping: Mandatory target organisms: - Bacteria and yeast: 34% v/v Other target organisms: - Fungi: 34% v/v</p>

	Number and timing of application: Contact time: 5 min Room temperature
Category(ies) of users	professional
Pack sizes and packaging material	HDPE bottle 0.12L, 0.25L HDPE container 5L

#### 4.2.1. Use-specific instructions for use

-

#### 4.2.2. Use-specific risk mitigation measures

- Rinse surfaces after treatment
- Wear protective chemical resistant gloves (glove material to be specified by the authorisation holder within the product information), a protective coverall and goggles during the handling phase of the product (M&L and application).
- Do not allow to enter the room before the treated surfaces are completely dried.
- Ensure that the children are not present during the application of the product and until the surfaces are completely dried.

#### 4.2.3. Where specific to the use, the particulars of likely direct or indirect effects, first aid instructions and emergency measures to protect the environment

-

#### 4.2.4. Where specific to the use, the instructions for safe disposal of the product and its packaging

-

#### 4.2.5. Where specific to the use, the conditions of storage and shelf-life of the product under normal conditions of storage

-

### 4.3. Use description 3

**Table 3. Disinfection of surfaces in institutions/industry**

Product type	PT02: Disinfectants and algaecides not intended for direct application to humans or animals
Where relevant, an exact description of the authorised use	-
Target organism(s) (including development stage)	<p>Scientific name: no data Common name: Bacteria Development stage: no data</p> <p>Scientific name: no data Common name: fungi Development stage: no data</p> <p>Scientific name: no data Common name: Yeast Development stage: no data</p> <p>Scientific name: no data Common name: Virus (except for agricultural areas) Development stage: no data</p>

Field(s) of use	indoor use Industry (cosmetics, agricultural, general case), institutions
Application method(s)	Method: manual application Detailed description: Wiping, mopping (without mechanical action)
Application rate(s) and frequency	Application Rate: - Dilution (%): Disinfection of surfaces in institutions, industries (general case) and cosmetic industries) by wiping, mopping: Mandatory target organisms: - Bacteria and yeast: 23% v/v Other target organisms: - Fungi and virus: 23% v/v Disinfection of hard surfaces in agricultural industries by wiping, mopping: Mandatory target organisms: - Bacteria and yeast: 34% v/v Other target organisms: - Fungi: 34% v/v Number and timing of application: Contact time: 5 min Room temperature
Category(ies) of users	professional
Pack sizes and packaging material	HDPE bottle 0.12L, 0.25L HDPE container 5L

#### 4.3.1. Use-specific instructions for use

-

#### 4.3.2. Use-specific risk mitigation measures

- Avoid any direct or indirect contact with food
- Wear protective chemical resistant gloves (glove material to be specified by the authorisation holder within the product information), a protective coverall and goggles during the handling phase of the product (M&L and application).
- Do not allow to enter the room before the treated surfaces are completely dried.
- Ensure that the children are not present during the application of the product and until the surfaces are completely dried.

#### 4.3.3. Where specific to the use, the particulars of likely direct or indirect effects, first aid instructions and emergency measures to protect the environment

-

#### 4.3.4. Where specific to the use, the instructions for safe disposal of the product and its packaging

-

#### 4.3.5. Where specific to the use, the conditions of storage and shelf-life of the product under normal conditions of storage

-

#### 4.4. Use description 4

**Table 4. Disinfection of surfaces by CIP**

Product type	PT02: Disinfectants and algacides not intended for direct application to humans or animals PT04: Food and feed area

#### **4.8.4. Where specific to the use, the instructions for safe disposal of the product and its packaging**

-

#### **4.8.5. Where specific to the use, the conditions of storage and shelf-life of the product under normal conditions of storage**

-

---

## **5. GENERAL DIRECTIONS FOR USE OF THE META SPC 12**

### **5.1. Instructions for use**

- The products should not be used in conjunction with acids or ammonia.
- Inform the registration holder if the treatment is ineffective.
- Make sure to wet surfaces completely. Allow to take effect for the contact time needed.
- Apply only on non-porous surfaces.

### **5.2. Risk mitigation measures**

-

### **5.3. Particulars of likely direct or indirect effects, first aid instructions and emergency measures to protect the environment**

IF ON SKIN: Immediately wash skin with plenty of water. Thereafter take off all contaminated clothing and wash it before reuse. Continue to wash the skin with water for 15 minutes.

Call a POISON CENTRE or a doctor.

IF IN EYES: Immediately rinse with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing for at least 15 minutes.

Call 112/ambulance for medical assistance.

Information to Healthcare personnel/doctor:

The eyes should also be rinsed repeatedly on the way to the doctor if eye exposure to alkaline chemicals (pH > 11), amines and acids like acetic acid, formic acid or propionic acid

IF SWALLOWED: Immediately rinse mouth. Give something to drink, if exposed person is able to swallow.

Do NOT induce vomiting. Call 112/ambulance for medical assistance.

IF INHALED: Move to fresh air and keep at rest in a position comfortable for breathing. If symptoms: Call 112/ambulance for medical assistance. If no symptoms: Call a POISON CENTRE or a doctor.

### **5.4. Instructions for safe disposal of the product and its packaging**

- Do not discharge unused product on the ground, into water courses, into pipes (sink, toilets...) nor down the drains.
- Dispose of unused product, its packaging and all other waste, in accordance with local regulations.

### **5.5. Conditions of storage and shelf-life of the product under normal conditions of storage**

Do not store above 30°C

Protect from frost

Protect from direct sunlight

Shelf life: 11 months

---

## **6. OTHER INFORMATION**

- For PT3 and PT4 professional uses, the applicant should inform users of the product of the existence of MRLs for chlorates. They may be held liable if these MRLs are exceeded during controls carried out on foodstuffs.
- For professional PT4 use Disinfection of inner surfaces in water systems: The user should control the concentration of chlorate present in the drinking water to ensure that this concentration does not exceed the parametric values set in Directive 2020/2184.

## 7. THIRD INFORMATION LEVEL: INDIVIDUAL PRODUCTS IN THE META SPC 12

### 7.1. Trade name(s), authorisation number and specific composition of each individual product

Trade name(s)	120mL Eau de Javel 3,6% c.a. Oxolis	Market area: FR
	250mL Eau de Javel 3,6% c.a. Oxolis	Market area: FR
	5L JAVEL BEC BLANC 3,6% c.a.	Market area: FR
Authorisation number	FR-0020890-0014 1-7	

Common name	IUPAC name	Function	CAS number	EC number	Content (%)
Active chlorine released from sodium hypochlorite		active substance			3,6
Sodium hypochlorite (technical solution with minimum purity of 14.7% w/w NaOCl)	Sodium hypochlorite	Non-active substance	7681-52-9	231-668-3	25,71

---

## 1. META SPC 13 ADMINISTRATIVE INFORMATION

### 1.1. Meta SPC 13 identifier

Identifier	Meta SPC: Meta SPC 7.12
------------	-------------------------

### 1.2. Suffix to the authorisation number

Number	1-8
--------	-----

### 1.3. Product type(s)

Product type(s)	PT02: Disinfectants and algaecides not intended for direct application to humans or animals PT04: Food and feed area PT03: Veterinary hygiene
-----------------	---

---

## 2. META SPC 13 COMPOSITION

### 2.1. Qualitative and quantitative information on the composition of the meta SPC 13

Common name	IUPAC name	Function	CAS number	EC number	Content (%)
Active chlorine released from sodium hypochlorite		active substance			4,8 - 4,8 % (w/w)
Sodium hypochlorite (technical solution with minimum purity of 14.7% w/w NaOCl)	Sodium hypochlorite	Non-active substance	7681-52-9	231-668-3	34,29 - 34,29 % (w/w)

### 2.2. Type(s) of formulation of the meta SPC 13

Formulation type(s)	Soluble concentrate
---------------------	---------------------

### 3. HAZARD AND PRECAUTIONARY STATEMENTS OF THE META SPC 13

<p>Hazard statements</p>	<p>H290: May be corrosive to metals.</p> <p>H315: Causes skin irritation.</p> <p>H318: Causes serious eye damage.</p> <p>H410: Very toxic to aquatic life with long lasting effects.</p> <p>EUH031: Contact with acids liberates toxic gas.</p>

Remove contact lenses, if present and easy to do. Continue rinsing.</p> <p>P302+P352: IF ON SKIN: Wash with plenty of water.</p> <p>P280: Wear protective gloves.</p> <p>P280: Wear protective clothing.</p> <p>P280: Wear eye protection.</p> <p>P280: Wear face protection.</p> <p>P273: Avoid release to the environment.</p> <p>P102: Keep out of reach of children.</p> <p>P332+P313: If skin irritation occurs: Get medical advice.</p> <p>P264: Wash hands thoroughly after handling.</p> <p>P234: Keep only in original packaging.</p> <p>P273: Avoid release to the environment.</p> <p>P362+P364: Take off contaminated clothing and wash it before reuse.</p> <p>P321: Specific treatment (see instructions on this label).</p>

## 4. AUTHORISED USE(S) OF THE META SPC

### 4.1. Use description 1

**Table 1. Disinfection of surfaces in medical area**

Product type	PT02: Disinfectants and algaecides not intended for direct application to humans or animals
Where relevant, an exact description of the authorised use	-
Target organism(s) (including development stage)	Scientific name: no data Common name: Bacteria Development stage: no data  Scientific name: no data Common name: fungi Development stage: no data  Scientific name: no data Common name: Yeast Development stage: no data  Scientific name: no data Common name: Virus Development stage: no data
Field(s) of use	indoor use  Healthcare
Application method(s)	Method: manual application  Detailed description: Wiping, moping (without mechanical action)
Application rate(s) and frequency	Application Rate: -  Dilution (%): Mandatory target organisms: - Bacteria and yeasts: 15% v/v Other target organisms: - Fungi and virus: 15% v/v  Number and timing of application: Contact time: 5 min Room temperature
Category(ies) of users	professional
Pack sizes and packaging material	HDPE bottle 2L

#### 4.1.1. Use-specific instructions for use

-

#### 4.1.2. Use-specific risk mitigation measures

- Avoid any direct or indirect contact with food
- Wear protective chemical resistant gloves (glove material to be specified by the authorisation holder within the product information), a protective coverall and goggles during the handling phase of the product (M&L and application).
- Do not allow to enter the room before the treated surfaces are completely dried.
- Ensure that the children are not present during the application of the product and until the surfaces are completely dried.

