On administrative changes of the national authorisation

Latvian Environment, Geology and Meteorology Centre (LEGMC) on 15 September 2021 received the application for administrative changes via Register for Biocidal Products (Case No BC-XG069952-17) submitted according Article 6 of *Commission Implementing Regulation (EU) No 354/2013 of 18 April 2013 on changes of biocidal products authorised in accordance with Regulation (EU) No 528/2012 of the European Parliament and of the Council* for the biocidal product family **DeLaval iodine-based teat disinfectant family** with authorisation number **LV/2019/MR/010**.

LEGMC evaluated the application and agrees with proposed change:

1. Change of the name of the biocidal product where there is no risk of confusion with the names of other biocidal products. The product in Meta SPC 4 of this family, currently registered as “GMP36”, will be placed on the Latvian market with the trade name “Dipal Plus”.

This letter is integral part of authorisation of biocidal product through mutual recognition (31 July 2019, letter No. 4-6/1114).

LEGMC would like to ask DeLaval NV to notify the above mentioned information down to supply chain.
