## Administrative information

### 1.1. Trade names of the product

Biopren BMS
-------------

### 1.2. Authorisation holder

<b>Name and address of the authorisation holder</b>	Name	Bábolna Bioenvironmental Centre Ltd.
	Address	Szállás u. 6. H-1107 Budapest Hungary
<b>Authorisation number</b>	IE/BPA 70454	
<b>R4BP 3 asset reference number</b>	IE-0021688-0000	
<b>Date of the authorisation</b>	02/08/2017	
<b>Expiry date of the authorisation</b>	01/05/2027	

### 1.3. Manufacturer(s) of the biocidal products

<b>Name of the manufacturer</b>	Bábolna Bioenvironmental Centre Ltd. (Bábolna Bio Ltd.)
<b>Address of the manufacturer</b>	Szállás utca 6. 1107 Budapest Hungary
<b>Location of manufacturing sites</b>	Köves J. u. 3. 2943 Bábolna Hungary

### 1.4. Manufacturer(s) of the active substance(s)

<b>Active substance</b>	1386 - S-Methoprene
<b>Name of the manufacturer</b>	Bábolna Bioenvironmental Centre Ltd. (Bábolna Bio Ltd.)
<b>Address of the manufacturer</b>	Szállás utca 6. 1107 Budapest Hungary
<b>Location of manufacturing sites</b>	Szállás utca 6. 1107 Budapest Hungary

## 2. Product composition and formulation

### 2.1. Qualitative and quantitative information on the composition of the biocidal product

Common name	IUPAC name	Function	CAS number	EC number	Content (%)
S-Methoprene	Isopropyl-(2E,4E,7S)-11-methoxy-3,7,11-trimethyl-2,4-dodecadienoate	Active Substance	65733-16-6		0,5

### 2.2. Type of formulation

GR - Granule
--------------

## 3. Hazard and precautionary statements

<b>Hazard statements</b>	Harmful to aquatic life with long lasting effects.
<b>Precautionary statements</b>	Dispose of contents to in accordance with applicable regulations. Avoid release to the environment.

## 4. Authorised use(s)

## 4.1 Use description

### Use 1 - authorised use

<b>Product type</b>	PT18 - Insecticides, acaricides and products to control other arthropods (Pest control)
<b>Where relevant, an exact description of the authorised use</b>	The bait stations are placed along the foraging routes of ant workers
<b>Target organism(s) (including development stage)</b>	Scientific name: Myrmicinae: Common name: Pharaoh ant Development stage: larvae and queens
<b>Field(s) of use</b>	Indoor  For indoor use only.
<b>Application method(s)</b>	Bait application - Bait application in pre-filled bait stations
<b>Application rate(s) and frequencies</b>	2 bait stations / 20 m <sup>2</sup> (0.25 g/m <sup>2</sup> ) - - - To ensure reliable effect it is recommended to leave the baits at place for a period of 3 months even if the insects disappear from the premises earlier. Residual efficacy: 10-14 weeks.
<b>Category(ies) of users</b>	Trained professional  Professional  General public (non-professional)
<b>Pack sizes and packaging material</b>	<u>For general public:</u> 3 x 2.5 grams in plastic (PVC + PE) bait stations total 7.5 grams  2.5 grams of bait in transparent plastic blisters with adhesive sticker on each blister, 3 blisters / package. total 7.5 grams  <u>For professionals and trained professionals:</u> 2.5 grams of bait in transparent plastic blisters with adhesive sticker on each blister, 12 blisters / package. total 30 grams  2.5 grams of bait in transparent plastic blisters with adhesive sticker on each blister, 24 blisters / package. total 60 grams

#### 4.1.1 Use-specific instructions for use

-

#### 4.1.2 Use-specific risk mitigation measures

-

#### 4.1.3 Where specific to the use, the particulars of likely direct or indirect effects, first aid instructions and emergency measures to protect the environment

-

#### 4.1.4 Where specific to the use, the instructions for safe disposal of the product and its packaging

-

#### 4.1.5 Where specific to the use, the conditions of storage and shelf-life of the product under normal conditions of storage

-

### 5. General directions for use

#### 5.1. Instructions for use

Cut at the dotted line at the end of the plastic pack and remove the protective foil from the sticky pad. Fasten the bait along the foraging routes of ant workers (very close to the route, but not directly on it) with its opening on top or at side. Avoid spillage of the granules. The bait should be placed in the premises where ants appear, mainly in the kitchen and bathroom. Use the product in other premises as well, if necessary.  
Recommended dose: 2 bait stations / 20 m<sup>2</sup>.  
Following bait placement, for a short period of time more ants may be observed than before, but this is the result of the attractiveness of the bait substance. To ensure reliable effect it is recommended to leave the baits at place for a period of 3 months even if the insects disappear from the premise earlier. If a bait station becomes empty (or nearly empty) or damaged (e.g. drenched), it must be replaced with a new one. Protect the placed baits from water (e.g. during cleaning) as the product may lose its efficacy because of water. Attention! While you use ant baits, do not apply any other insecticides! Residual efficacy: 10-14 weeks.

#### 5.2. Risk mitigation measures

Keep out of the reach of children, do not allow use by children. The bait should be placed inaccessible to children or domestic animals. Do not eat, drink or smoke during work. After handling, wash hands with plenty of water and soap.

Avoid release to the environment. Prevent the product residues or its container from entering drains or watercourses.

### 5.3. Particulars of likely direct or indirect effects, first aid instructions and emergency measures to protect the environment

**If inhaled:** Keep patient calm, remove to fresh air. Seek medical advice.

**After contact with skin:** Wash thoroughly with soap and water.

**After eye contact:** Rinse with plenty of water for several minutes. If irritation persists, seek medical attention.

**If swallowed:** get medical attention if feeling unwell.

Contain the spill, sweep spillage and transfer into waste containers for disposal.

### 5.4. Instructions for safe disposal of the product and its packaging

The bait stations should not be washed or reused.

Dispose of waste products and bait stations after treatment in accordance with local requirements. If it is not contrary to official specifications, packaging may be treated like household waste. Prevent contamination of environment by wastes.

### 5.5. Conditions of storage and shelf-life of the product under normal conditions of storage

Shelf-life and storage: 3years if stored in original unopened package in a dark, dry, cool and frost-free place. Keep away from feed and foodstuffs, medicines. (Date of manufacture must be shown on the label.)

## 6. Other information

The product contains a bittering agent – denatonium benzoate –which helps prevent incidental human consumption.