**4.1.3. Where specific to the use, the particulars of likely direct or indirect effects, first aid instructions and emergency measures to protect the environment**

-

**4.1.4. Where specific to the use, the instructions for safe disposal of the product and its packaging**

-

**4.1.5. Where specific to the use, the conditions of storage and shelf-life of the product under normal conditions of storage**

-

## **4.2. Use description 2**

**Table 2. Disinfection of surfaces in contact with food**

Product type	PT04: Food and feed area
Where relevant, an exact description of the authorised use	-
Target organism(s) (including development stage)	<p>Scientific name: no data Common name: Bacteria Development stage: no data</p> <p>Scientific name: no data Common name: fungi Development stage: no data</p> <p>Scientific name: no data Common name: Yeast Development stage: no data</p> <p>Scientific name: no data Common name: Virus (except for agricultural areas) Development stage: no data</p>
Field(s) of use	<p>indoor use</p> <p>Industry (general case, meat, milk, non-alcoholic, alcoholic beverages, agricultural), institutions</p>
Application method(s)	<p>Method: manual application</p> <p>Detailed description: Wiping, mopping (without mechanical action)</p>
Application rate(s) and frequency	<p>Application Rate: -</p> <p>Dilution (%): Disinfection of surfaces in institutions, industries (general case), meat industries, milk industries and alcoholic beverages industries) by wiping, mopping: Mandatory target organisms: - Bacteria and yeasts: 15% v/v Other target organisms: - Fungi and virus: 15% v/v Disinfection of hard surfaces in non-alcoholic beverages industries by wiping, mopping: Mandatory target organisms: - Bacteria and yeasts: 23% v/v Other target organisms: - Fungi: 23% v/v Disinfection of hard surfaces in agricultural industries by wiping, mopping: Mandatory target organisms: - Bacteria and yeasts: 23% v/v Other target organisms: - Fungi: 23% v/v</p>

	Number and timing of application: Contact time: 5 min Room temperature
Category(ies) of users	professional
Pack sizes and packaging material	HDPE bottle 2L

#### 4.2.1. Use-specific instructions for use

-

#### 4.2.2. Use-specific risk mitigation measures

- Rinse surfaces after treatment
- Wear protective chemical resistant gloves (glove material to be specified by the authorisation holder within the product information), a protective coverall and goggles during the handling phase of the product (M&L and application).
- Do not allow to enter the room before the treated surfaces are completely dried.
- Ensure that the children are not present during the application of the product and until the surfaces are completely dried.

Application rate(s) and frequency	Application Rate: -  Dilution (%): Mandatory target organisms: - Bacteria and yeasts: 30% v/v Other target organisms: - Fungi and virus: 30% v/v  Number and timing of application: Contact time: 5 min Room temperature
Category(ies) of users	professional
Pack sizes and packaging material	HDPE bottle 1L, 2L HDPE container 5L, 10L,20L

#### 4.1.1. Use-specific instructions for use

-

#### 4.1.2. Use-specific risk mitigation measures

- Avoid any direct or indirect contact with food
- Wear protective chemical resistant gloves (glove material to be specified by the authorisation holder within the product information), a protective coverall and face shield during the handling phase of the product (M&L and application).
- Do not allow to enter the room before the treated surfaces are completely dried.
- Ensure that the children are not present during the application of the product and until the surfaces are completely dried.

**4.1.3. Where specific to the use, the particulars of likely direct or indirect effects, first aid instructions and emergency measures to protect the environment**

-

**4.1.4. Where specific to the use, the instructions for safe disposal of the product and its packaging**

-

**4.1.5. Where specific to the use, the conditions of storage and shelf-life of the product under normal conditions of storage**

-

**4.2. Use description 2**

**Table 2. Disinfection of surfaces in contact with food**

### 4.3. Use description 3

**Table 3. Disinfection of surfaces in institutions/industry**

Product type	PT02: Disinfectants and algacides not intended for direct application to humans or animals
Where relevant, an exact description of the authorised use	-
Target organism(s) (including development stage)	<p>Scientific name: no data Common name: Bacteria Development stage: no data</p> <p>Scientific name: no data Common name: fungi Development stage: no data</p> <p>Scientific name: no data Common name: Yeast Development stage: no data</p> <p>Scientific name: no data Common name: Virus (except for agricultural areas) Development stage: no data</p>
Field(s) of use	indoor use

	Industry (cosmetics, agricultural, general case), institutions
Application method(s)	Method: manual application  Detailed description: Wiping, mopping - without mechanical action
Application rate(s) and frequency	Application Rate: -  Dilution (%): Disinfection of surfaces in institutions, industries (general case) and cosmetic industries) by wiping, mopping: Mandatory target organisms: - Bacteria and yeasts: 30% v/v Other target organisms: - Fungi and virus: 30% v/v Disinfection of hard surfaces in agricultural industries by wiping, mopping: Mandatory target organisms: - Bacteria and yeasts: 45% v/v Other target organisms: - Fungi: 45% v/v  Number and timing of application: Contact time: 5 min Room temperature
Category(ies) of users	professional
Pack sizes and packaging material	HDPE bottle 1L, 2L HDPE container 5L, 10L,20L

#### 4.3.1. Use-specific instructions for use

-

#### 4.3.2. Use-specific risk mitigation measures

- Avoid any direct or indirect contact with food
- Wear protective chemical resistant gloves (glove material to be specified by the authorisation holder within the product information), a protective overall and face shield during the handling phase of the product (M&L and application).
- Do not allow to enter the room before the treated surfaces are completely dried.
- Ensure that the children are not present during the application of the product and until the surfaces are completely dried.

#### 4.3.3. Where specific to the use, the particulars of likely direct or indirect effects, first aid instructions and emergency measures to protect the environment

-

#### 4.3.4. Where specific to the use, the instructions for safe disposal of the product and its packaging

-

#### 4.3.5. Where specific to the use, the conditions of storage and shelf-life of the product under normal conditions of storage

#### 4.4. Use description 4

**Table 4. Disinfection of surfaces by CIP**

Product type	PT02: Disinfectants and algacides not intended for direct application to humans or animals PT04: Food and feed area
Where relevant, an exact description of the authorised use	-

Target organism(s) (including development stage)	<p>Scientific name: no data Common name: Bacteria Development stage: no data</p> <p>Scientific name: no data Common name: fungi Development stage: no data</p> <p>Scientific name: no data Common name: Yeast Development stage: no data</p> <p>Scientific name: no data Common name: Virus (except for agricultural areas) Development stage: no data</p>
Field(s) of use	<p>indoor use</p> <p>Industry (cosmetics, agricultural, general case, meat, milk, non-alcoholic, alcoholic beverages), institutions</p>
Application method(s)	<p>Method: CIP</p> <p>Detailed description: -</p>
Application rate(s) and frequency	<p>Application Rate: -</p> <p>Dilution (%): Disinfection of surfaces in institutions, industries (general case), meat industries, milk industries, cosmetic industries and alcoholic beverages industries) by CIP: Mandatory target organisms: - Bacteria and yeasts: 30% v/v Other target organisms: - Fungi and virus: 30% v/v Disinfection of hard surfaces in non-alcoholic beverages industries by CIP: Mandatory target organisms: - Bacteria and yeasts: 45% v/v Other target organisms: - Fungi and virus: 45% v/v Disinfection of hard surfaces in agricultural industries by CIP: Mandatory target organisms: - Bacteria and yeasts: 45% v/v Other target organisms: - Fungi: 45% v/v</p> <p>Number and timing of application: Contact time: 5 min Room temperature</p>
Category(ies) of users	professional
Pack sizes and packaging material	<p>HDPE bottle 1L, 2L</p> <p>HDPE container 5L, 10L,20L</p>

#### 4.4.1. Use-specific instructions for use

-

#### 4.4.2. Use-specific risk mitigation measures

- For PT 2 uses, avoid any direct or indirect contact with food
- For PT 4 uses, rinse surfaces after treatment
- Wear protective chemical resistant gloves (glove material to be specified by the authorisation holder within the product information), a protective overall and goggles during the application of the product (M&L) and post-application tasks (maintenance of the system).

#### 4.4.3. Where specific to the use, the particulars of likely direct or indirect effects, first aid instructions and emergency measures to protect the environment

-

**4.4.4. Where specific to the use, the instructions for safe disposal of the product and its packaging**

-

**4.4.5. Where specific to the use, the conditions of storage and shelf-life of the product under normal conditions of storage**

-

**4.5. Use description 5**

**Table 5. Disinfection of non-porous hard surfaces in veterinary area**

Product type	PT03: Veterinary hygiene
Where relevant, an exact description of the authorised use	-
Target organism(s) (including development stage)	<p>Scientific name: no data Common name: Bacteria Development stage: no data</p> <p>Scientific name: no data Common name: fungi Development stage: no data</p> <p>Scientific name: no data Common name: Yeast Development stage: no data</p> <p>Scientific name: no data Common name: Virus Development stage: no data</p>
Field(s) of use	<p>indoor use</p> <p>Veterinary healthcare facilities, animal housings (such as kennels, hutches, cages, bee hives, stables, etc.), livestock (poultry, bovine, etc.) buildings</p>
Application method(s)	<p>Method: manual application</p> <p>Detailed description: Wiping, moping (without mechanical action)</p>
Application rate(s) and frequency	<p>Application Rate: -</p> <p>Dilution (%): Mandatory target organisms: - Bacteria and yeasts: 27% v/v Other target organisms: - Fungi: 31% v/v - Virus: 35% v/v</p> <p>Number and timing of application: Contact time: 5 min Room temperature</p>
Category(ies) of users	professional
Pack sizes and packaging material	<p>HDPE bottle 1L, 2L</p> <p>HDPE container 5L, 10L,20L</p>

**4.5.1. Use-specific instructions for use**

**4.5.2. Use-specific risk mitigation measures**

- Rinse surfaces after treatment

- Only use in empty animal housing.
- Remove all feed and drinks prior to treatment
- Wear protective chemical resistant gloves (glove material to be specified by the authorisation holder within the product information), a protective coverall and goggles during the handling phase of the product (M&L and application).
- Do not allow to enter the room before the treated surfaces are completely dried.
- Do not allow animals to enter the treated area during the disinfection process and before the surfaces are completely dried

**4.5.3. Where specific to the use, the particulars of likely direct or indirect effects, first aid instructions and emergency measures to protect the environment**

-

**4.5.4. Where specific to the use, the instructions for safe disposal of the product and its packaging**

-

**4.5.5. Where specific to the use, the conditions of storage and shelf-life of the product under normal conditions of storage**

-

**4.6. Use description 6**

**Table 6. Disinfection of non-porous hard surfaces in livestock transportation vehicles**

Product type	PT03: Veterinary hygiene
Where relevant, an exact description of the authorised use	-
Target organism(s) (including development stage)	<p>Scientific name: no data Common name: Bacteria Development stage: no data</p> <p>Scientific name: no data Common name: fungi Development stage: no data</p> <p>Scientific name: no data Common name: Yeast Development stage: no data</p> <p>Scientific name: no data Common name: Virus Development stage: no data</p>
Field(s) of use	<p>indoor use</p> <p>Livestock transportation vehicles</p>
Application method(s)	<p>Method: manual application</p> <p>Detailed description: Wiping, moping (without mechanical action)</p>
Application rate(s) and frequency	<p>Application Rate: -</p> <p>Dilution (%): Mandatory target organisms: - Bacteria, yeasts and virus: 35% v/v Other target organisms: - Fungi: 35% v/v</p> <p>Number and timing of application:</p>

	Contact time: 5 min Room temperature
Category(ies) of users	professional
Pack sizes and packaging material	HDPE bottle 1L, 2L HDPE container 5L, 10L,20L

#### 4.6.1. Use-specific instructions for use

#### 4.6.2. Use-specific risk mitigation measures

- Rinse surfaces after treatment
- Only use in empty livestock transport vehicles.
- Remove all feed and drinks prior to treatment
- Wear protective chemical resistant gloves (glove material to be specified by the authorisation holder within the product information), a protective coverall and goggles during the handling phase of the product (M&L and application).
- Do not allow to enter the room before the treated surfaces are completely dried.
- Do not allow animals to enter the treated area during the disinfection process and before the surfaces are completely dried

#### 4.6.3. Where specific to the use, the particulars of likely direct or indirect effects, first aid instructions and emergency measures to protect the environment

-

#### 4.6.4. Where specific to the use, the instructions for safe disposal of the product and its packaging

## **5. GENERAL DIRECTIONS FOR USE OF THE META SPC 14**

### **5.1. Instructions for use**

- The products should not be used in conjunction with acids or ammonia.
- Inform the registration holder if the treatment is ineffective.
- Make sure to wet surfaces completely. Allow to take effect for the contact time needed.
- Apply only on non-porous surfaces.

### **5.2. Risk mitigation measures**

-

### **5.3. Particulars of likely direct or indirect effects, first aid instructions and emergency measures to protect the environment**

IF ON SKIN: Take off all contaminated clothing and wash it before reuse. Wash skin with water. If skin irritation occurs: Get medical advice.

IF IN EYES: Rinse with water. Remove contact lenses, if present and easy to do. Continue rinsing for 5 minutes. Call a POISON CENTRE or a doctor.

IF SWALLOWED: Rinse mouth. Give something to drink, if exposed person is able to swallow. Do NOT induce vomiting. Call a POISON CENTRE or a doctor.

IF INHALED: If symptoms occur call a POISON CENTRE or a doctor.

### **5.4. Instructions for safe disposal of the product and its packaging**

- Do not discharge unused product on the ground, into water courses, into pipes (sink, toilets...) nor down the drains.
- Dispose of unused product, its packaging and all other waste, in accordance with local regulations.

### **5.5. Conditions of storage and shelf-life of the product under normal conditions of storage**

Do not store above 30°C

Protect from frost

Protect from direct sunlight

Shelf life: 11 months

---

## **6. OTHER INFORMATION**

- For PT3 and PT4 professional uses, the applicant should inform users of the product of the existence of MRLs for chlorates. They may be held liable if these MRLs are exceeded during controls carried out on foodstuffs.
- For professional PT4 use Disinfection of inner surfaces in water systems: The user should control the concentration of chlorate present in the drinking water to ensure that this concentration does not exceed the parametric values set in Directive 2020/2184.

## 7. THIRD INFORMATION LEVEL: INDIVIDUAL PRODUCTS IN THE META SPC 14

### 7.1. Trade name(s), authorisation number and specific composition of each individual product

Trade name(s)	250mL Eau de Javel à 2,6% c.a. LAJOT BEC	Market area: FR
	1L Eau de Javel à 2,6% c.a. BEC Professionnels	Market area: FR
	2L Eau de Javel à 2,6% c.a. BEC Professionnels	Market area: FR
	5L Eau de Javel à 2,6% c.a. BEC Professionnels	Market area: FR
	10L Eau de Javel à 2,6% c.a. BEC Professionnels	Market area: FR
	20L Eau de Javel à 2,6% c.a. BEC Professionnels	Market area: FR
	EAU DE JAVEL 02 JAVEL A 2,6% C.A.	Market area: FR
Authorisation number	FR-0020890-0016 1-9	

Common name	IUPAC name	Function	CAS number	EC number	Content (%)
Active chlorine released from sodium hypochlorite		active substance			2,6
Sodium hypochlorite (technical solution with minimum purity of 14.7% w/w NaOCl)	Sodium hypochlorite	Non-active substance	7681-52-9	231-668-3	18,57

---

## 1. META SPC 15 ADMINISTRATIVE INFORMATION

### 1.1. Meta SPC 15 identifier

Identifier	Meta SPC: Meta SPC 8
------------	----------------------

### 1.2. Suffix to the authorisation number

Number	1-20
--------	------

### 1.3. Product type(s)

Product type(s)	PT02: Disinfectants and algaecides not intended for direct application to humans or animals PT04: Food and feed area PT03: Veterinary hygiene
-----------------	---

---

## 2. META SPC 15 COMPOSITION

### 2.1. Qualitative and quantitative information on the composition of the meta SPC 15

Common name	IUPAC name	Function	CAS number	EC number	Content (%)
Active chlorine released from sodium hypochlorite		active substance			1,6 - 1,6 % (w/w)
Sodium hypochlorite (technical solution with minimum purity of 14.7% w/w NaOCl)	Sodium hypochlorite	Non-active substance	7681-52-9	231-668-3	11,429 - 11,429 % (w/w)

### 2.2. Type(s) of formulation of the meta SPC 15

Formulation type(s)	Soluble concentrate
---------------------	---------------------

### 3. HAZARD AND PRECAUTIONARY STATEMENTS OF THE META SPC 15

Hazard statements	H290: May be corrosive to metals. H315: Causes skin irritation. H412: Harmful to aquatic life with long lasting effects. EUH206: Warning! Do not use together with other products. May release dangerous gases (chlorine).
Precautionary statements	P501: Dispose of contents to according to local instructions.. P390: Absorb spillage to prevent material damage. P302+P352: IF ON SKIN: Wash with plenty of water. P273: Avoid release to the environment. P264: Wash hands thoroughly after handling. P234: Keep only in original packaging. P102: Keep out of reach of children. P101: If medical advice is needed, have product container or label at hand. P321: Specific treatment (see instructions on this label). P332+P313: If skin irritation occurs: Get medical advice. P362+P364: Take off contaminated clothing and wash it before reuse.

## 4. AUTHORISED USE(S) OF THE META SPC

### 4.1. Use description 1

**Table 1. Disinfection of surfaces (floors) by wiping with mop and bucket**

Product type	PT02: Disinfectants and algaecides not intended for direct application to humans or animals
Where relevant, an exact description of the authorised use	-
Target organism(s) (including development stage)	Scientific name: no data Common name: Bacteria Development stage: no data  Scientific name: no data Common name: fungi Development stage: no data  Scientific name: no data Common name: Yeasts Development stage: no data  Scientific name: no data Common name: Viruses Development stage: no data
Field(s) of use	indoor use  household
Application method(s)	Method: manual application  Detailed description: Wiping, mopping (without mechanical action)
Application rate(s) and frequency	Application Rate: -  Dilution (%): Disinfection of surfaces: Mandatory target organisms: - Bacteria : 50% v/v Other target organisms: - Fungi, yeast and virus: 50% v/v  Number and timing of application: Contact time: 5 min Room temperature
Category(ies) of users	general public (non-professional)
Pack sizes and packaging material	HDPE bottle 1L, 2L HDPE container 5L, 10L

#### 4.1.1. Use-specific instructions for use

#### 4.1.2. Use-specific risk mitigation measures

Avoid any direct or indirect contact with food

**4.1.3. Where specific to the use, the particulars of likely direct or indirect effects, first aid instructions and emergency measures to protect the environment**

**4.1.4. Where specific to the use, the instructions for safe disposal of the product and its packaging**

Field(s) of use	indoor use  household
Application method(s)	Method: manual application  Detailed description: Wiping, mopping (without mechanical action)
Application rate(s) and frequency	Application Rate: -  Dilution (%): Disinfection of surfaces: Mandatory target organisms: - Bacteria and yeasts: 44,4% v/v Other target organisms: - Fungi and virus: 57,1% v/v  Number and timing of application: Contact time: 5 min Room temperature
Category(ies) of users	general public (non-professional)
Pack sizes and packaging material	HDPE bottle 1L, 2L HDPE container 5L, 10L

---

#### **4.5.1. Use-specific instructions for use**

#### **4.5.2. Use-specific risk mitigation measures**

- Avoid any direct or indirect contact with food
- Rinse surfaces after treatment
- Only use in empty animal housing.
- Remove all feed and drinks prior to treatment

#### **4.5.3. Where specific to the use, the particulars of likely direct or indirect effects, first aid instructions and emergency measures to protect the environment**

#### **4.5.4. Where specific to the use, the instructions for safe disposal of the product and its packaging**

#### **4.5.5. Where specific to the use, the conditions of storage and shelf-life of the product under normal conditions of storage**

---

## **5. GENERAL DIRECTIONS FOR USE OF THE META SPC 15**

### **5.1. Instructions for use**

- Products should not be used in conjunction with acids or ammonia.
- Comply with the instructions for use.
- Inform the registration holder if the treatment is ineffective.
- Make sure to wet surfaces completely. Allow to take effect for the contact time needed.
- Apply only on non-porous surfaces.
- The applicant should give indications of application of the product (dilution, quantity applied on surfaces, etc.) on the label in order to guarantee a proper application of the product. The volume of product to be diluted and the specified volume of water should be clearly indicated on the label (e.g. take X volumes of product into Y volumes of water)

### **5.2. Risk mitigation measures**

- Wash hands after use.
- Avoid contact with skin.

### **5.3. Particulars of likely direct or indirect effects, first aid instructions and emergency measures to protect the environment**

IF ON SKIN: Take off all contaminated clothing and wash it before reuse. Wash skin with water. If skin irritation occurs: Get medical advice.

IF IN EYES: Rinse with water. Remove contact lenses, if present and easy to do. Continue rinsing for 5 minutes. Call a POISON CENTRE or a doctor.

IF INHALED: If symptoms occur call a POISON CENTRE or a doctor.

IF SWALLOWED: Rinse mouth. Give something to drink, if exposed person is able to swallow. Do NOT induce vomiting. Call a POISON CENTRE or a doctor.

### **5.4. Instructions for safe disposal of the product and its packaging**

- Do not discharge unused product on the ground, into water courses, into pipes (sink, toilets...) nor down the drains.
- Dispose of unused product, its packaging and all other waste, in accordance with local regulations.

### **5.5. Conditions of storage and shelf-life of the product under normal conditions of storage**

Do not store above 30°C

Protect from frost

Protect from direct sunlight

Shelf life: 11 months

Keep out of reach of children and pets

---

## **6. OTHER INFORMATION**

- The products are foaming formulations

## 7. THIRD INFORMATION LEVEL: INDIVIDUAL PRODUCTS IN THE META SPC 15

### 7.1. Trade name(s), authorisation number and specific composition of each individual product

Trade name(s)	2L Eau de Javel 1,6% c.a. BEC Eucalyptus	Market area: FR
Authorisation number	FR-0020890-0046 1-20	

Common name	IUPAC name	Function	CAS number	EC number	Content (%)
Active chlorine released from sodium hypochlorite		active substance			1,6
Sodium hypochlorite (technical solution with minimum purity of 14.7% w/w NaOCl)	Sodium hypochlorite	Non-active substance	7681-52-9	231-668-3	11,429

### 7.2. Trade name(s), authorisation number and specific composition of each individual product

Trade name(s)	2L Eau de Javel 1,6% c.a. BEC Lavande	Market area: FR
Authorisation number	FR-0020890-0047 1-20	

Common name	IUPAC name	Function	CAS number	EC number	Content (%)
Active chlorine released from sodium hypochlorite		active substance			1,6
Sodium hypochlorite (technical solution with minimum purity of 14.7% w/w NaOCl)	Sodium hypochlorite	Non-active substance	7681-52-9	231-668-3	11,429

### 7.3. Trade name(s), authorisation number and specific composition of each individual product

Trade name(s)	2L Eau de Javel	Market area: FR
---------------	-----------------	-----------------

	1,6% c.a. BEC Menthe	
Authorisation number	FR-0020890-0048 1-20	

Common name	IUPAC name	Function	CAS number	EC number	Content (%)
Active chlorine released from sodium hypochlorite		active substance			1,6
Sodium hypochlorite (technical solution with minimum purity of 14.7% w/w NaOCl)	Sodium hypochlorite	Non-active substance	7681-52-9	231-668-3	11,429

#### 7.4. Trade name(s), authorisation number and specific composition of each individual product

Trade name(s)	2L Eau de Javel 1,6% c.a. BEC Provençal	Market area: FR
Authorisation number	FR-0020890-0049 1-20	

Common name	IUPAC name	Function	CAS number	EC number	Content (%)
Active chlorine released from sodium hypochlorite		active substance			1,6
Sodium hypochlorite (technical solution with minimum purity of 14.7% w/w NaOCl)	Sodium hypochlorite	Non-active substance	7681-52-9	231-668-3	11,429

#### 7.5. Trade name(s), authorisation number and specific composition of each individual product

Trade name(s)	2L Eau de Javel 1,6% c.a. BEC Citron	Market area: FR
Authorisation number	FR-0020890-0050 1-20	

Common name	IUPAC name	Function	CAS number	EC number	Content (%)
Active chlorine released from sodium hypochlorite		active substance			1,6

Sodium hypochlorite (technical solution with minimum purity of 14.7% w/w NaOCl)	Sodium hypochlorite	Non-active substance	7681-52-9	231-668-3	11,429
---	---------------------	----------------------	-----------	-----------	--------

**7.6. Trade name(s), authorisation number and specific composition of each individual product**

Trade name(s)	5L Eau de Javel 1,6% c.a. BEC	Market area: FR
	2L Eau de Javel 1,6% c.a. BEC	Market area: FR
Authorisation number	FR-0020890-0051 1-20	

Common name	IUPAC name	Function	CAS number	EC number	Content (%)
Active chlorine released from sodium hypochlorite		active substance			1,6
Sodium hypochlorite (technical solution with minimum purity of 14.7% w/w NaOCl)	Sodium hypochlorite	Non-active substance	7681-52-9	231-668-3	11,429

## 1. META SPC 16 ADMINISTRATIVE INFORMATION

### 1.1. Meta SPC 16 identifier

Identifier	Meta SPC: Meta SPC 10.1
------------	-------------------------

### 1.2. Suffix to the authorisation number

Number	1-10
--------	------

### 1.3. Product type(s)

Product type(s)	PT02: Disinfectants and algaecides not intended for direct application to humans or animals PT04: Food and feed area PT03: Veterinary hygiene
-----------------	---

---

## 2. META SPC 16 COMPOSITION

### 2.1. Qualitative and quantitative information on the composition of the meta SPC 16

Common name	IUPAC name	Function	CAS number	EC number	Content (%)
Active chlorine released from sodium hypochlorite		active substance			2,6 - 2,6 % (w/w)
Sodium hypochlorite (technical solution with minimum purity of 14.7% w/w NaOCl)	Sodium hypochlorite	Non-active substance	7681-52-9	231-668-3	18,57 - 18,57 % (w/w)

### 2.2. Type(s) of formulation of the meta SPC 16

Formulation type(s)	Soluble concentrate
---------------------	---------------------

### 3. HAZARD AND PRECAUTIONARY STATEMENTS OF THE META SPC 16

Hazard statements	H290: May be corrosive to metals. H315: Causes skin irritation. H318: Causes serious eye damage. H410: Very toxic to aquatic life with long lasting effects.
Precautionary statements	P501: Dispose of contents to according to local instructions.. P391: Collect spillage. P390: Absorb spillage to prevent material damage. P310: Immediately call a POISON CENTER. P305+P351+P338: IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. P302+P352: IF ON SKIN: Wash with plenty of water. P273: Avoid release to the environment. P234: Keep only in original packaging. P264: Wash hands thoroughly after handling. P332+P313: If skin irritation occurs: Get medical advice. P362+P364: Take off contaminated clothing and wash it before reuse. P321: Specific treatment (see ... on this label). P280: Wear protective gloves/ protective clothing/eye protection/face protection.

## 4. AUTHORISED USE(S) OF THE META SPC

### 4.1. Use description 1

**Table 1. Disinfection of hard surfaces in medical area**

Product type	PT02: Disinfectants and algaecides not intended for direct application to humans or animals
Where relevant, an exact description of the authorised use	-
Target organism(s) (including development stage)	Scientific name: no data Common name: Bacteria Development stage: no data  Scientific name: no data Common name: fungi Development stage: no data  Scientific name: no data Common name: Yeast Development stage: no data  Scientific name: no data Common name: Virus Development stage: no data
Field(s) of use	indoor use  Healthcare
Application method(s)	Method: Wiping, mopping, flooding  Detailed description: Wiping, mopping, flooding - without mechanical action
Application rate(s) and frequency	Application Rate: -  Dilution (%): Mandatory target organisms: - Bacteria and yeasts: 30% v/v Other target organisms: - Fungi and virus: 30% v/v  Number and timing of application: Contact time: 5 min Room temperature
Category(ies) of users	professional
Pack sizes and packaging material	HDPE container 5L

#### 4.1.1. Use-specific instructions for use

-

#### 4.1.2. Use-specific risk mitigation measures

- Avoid any direct or indirect contact with food
- Wear protective chemical resistant gloves (glove material to be specified by the authorisation holder within the product information), a protective coverall and goggles during the handling phase of the product (M&L and application).
- Do not allow to enter the room before the treated surfaces are completely dried.
- Ensure that the children are not present during the application of the product and until the surfaces are completely dried.

**4.1.3. Where specific to the use, the particulars of likely direct or indirect effects, first aid instructions and emergency measures to protect the environment**

-

**4.1.4. Where specific to the use, the instructions for safe disposal of the product and its packaging**

-

**4.1.5. Where specific to the use, the conditions of storage and shelf-life of the product under normal conditions of storage**

-

## **4.2. Use description 2**

**Table 2. Disinfection of hard surfaces in contact with food**

Product type	PT04: Food and feed area
Where relevant, an exact description of the authorised use	-
Target organism(s) (including development stage)	<p>Scientific name: no data Common name: Bacteria Development stage: no data</p> <p>Scientific name: no data Common name: fungi Development stage: no data</p> <p>Scientific name: no data Common name: Yeast Development stage: no data</p> <p>Scientific name: no data Common name: Virus (except for agricultural areas) Development stage: no data</p>
Field(s) of use	<p>indoor use</p> <p>Industry (general case, meat, milk, non-alcoholic, alcoholic beverages, agricultural), institutions</p>
Application method(s)	<p>Method: Wiping, mopping, flooding</p> <p>Detailed description: Wiping, mopping, flooding - without mechanical action</p>
Application rate(s) and frequency	<p>Application Rate: -</p> <p>Dilution (%): Disinfection of surfaces in institutions, industries (general case), meat industries, milk industries and alcoholic beverages industries: Mandatory target organisms: - Bacteria and yeast: 30% v/v Other target organisms: - Fungi and virus: 30% v/v Disinfection of hard surfaces in non-alcoholic beverages industries: Mandatory target organisms: - Bacteria and yeast: 45% v/v Other target organisms: - Fungi and virus: 45% v/v Disinfection of hard surfaces in agricultural industries: Mandatory target organisms: - Bacteria and yeast: 45% v/v Other target organisms: - Fungi: 45% v/v</p> <p>Number and timing of application:</p>

	Contact time: 5 min Room temperature
Category(ies) of users	professional
Pack sizes and packaging material	HDPE container 5L

#### 4.2.1. Use-specific instructions for use

-

#### 4.2.2. Use-specific risk mitigation measures

- Rinse surfaces after treatment
- Wear protective chemical resistant gloves (glove material to be specified by the authorisation holder within the product information), a protective coverall and goggles during the handling phase of the product (M&L and application).
- Do not allow to enter the room before the treated surfaces are completely dried.
- Ensure that the children are not present during the application of the product and until the surfaces are completely dried.

#### 4.2.3. Where specific to the use, the particulars of likely direct or indirect effects, first aid instructions and emergency measures to protect the environment

-

#### 4.2.4. Where specific to the use, the instructions for safe disposal of the product and its packaging

-

#### 4.2.5. Where specific to the use, the conditions of storage and shelf-life of the product under normal conditions of storage

-

### 4.3. Use description 3

**Table 3. Disinfection of hard surfaces in industries/institutions**

Product type	PT02: Disinfectants and algaecides not intended for direct application to humans or animals
Where relevant, an exact description of the authorised use	-
Target organism(s) (including development stage)	<p>Scientific name: no data Common name: Bacteria Development stage: no data</p> <p>Scientific name: no data Common name: fungi Development stage: no data</p> <p>Scientific name: no data Common name: Yeast Development stage: no data</p> <p>Scientific name: no data Common name: Virus (except for agricultural areas) Development stage: no data</p>
Field(s) of use	<p>indoor use</p> <p>Industry (cosmetics, agricultural, general case), institutions</p>

Application method(s)	Method: Wiping, mopping, flooding  Detailed description: Wiping, mopping, flooding - without mechanical action
Application rate(s) and frequency	Application Rate: -  Dilution (%): Disinfection of surfaces institutions, industries (general case) and cosmetic industries: Mandatory target organisms: - Bacteria and yeast: 30% v/v Other target organisms: - Fungi and virus: 30% v/v Disinfection of hard surfaces in agricultural industries: Mandatory target organisms: - Bacteria and yeast: 45% v/v Other target organisms: - Fungi: 45% v/v  Number and timing of application: Contact time: 5 min Room temperature
Category(ies) of users	professional
Pack sizes and packaging material	HDPE container 5L

#### 4.3.1. Use-specific instructions for use

-

#### 4.3.2. Use-specific risk mitigation measures

- Avoid any direct or indirect contact with food
- Wear protective chemical resistant gloves (glove material to be specified by the authorisation holder within the product information), a protective coverall and goggles during the handling phase of the product (M&L and application).
- Do not allow to enter the room before the treated surfaces are completely dried.
- Ensure that the children are not present during the application of the product and until the surfaces are completely dried.

#### 4.3.3. Where specific to the use, the particulars of likely direct or indirect effects, first aid instructions and emergency measures to protect the environment

-

#### 4.3.4. Where specific to the use, the instructions for safe disposal of the product and its packaging

-

## **5. GENERAL DIRECTIONS FOR USE OF THE META SPC 16**

### **5.1. Instructions for use**

- Products should not be used in conjunction with acids or ammonia.
- Inform the registration holder if the treatment is ineffective.
- Make sure to wet surfaces completely. Allow to take effect for the contact time needed.
- Apply only on non-porous surfaces.

### **5.2. Risk mitigation measures**

-

### **5.3. Particulars of likely direct or indirect effects, first aid instructions and emergency measures to protect the environment**

IF ON SKIN: Immediately wash skin with plenty of water. Thereafter take off all contaminated clothing and wash it before reuse. Continue to wash the skin with water for 15 minutes.

Call a POISON CENTRE or a doctor.

IF IN EYES: Immediately rinse with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing for at least 15 minutes.

Call 112/ambulance for medical assistance.

Information to Healthcare personnel/doctor:

The eyes should also be rinsed repeatedly on the way to the doctor if eye exposure to alkaline chemicals (pH > 11), amines and acids like acetic acid, formic acid or propionic acid

IF SWALLOWED: Immediately rinse mouth. Give something to drink, if exposed person is able to swallow.

Do NOT induce vomiting. Call 112/ambulance for medical assistance.

IF INHALED: Move to fresh air and keep at rest in a position comfortable for breathing. If symptoms: Call 112/ambulance for medical assistance. If no symptoms: Call a POISON CENTRE or a doctor.

### **5.4. Instructions for safe disposal of the product and its packaging**

- Do not discharge unused product on the ground, into water courses, into pipes (sink, toilets...) nor down the drains.
- Dispose of unused product, its packaging and all other waste, in accordance with local regulations.

### **5.5. Conditions of storage and shelf-life of the product under normal conditions of storage**

Do not store above 30°C

Protect from frost

Protect from direct sunlight

Shelf life: 11 months

---

## **6. OTHER INFORMATION**

- Foaming products
- For PT3 and PT4 professional uses, the applicant should inform users of the product of the existence of MRLs for chlorates. They may be held liable if these MRLs are exceeded during controls carried out on foodstuffs.

## 7. THIRD INFORMATION LEVEL: INDIVIDUAL PRODUCTS IN THE META SPC 16

### 7.1. Trade name(s), authorisation number and specific composition of each individual product

Trade name(s)	5L Détergent BEC avec Javel Eucalyptus	Market area: FR
Authorisation number	FR-0020890-0017 1-10	

Common name	IUPAC name	Function	CAS number	EC number	Content (%)
Active chlorine released from sodium hypochlorite		active substance			2,6
Sodium hypochlorite (technical solution with minimum purity of 14.7% w/w NaOCl)	Sodium hypochlorite	Non-active substance	7681-52-9	231-668-3	18,57

### 7.2. Trade name(s), authorisation number and specific composition of each individual product

Trade name(s)	5L Détergent BEC avec Javel Classique	Market area: FR

## 2. META SPC 17 COMPOSITION

### 2.1. Qualitative and quantitative information on the composition of the meta SPC 17

Common name	IUPAC name	Function	CAS number	EC number	Content (%)
Active chlorine released from sodium hypochlorite		active substance			4,8 - 4,8 % (w/w)
Sodium hypochlorite (technical solution with minimum purity of 14.7% w/w NaOCl)	Sodium hypochlorite	Non-active substance	7681-52-9	231-668-3	34,29 - 34,29 % (w/w)
Sodium hydroxide	Sodium hydroxide	Non-active substance	1310-73-2	215-185-5	0,16 - 0,16 % (w/w)

### 2.2. Type(s) of formulation of the meta SPC 17

Formulation type(s)	Soluble concentrate
---------------------	---------------------

### 3. HAZARD AND PRECAUTIONARY STATEMENTS OF THE META SPC 17

<p>Hazard statements</p>	<p>H290: May be corrosive to metals.</p> <p>H315: Causes skin irritation.</p> <p>H318: Causes serious eye damage.</p> <p>H410: Very toxic to aquatic life with long lasting effects.</p> <p>EUH031: Contact with acids liberates toxic gas.</p>
<p>Precautionary statements</p>	<p>P501: Dispose of contents to according to local instructions..</p> <p>P391: Collect spillage.</p> <p>P390: Absorb spillage to prevent material damage.</p> <p>P310: Immediately call a POISON CENTER.</p> <p>P305+P351+P338: IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.</p> <p>P302+P352: IF ON SKIN: Wash with plenty of water.</p> <p>P280: Wear protective gloves.</p> <p>P280: Wear eye protection.</p> <p>P280: Wear face protection.</p> <p>P273: Avoid release to the environment.</p> <p>P234: Keep only in original packaging.</p> <p>P264: Wash hands thoroughly after handling.</p> <p>P332+P313: If skin irritation occurs: Get medical advice.</p> <p>P362+P364: Take off contaminated clothing and wash it before reuse.</p> <p>P321: Specific treatment (see instructions on this label).</p> <p>P280: Wear protective gloves/ protective clothing/eye protection/face protection.</p>

## 4. AUTHORISED USE(S) OF THE META SPC

### 4.1. Use description 1

**Table 1. Disinfection of hard surfaces in medical area**

Product type	PT02: Disinfectants and algaecides not intended for direct application to humans or animals
Where relevant, an exact description of the authorised use	-
Target organism(s) (including development stage)	Scientific name: no data Common name: Bacteria Development stage: no data  Scientific name: no data Common name: fungi Development stage: no data  Scientific name: no data Common name: Yeast Development stage: no data  Scientific name: no data Common name: Virus Development stage: no data
Field(s) of use	indoor use  Healthcare
Application method(s)	Method: Wiping, mopping, flooding  Detailed description: Wiping,mopping, flooding - without mechanical action
Application rate(s) and frequency	Application Rate: -  Dilution (%): Mandatory target organisms: - Bacteria and yeast: 15% v/v Other target organisms: - Fungi and virus: 15% v/v  Number and timing of application: Contact time: 5 min Room temperature
Category(ies) of users	professional
Pack sizes and packaging material	HDPE container 5L

#### 4.1.1. Use-specific instructions for use

-

#### 4.1.2. Use-specific risk mitigation measures

- Avoid any direct or indirect contact with food
- Wear protective chemical resistant gloves (glove material to be specified by the authorisation holder within the product information), a protective coverall and goggles during the handling phase of the product (M&L and application).
- Do not allow to enter the room before the treated surfaces are completely dried.
- Ensure that the children are not present during the application of the product and until the surfaces are completely dried.

**4.1.3. Where specific to the use, the particulars of likely direct or indirect effects, first aid instructions and emergency measures to protect the environment**

-

**4.1.4. Where specific to the use, the instructions for safe disposal of the product and its packaging**

-

**4.1.5. Where specific to the use, the conditions of storage and shelf-life of the product under normal conditions of storage**

-

## **4.2. Use description 2**

**Table 2. Disinfection of hard surfaces in contact with food**

Product type	PT04: Food and feed area
Where relevant, an exact description of the authorised use	-
Target organism(s) (including development stage)	<p>Scientific name: no data Common name: Bacteria Development stage: no data</p> <p>Scientific name: no data Common name: fungi Development stage: no data</p> <p>Scientific name: no data Common name: Yeast Development stage: no data</p> <p>Scientific name: no data Common name: Virus (except for agricultural areas) Development stage: no data</p>
Field(s) of use	<p>indoor use</p> <p>Industry (general case, meat, milk, non-alcoholic, alcoholic beverages, agricultural), institutions</p>
Application method(s)	<p>Method: Wiping, mopping, flooding</p> <p>Detailed description: Wiping, mopping, flooding - without mechanical action</p>
Application rate(s) and frequency	<p>Application Rate: -</p> <p>Dilution (%): Disinfection of surfaces in institutions, industries (general case), meat industries, milk industries and alcoholic beverages industries: Mandatory target organisms: - Bacteria and yeast: 15% v/v Other target organisms: - Fungi and virus: 15% v/v Disinfection of hard surfaces in non-alcoholic beverages industries: Mandatory target organisms: - Bacteria and yeast: 23% v/v Other target organisms: - Fungi and virus: 23% v/v Disinfection of hard surfaces in agricultural industries: Mandatory target organisms: - Bacteria and yeast: 23% v/v Other target organisms: - Fungi: 23% v/v</p> <p>Number and timing of application:</p>

	Contact time: 5 min Room temperature
Category(ies) of users	professional
Pack sizes and packaging material	HDPE container 5L

#### 4.2.1. Use-specific instructions for use

-

#### 4.2.2. Use-specific risk mitigation measures

- Rinse surfaces after treatment
- Wear protective chemical resistant gloves (glove material to be specified by the authorisation holder within the product information), a protective coverall and goggles during the handling phase of the product (M&L and application).
- Do not allow to enter the room before the treated surfaces are completely dried.
- Ensure that the children are not present during the application of the product and until the surfaces are completely dried.

#### 4.2.3. Where specific to the use, the particulars of likely direct or indirect effects, first aid instructions and emergency measures to protect the environment

#### 4.2.4. Where specific to the use, the instructions for safe disposal of the product and its packaging

-

#### 4.2.5. Where specific to the use, the conditions of storage and shelf-life of the product under normal conditions of storage

-

### 4.3. Use description 3

**Table 3. Disinfection of hard surfaces in industries/institutions**

Product type	PT02: Disinfectants and algaecides not intended for direct application to humans or animals
Where relevant, an exact description of the authorised use	-
Target organism(s) (including development stage)	<p>Scientific name: no data Common name: Bacteria Development stage: no data</p> <p>Scientific name: no data Common name: fungi Development stage: no data</p> <p>Scientific name: no data Common name: Yeast Development stage: no data</p> <p>Scientific name: no data Common name: Virus (except for agricultural areas) Development stage: no data</p>
Field(s) of use	indoor use  Industry (general case, agricultural, cosmetics), institutions
Application method(s)	Method: Wiping, mopping, flooding

	Detailed description: Wiping, mopping, flooding - without mechanical action
Application rate(s) and frequency	Application Rate: -  Dilution (%): Disinfection of surfaces institutions, industries (general case) and cosmetic industries: Mandatory target organisms: - Bacteria and yeast: 15% v/v Other target organisms: - Fungi and virus: 15% v/v Disinfection of hard surfaces in agricultural industries: Mandatory target organisms: - Bacteria and yeast: 23% v/v Other target organisms: - Fungi: 23% v/v  Number and timing of application: Contact time: 5 min Room temperature
Category(ies) of users	professional
Pack sizes and packaging material	HDPE container 5L

#### 4.3.1. Use-specific instructions for use

-

#### 4.3.2. Use-specific risk mitigation measures

- Avoid any direct or indirect contact with food
- Wear protective chemical resistant gloves (glove material to be specified by the authorisation holder within the product information), a protective coverall and goggles during the handling phase of the product (M&L and application).
- Do not allow to enter the room before the treated surfaces are completely dried.
- Ensure that the children are not present during the application of the product and until the surfaces are completely dried.

#### 4.3.3. Where specific to the use, the particulars of likely direct or indirect effects, first aid instructions and emergency measures to protect the environment

-

#### 4.3.4. Where specific to the use, the instructions for safe disposal of the product and its packaging

-

#### 4.3.5. Where specific to the use, the conditions of storage and shelf-life of the product under normal conditions of storage

-

#### 4.4. Use description 4

**Table 4. Disinfection of hard surfaces by CIP**

Product type	PT02: Disinfectants and algacides not intended for direct application to humans or animals PT04: Food and feed area
Where relevant, an exact description of the authorised use	-
Target organism(s) (including development stage)	Scientific name: no data Common name: Bacteria Development stage: no data  Scientific name: no data

	<p>Common name: fungi Development stage: no data</p> <p>Scientific name: no data Common name: Yeast Development stage: no data</p> <p>Scientific name: no data Common name: Virus (except for agricultural areas) Development stage: no data</p>
Field(s) of use	<p>indoor use</p> <p>Industry (general case, meat, milk, non-alcoholic, alcoholic beverages, agricultural, cosmetics), institutions, veterinary healthcare facilities, animal housings (such as kennels, hutches, cages, bee hives, stables, etc.), livestock (poultry, bovine, etc.) buildings</p>
Application method(s)	<p>Method: CIP</p> <p>Detailed description: -</p>
Application rate(s) and frequency	<p>Application Rate: -</p> <p>Dilution (%): Disinfection of surfaces in institutions, industries (general case), meat industries, milk industries, cosmetic industries and alcoholic beverages industries) by CIP: Mandatory target organisms: - Bacteria and yeast: 15% v/v Other target organisms: - Fungi and virus: 15% v/v Disinfection of hard surfaces in non-alcoholic beverages industries by CIP: Mandatory target organisms: - Bacteria and yeast: 23% v/v Other target organisms: - Fungi and virus: 23% v/v Disinfection of hard surfaces in agricultural industries industries by CIP: Mandatory target organisms: - Bacteria and yeast: 23% v/v Other target organisms: - Fungi: 23% v/v</p> <p>Number and timing of application: Contact time: 5 min Room temperature</p>
Category(ies) of users	professional

#### 4.4.1. Use-specific instructions for use

-

#### 4.4.2. Use-specific risk mitigation measures

- For PT2 uses, avoid any direct or indirect contact with food
- For PT4 uses, rinse surfaces after treatment
- Wear protective chemical resistant gloves (glove material to be specified by the authorisation holder within the product information), a protective coverall and goggles during the application of the product (M&L) and post-application tasks (maintenance of the system).

#### 4.4.3. Where specific to the use, the particulars of likely direct or indirect effects, first aid instructions and emergency measures to protect the environment

-

#### 4.4.4. Where specific to the use, the instructions for safe disposal of the product and its packaging

-

#### 4.4.5. Where specific to the use, the conditions of storage and shelf-life of the product under normal conditions of storage

-

#### 4.5. Use description 5

**Table 5. Disinfection of non-porous hard surfaces in veterinary area**

Product type	PT03: Veterinary hygiene
Where relevant, an exact description of the authorised use	-
Target organism(s) (including development stage)	<p>Scientific name: no data Common name: Bacteria Development stage: no data</p> <p>Scientific name: no data Common name: fungi Development stage: no data</p> <p>Scientific name: no data Common name: Yeast Development stage: no data</p> <p>Scientific name: no data Common name: Virus Development stage: no data</p>
Field(s) of use	<p>indoor use</p> <p>Veterinary healthcare facilities, animal housings (such as kennels, hutches, cages, bee hives, stables, etc.), livestock (poultry, bovine, etc.) buildings</p>
Application method(s)	<p>Method: Wiping, mopping, flooding</p> <p>Detailed description: Wiping, mopping, flooding - without mechanical action</p>
Application rate(s) and frequency	<p>Application Rate: -</p> <p>Dilution (%): Mandatory target organisms: - Bacteria and yeast: 14% v/v Other target organisms: - Fungi: 16% v/v - Virus: 18% v/v</p> <p>Number and timing of application: Contact time: 5 min Room temperature</p>
Category(ies) of users	professional
Pack sizes and packaging material	HDPE container 5L

##### 4.5.1. Use-specific instructions for use

##### 4.5.2. Use-specific risk mitigation measures

- Rinse surfaces after treatment
- Only use in empty animal housing.
- Remove all feed and drinks prior to treatment
- Wear protective chemical resistant gloves (glove material to be specified by the authorisation holder within the product information), a protective coverall and goggles during the handling phase of the product (M&L and application).

- Do not allow to enter the room before the treated surfaces are completely dried.
- Do not allow animals to enter the treated area during the disinfection process and before the surfaces are completely dried.

**4.5.3. Where specific to the use, the particulars of likely direct or indirect effects, first aid instructions and emergency measures to protect the environment**

-

**4.5.4. Where specific to the use, the instructions for safe disposal of the product and its packaging**

-

**4.5.5. Where specific to the use, the conditions of storage and shelf-life of the product under normal conditions of storage**

**4.6. Use description 6**

## **5. GENERAL DIRECTIONS FOR USE OF THE META SPC 17**

### **5.1. Instructions for use**

- Products should not be used in conjunction with acids or ammonia.
- Inform the registration holder if the treatment is ineffective.
- Make sure to wet surfaces completely. Allow to take effect for the contact time needed.
- Apply only on non-porous surfaces.

### **5.2. Risk mitigation measures**

-

### **5.3. Particulars of likely direct or indirect effects, first aid instructions and emergency measures to protect the environment**

IF ON SKIN: Immediately wash skin with plenty of water. Thereafter take off all contaminated clothing and wash it before reuse. Continue to wash the skin with water for 15 minutes.

Call a POISON CENTRE or a doctor.

IF IN EYES: Immediately rinse with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing for at least 15 minutes.

Call 112/ambulance for medical assistance.

Information to Healthcare personnel/doctor:

The eyes should also be rinsed repeatedly on the way to the doctor if eye exposure to alkaline chemicals (pH > 11), amines and acids like acetic acid, formic acid or propionic acid

IF SWALLOWED: Immediately rinse mouth. Give something to drink, if exposed person is able to swallow.

Do NOT induce vomiting. Call 112/ambulance for medical assistance.

IF INHALED: Move to fresh air and keep at rest in a position comfortable for breathing. If symptoms: Call 112/ambulance for medical assistance. If no symptoms: Call a POISON CENTRE or a doctor.

### **5.4. Instructions for safe disposal of the product and its packaging**

- Do not discharge unused product on the ground, into water courses, into pipes (sink, toilets...) nor down the drains.
- Dispose of unused product, its packaging and all other waste, in accordance with local regulations.

### **5.5. Conditions of storage and shelf-life of the product under normal conditions of storage**

Do not store above 30°C

Protect from frost

Protect from direct sunlight

Shelf life: 8 months

---

## **6. OTHER INFORMATION**

- Foaming products
- For PT3 and PT4 professional uses, the applicant should inform users of the product of the existence of MRLs for chlorates. They may be held liable if these MRLs are exceeded during controls carried out on foodstuffs.

## 7. THIRD INFORMATION LEVEL: INDIVIDUAL PRODUCTS IN THE META SPC 17

### 7.1. Trade name(s), authorisation number and specific composition of each individual product

Trade name(s)	5L Détergent Concentré BEC avec Javel Eucalyptus	Market area: FR
Authorisation number	FR-0020890-0020 1-11	

Common name	IUPAC name	Function	CAS number	EC number	Content (%)
Active chlorine released from sodium hypochlorite		active substance			4,8
Sodium hypochlorite (technical solution with minimum purity of 14.7% w/w NaOCl)	Sodium hypochlorite	Non-active substance	7681-52-9	231-668-3	34,29
Sodium hydroxide	Sodium hydroxide	Non-active substance	1310-73-2	215-185-5	0,16

### 7.2. Trade name(s), authorisation number and specific composition of each individual product

Trade name(s)	5L Détergent Concentré BEC avec Javel Classique	Market area: FR
Authorisation number	FR-0020890-0021 1-11	

Common name	IUPAC name	Function	CAS number	EC number	Content (%)
Active chlorine released from sodium hypochlorite		active substance			4,8
Sodium hypochlorite (technical solution with minimum purity of 14.7% w/w NaOCl)	Sodium hypochlorite	Non-active substance	7681-52-9	231-668-3	34,29
Sodium hydroxide	Sodium hydroxide	Non-active substance	1310-73-2	215-185-5	0,16

### 7.3. Trade name(s), authorisation number and specific composition of each individual product

Trade name(s)	5L Détergent Concentré BEC avec Javel Citron	Market area: FR
Authorisation number	FR-0020890-0022 1-11	

Common name	IUPAC name	Function	CAS number	EC number	Content (%)
Active chlorine released from sodium hypochlorite		active substance			4,8
Sodium hypochlorite (technical solution with minimum purity of 14.7% w/w NaOCl)	Sodium hypochlorite	Non-active substance	7681-52-9	231-668-3	34,29
Sodium hydroxide	Sodium hydroxide	Non-active substance	1310-73-2	215-185-5	0,16

## 1. META SPC 18 ADMINISTRATIVE INFORMATION

### 1.1. Meta SPC 18 identifier

Identifier	Meta SPC: Meta SPC 11
------------	-----------------------

### 1.2. Suffix to the authorisation number

Number	1-12
--------	------

### 1.3. Product type(s)

Product type(s)	PT02: Disinfectants and algaecides not intended for direct application to humans or animals PT04: Food and feed area PT03: Veterinary hygiene
-----------------	---

---

## 2. META SPC 18 COMPOSITION

### 2.1. Qualitative and quantitative information on the composition of the meta SPC 18

Common name	IUPAC name	Function	CAS number	EC number	Content (%)
Active chlorine released from sodium hypochlorite		active substance			6 - 6 % (w/w)
Sodium hypochlorite (technical solution with minimum purity of 14.7% w/w NaOCl)	Sodium hypochlorite	Non-active substance	7681-52-9	231-668-3	42,86 - 42,86 % (w/w)
Sodium hydroxide	Sodium hydroxide	Non-active substance	1310-73-2	215-185-5	8,53 - 8,55 % (w/w)

### 2.2. Type(s) of formulation of the meta SPC 18

Formulation type(s)	Soluble concentrate
---------------------	---------------------

### 3. HAZARD AND PRECAUTIONARY STATEMENTS OF THE META SPC 18

Hazard statements	<p>H290: May be corrosive to metals.</p> <p>H314: Causes severe skin burns and eye damage.</p> <p>H410: Very toxic to aquatic life with long lasting effects.</p> <p>EUH071: Corrosive to the respiratory tract.</p> <p>EUH031: Contact with acids liberates toxic gas.</p>
Precautionary statements	<p>P234: Keep only in original packaging.</p> <p>P273: Avoid release to the environment.</p> <p>P260: Do not breathe vapours.</p> <p>P264: Wash hands thoroughly after handling.</p> <p>P280: Wear protective gloves/ protective clothing/eye protection/face protection.</p> <p>P301+P330+P331: IF SWALLOWED: rinse mouth. Do NOT induce vomiting.</p> <p>P303+P361+P353: IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water [or shower].</p> <p>P304+P340: IF INHALED: Remove person to fresh air and keep comfortable for breathing.</p> <p>P310: Immediately call a POISON CENTER/doctor/....</p> <p>P321: Specific treatment (see instructions on this label).</p> <p>P305+P351+P338: IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.</p> <p>P405: Store locked up.</p> <p>P390: Absorb spillage to prevent material damage.</p> <p>P391: Collect spillage.</p> <p>P501: Dispose of container to in accordance with the national regulation.</p>

## 4. AUTHORISED USE(S) OF THE META SPC

### 4.1. Use description 1

**Table 1. Disinfection of hard surfaces in medical area**

Product type	PT02: Disinfectants and algaecides not intended for direct application to humans or animals
Where relevant, an exact description of the authorised use	-
Target organism(s) (including development stage)	Scientific name: no data Common name: Bacteria Development stage: no data  Scientific name: no data Common name: fungi Development stage: no data  Scientific name: no data Common name: Yeast Development stage: no data  Scientific name: no data Common name: Virus Development stage: no data
Field(s) of use	indoor use  Healthcare
Application method(s)	Method: Wiping, mopping, flooding  Detailed description: Wiping, mopping, flooding - without mechanical action
Application rate(s) and frequency	Application Rate: -  Dilution (%): Mandatory target organisms: - Bacteria and yeasts: 16% v/v Other target organisms: - Fungi and virus: 16% v/v  Number and timing of application: Contact time: 5 min Room temperature
Category(ies) of users	professional
Pack sizes and packaging material	HDPE container 20L HDPE drum 200L HDPE tank 1000L

#### 4.1.1. Use-specific instructions for use

-

#### 4.1.2. Use-specific risk mitigation measures

- Avoid any direct or indirect contact with food
- For application by wiping, flooding and mopping, wear protective chemical resistant gloves (glove material to be specified by the authorisation holder within the product information), a protective coverall and goggles during the handling phase of the product (M&L and application).
- Do not allow to enter the room before the treated surfaces are completely dried.
- For wiping, pour the product directly on surfaces and wipe with a cloth.
- For mopping, pour the product directly on surfaces and mop using a cloth and a handle.

- Ensure that the children are not present during the application of the product and until the surfaces are completely dried.

**4.1.3. Where specific to the use, the particulars of likely direct or indirect effects, first aid instructions and emergency measures to protect the environment**

-

**4.1.4. Where specific to the use, the instructions for safe disposal of the product and its packaging**

-

**4.1.5. Where specific to the use, the conditions of storage and shelf-life of the product under normal conditions of storage**

-

**4.2. Use description 2**

#### 4.4. Use description 4

**Table 4. Disinfection of surfaces by CIP**

Product type	PT02: Disinfectants and algaecides not intended for direct application to humans or animals PT04: Food and feed area
Where relevant, an exact description of the authorised use	-
Target organism(s) (including development stage)	Scientific name: no data Common name: Bacteria Development stage: no data  Scientific name: no data Common name: fungi Development stage: no data  Scientific name: no data Common name: Yeast Development stage: no data  Scientific name: no data Common name: Virus (except for agricultural areas) Development stage: no data
Field(s) of use	indoor use  Institutions, industries (general case, meat, milk, non-alcoholic, alcoholic beverages, agricultural, cosmetics)
Application method(s)	Method: CIP  Detailed description: -
Application rate(s) and frequency	Application Rate: -  Dilution (%): Disinfection of surfaces in institutions, industries (general case), meat industries, milk industries, cosmetic industries and alcoholic beverages industries) by CIP: Mandatory target organisms: - Bacteria and yeast: 16% v/v Other target organisms: - Fungi and virus: 16% v/v Disinfection of hard surfaces in non-alcoholic beverages industries by CIP: Mandatory target organisms: - Bacteria and yeast: 24% v/v Other target organisms: - Fungi and virus: 24% v/v Disinfection of hard surfaces in agricultural industries by CIP: Mandatory target organisms: - Bacteria and yeast: 24% v/v Other target organisms: - Fungi: 24% v/v  Number and timing of application: Contact time: 5 min Room temperature
Category(ies) of users	professional
Pack sizes and packaging material	HDPE container 20L HDPE drum 200L HDPE tank 1000L

##### 4.4.1. Use-specific instructions for use

-

#### 4.4.2. Use-specific risk mitigation measures

- For PT 2 uses, avoid any direct or indirect contact with food
- For PT 4 uses, rinse surfaces after treatment
- Wear protective chemical resistant gloves (glove material to be specified by the authorisation holder within the product information), a protective coverall and goggles during the application of the product (M&L)
- Wear a respiratory protection during the post-application tasks (maintenance of the system).

#### 4.4.3. Where specific to the use, the particulars of likely direct or indirect effects, first aid instructions and emergency measures to protect the environment

-

#### 4.4.4. Where specific to the use, the instructions for safe disposal of the product and its packaging

-

#### 4.4.5. Where specific to the use, the conditions of storage and shelf-life of the product under normal conditions of storage

-

#### 4.5. Use description 5

**Table 5. Disinfection of non-porous hard surfaces in veterinary area**

Product type	PT03: Veterinary hygiene
Where relevant, an exact description of the authorised use	-
Target organism(s) (including development stage)	Scientific name: no data Common name: Bacteria Development stage: no data  Scientific name: no data Common name: fungi Development stage: no data  Scientific name: no data Common name: Yeast Development stage: no data  Scientific name: no data Common name: Virus Development stage: no data
Field(s) of use	indoor use  Veterinary healthcare facilities, animal housings (such as kennels, hutches, cages, bee hives, stables, etc.), livestock (poultry, bovine, etc.) buildings
Application method(s)	Method: Wiping, mopping, flooding  Detailed description: Wiping, mopping, flooding - without mechanical action
Application rate(s) and frequency	Application Rate: -  Dilution (%): Mandatory target organisms: - Bacteria and yeasts: 15% v/v Other target organisms: - Fungi: 17% v/v - Virus: 19% v/v

	Number and timing of application: Contact time: 5 min Room temperature
Category(ies) of users	professional
Pack sizes and packaging material	HDPE container 20L HDPE drum 200L HDPE tank 1000L

#### 4.5.1. Use-specific instructions for use

#### 4.5.2. Use-specific risk mitigation measures

- Rinse surfaces after treatment
- Only use in empty animal housing.
- Remove all feed and drinks prior to treatment
- For application by wiping, flooding and mopping, wear protective chemical resistant gloves (glove material to be specified by the authorisation holder within the product information), a protective coverall and goggles during the handling phase of the product (M&L and application).
- Do not allow to enter the room before the treated surfaces are completely dried
- For wiping, pour the product directly on the surfaces and wipe with a cloth.
- For mopping, pour the product directly on surfaces and mop with a cloth and a handle
- Do not allow animals to enter the treated area during the disinfection process and before the surfaces are completely dried.

#### 4.5.3. Where specific to the use, the particulars of likely direct or indirect effects, first aid instructions and emergency measures to protect the environment

-

#### 4.5.4. Where specific to the use, the instructions for safe disposal of the product and its packaging

-

#### 4.5.5. Where specific to the use, the conditions of storage and shelf-life of the product under normal conditions of storage

-

#### 4.6. Use description 6

**Table 6. Disinfection of non-porous hard surfaces in livestock transportation vehicles**

Product type	PT03: Veterinary hygiene
Where relevant, an exact description of the authorised use	-
Target organism(s) (including development stage)	<p>Scientific name: no data Common name: Bacteria Development stage: no data</p> <p>Scientific name: no data Common name: fungi Development stage: no data</p> <p>Scientific name: no data Common name: Yeast Development stage: no data</p> <p>Scientific name: no data</p>

	Common name: Virus Development stage: no data
Field(s) of use	indoor use  Livestock transportation vehicles
Application method(s)	Method: Wiping, mopping, flooding  Detailed description: Wiping, mopping, flooding - without mechanical action
Application rate(s) and frequency	Application Rate: -  Dilution (%): Mandatory target organisms: - Bacteria, yeast and virus: 19% v/v Other target organisms: - Fungi: 19% v/v  Number and timing of application: Contact time: 5 min Room temperature
Category(ies) of users	professional

## **5. GENERAL DIRECTIONS FOR USE OF THE META SPC 18**

### **5.1. Instructions for use**

- Products should not be used in conjunction with acids or ammonia.
- Inform the registration holder if the treatment is ineffective.
- Make sure to wet surfaces completely. Allow to take effect for the contact time needed.
- Apply only on non-porous surfaces.

### **5.2. Risk mitigation measures**

-

### **5.3. Particulars of likely direct or indirect effects, first aid instructions and emergency measures to protect the environment**

IF ON SKIN: Immediately wash skin with plenty of water. Thereafter take off all contaminated clothing and wash it before reuse. Continue to wash the skin with water for 15 minutes.

Call a POISON CENTRE or a doctor.

IF IN EYES: Immediately rinse with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing for at least 15 minutes.

Call 112/ambulance for medical assistance.

Information to Healthcare personnel/doctor:

The eyes should also be rinsed repeatedly on the way to the doctor if eye exposure to alkaline chemicals (pH > 11), amines and acids like acetic acid, formic acid or propionic acid

IF SWALLOWED: Immediately rinse mouth. Give something to drink, if exposed person is able to swallow.

Do NOT induce vomiting. Call 112/ambulance for medical assistance.

IF INHALED: Move to fresh air and keep at rest in a position comfortable for breathing. If symptoms: Call 112/ambulance for medical assistance. If no symptoms: Call a POISON CENTRE or a doctor.

### **5.4. Instructions for safe disposal of the product and its packaging**

- Do not discharge unused product on the ground, into water courses, into pipes (sink, toilets...) nor down the drains.
- Dispose of unused product, its packaging and all other waste, in accordance with local regulations.

### **5.5. Conditions of storage and shelf-life of the product under normal conditions of storage**

Do not store above 30°C

Protect from frost

Protect from direct sunlight

Shelf life: 6 months

---

## **6. OTHER INFORMATION**

- Foaming products
- For PT3 and PT4 professional uses, the applicant should inform users of the product of the existence of MRLs for chlorates. They may be held liable if these MRLs are exceeded during controls carried out on foodstuffs.

## 7. THIRD INFORMATION LEVEL: INDIVIDUAL PRODUCTS IN THE META SPC 18

### 7.1. Trade name(s), authorisation number and specific composition of each individual product

Trade name(s)	20L Détergent Alcalin Chloré Non- moussant BEC Professionnels	Market area: FR
	200L Détergent Alcalin Chloré Non- moussant BEC Professionnels	Market area: FR
	1000L Détergent Alcalin Chloré Non- moussant BEC Professionnels	Market area: FR
Authorisation number	FR-0020890-0023 1-12	

Common name	IUPAC name	Function	CAS number	EC number	Content (%)
Active chlorine released from sodium hypochlorite		active substance			6
Sodium hypochlorite (technical solution with minimum purity of 14.7% w/w NaOCl)	Sodium hypochlorite	Non-active substance	7681-52-9	231-668-3	42,86
Sodium hydroxide	Sodium hydroxide	Non-active substance	1310-73-2	215-185-5	8,55

### 7.2. Trade name(s), authorisation number and specific composition of each individual product

Trade name(s)	20L Détergent Alcalin Chloré Moussant BEC Professionnels	Market area: FR
	200L Détergent	Market area: FR

	Alcalin Chloré Moussant BEC Professionnels	
	1000L Détergent Alcalin Chloré Moussant BEC Professionnels	Market area: FR
Authorisation number	FR-0020890-0024 1-12	

Common name	IUPAC name	Function	CAS number	EC number	Content (%)
Active chlorine released from sodium hypochlorite		active substance			6
Sodium hypochlorite (technical solution with minimum purity of 14.7% w/w NaOCl)	Sodium hypochlorite	Non-active substance	7681-52-9	231-668-3	42,86
Sodium hydroxide	Sodium hydroxide	Non-active substance	1310-73-2	215-185-5	8,55

## 1. META SPC 19 ADMINISTRATIVE INFORMATION

### 1.1. Meta SPC 19 identifier

Identifier	Meta SPC: Meta SPC 12
------------	-----------------------

### 1.2. Suffix to the authorisation number

Number	1-13
--------	------

### 1.3. Product type(s)

Product type(s)	PT02: Disinfectants and algaecides not intended for direct application to humans or animals
-----------------	---

---

## 2. META SPC 19 COMPOSITION

### 2.1. Qualitative and quantitative information on the composition of the meta SPC 19

Common name	IUPAC name	Function	CAS number	EC number	Content (%)
Active chlorine released from sodium hypochlorite		active substance			4,8 - 4,8 % (w/w)
Sodium hypochlorite (technical solution with minimum purity of 14.7% w/w NaOCl)	Sodium hypochlorite	Non-active substance	7681-52-9	231-668-3	34,29 - 34,29 % (w/w)
Sodium hydroxide	Sodium hydroxide	Non-active substance	1310-73-2	215-185-5	0,16 - 0,16 % (w/w)

### 2.2. Type(s) of formulation of the meta SPC 19

Formulation type(s)	Ready to use liquid (spray)
---------------------	-----------------------------

### 3. HAZARD AND PRECAUTIONARY STATEMENTS OF THE META SPC 19

Hazard statements	<p>H290: May be corrosive to metals.</p> <p>H315: Causes skin irritation.</p> <p>H318: Causes serious eye damage.</p> <p>H410: Very toxic to aquatic life with long lasting effects.</p> <p>EUH031: Contact with acids liberates toxic gas.</p>
Precautionary statements	<p>P501: Dispose of contents to according to local instructions..</p> <p>P391: Collect spillage.</p> <p>P390: Absorb spillage to prevent material damage.</p> <p>P310: Immediately call a POISON CENTER.</p> <p>P305+P351+P338: IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.</p> <p>P302+P352: IF ON SKIN: Wash with plenty of water.</p> <p>P273: Avoid release to the environment.</p> <p>P234: Keep only in original packaging.</p> <p>P264: Wash hands thoroughly after handling.</p> <p>P332+P313: If skin irritation occurs: Get medical advice.</p> <p>P362+P364: Take off contaminated clothing and wash it before reuse.</p> <p>P321: Specific treatment (see instructions on this label).</p> <p>P280: Wear protective gloves/ protective clothing/eye protection/face protection.</p>

## **5. GENERAL DIRECTIONS FOR USE OF THE META SPC 19**

### **5.1. Instructions for use**

- Products should not be used in conjunction with acids or ammonia.
- Inform the registration holder if the treatment is ineffective.
- Make sure to wet surfaces completely. Allow to take effect for the contact time needed.
- Apply only on non-porous surfaces.

### **5.2. Risk mitigation measures**

- Avoid any direct or indirect contact with food
- Wear protective chemical resistant gloves (glove material to be specified by the authorisation holder within the product information), a protective coverall, goggles and RPE with APF 4 at minima during the application of the product.
- The spray application must be performed downward in order to avoid exposure.
- Do not allow anyone else but the applicator to enter the room during the disinfection process. If necessary to be present, wear the same PPE/RPE than the applicator of the product.
- Do not allow to enter the room before the treated surfaces are completely dried
- Ensure that the children are not present during the application of the product and until the surfaces are completely dried.

### **5.3. Particulars of likely direct or indirect effects, first aid instructions and emergency measures to protect the environment**

IF ON SKIN: Immediately wash skin with plenty of water. Thereafter take off all contaminated clothing and wash it before reuse. Continue to wash the skin with water for 15 minutes.

Call a POISON CENTRE or a doctor.

IF IN EYES: Immediately rinse with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing for at least 15 minutes.

Call 112/ambulance for medical assistance.

Information to Healthcare personnel/doctor:

The eyes should also be rinsed repeatedly on the way to the doctor if eye exposure to alkaline chemicals (pH > 11), amines and acids like acetic acid, formic acid or propionic acid

IF SWALLOWED: Immediately rinse mouth. Give something to drink, if exposed person is able to swallow.

Do NOT induce vomiting. Call 112/ambulance for medical assistance.

IF INHALED: Move to fresh air and keep at rest in a position comfortable for breathing. If symptoms: Call 112/ambulance for medical assistance. If no symptoms: Call a POISON CENTRE or a doctor.

### **5.4. Instructions for safe disposal of the product and its packaging**

- Do not discharge unused product on the ground, into water courses, into pipes (sink, toilets...) nor down the drains.
- Dispose of unused product, its packaging and all other waste, in accordance with local regulations.

### **5.5. Conditions of storage and shelf-life of the product under normal conditions of storage**

Do not store above 30°C

Protect from frost

Protect from direct sunlight

Shelf life: 8 months
