SUMMARY OF PRODUCT CHARACTERISTICS FOR A BIOCIDAL PRODUCT

NO INSECT ACTIVE

Product type(s)

PT19: Repellents and attractants

Authorisation number: 2024-03-07-B01

R4BP asset number: MT-0030692-0000

| Field(s) of use | outdoor use Altro Topic use |
| Application method(s) | Method: spraying Detailed description: Shake the container well before use. Spray evenly on legs and arms at a distance of about 15/20 cm avoiding to apply it directly on the face, wounds and mucous membranes. For applications on face and neck, spray a little quantity of product on the palm of the hand and spread it avoiding contact with the eyes, nose and mouth. |
| Application rate(s) and frequency | Application Rate: Spray evenly. Do not repeat the treatment more than twice a day Dilution (%): 100 Number and timing of application: In adults, do not repeat the treatment more than twice a day In children from 2 to 12 years do not apply the product more than once a day. Do not apply the product on children under the age of two. |
| Category(ies) of users | general public (non-professional) |
| Pack sizes and packaging material | AEROSOL CANS from 30ml to 300ml Aluminum Contains DENATONIUM BENZOATE, a very bitter substance to prevent accidental ingestion of the product by children. |

4.1.1. Use-specific instructions for use

Shake the container well before use. Spray evenly on legs and arms at a distance of about 15/20 cm avoiding to apply directly on the face, wounds and mucous membranes.

For applications on face and neck, spray a little quantity of product on the palm of the hand and spread avoiding contact with the eyes, nose and mouth.

In adults do not repeat the treatment more than twice a day.

Do not apply on children under 2 years of age.

Application on children between 2 and 12 years of age must be performed by an adult. Do not allow the product to come into contact with children's hands. Use with caution on delicate skin, especially in children up to 12 years.

Do not use on abraded, macerated, sunburned or wounded skin.

Avoid contact with eyes, nose and mouth.

4.1.2. Use-specific risk mitigation measures

Contains DENATONIUM BENZOATE a very bitter substance which prevent accidental ingestion of the product by children.

In adults do not repeat the treatment more than twice a day.

Do not apply on children under 2 years of age.

Application on children between 2 and 12 years of age must be performed by an adult. Do not allow the product to come into contact with children's hands. Use with caution on delicate skin, especially in children up to 12 years.

Do not use on abraded, macerated, sunburned or wounded skin.

Avoid contact with eyes, nose and mouth.

Avoid contact with plastic materials.

Do not contaminate food, drinks or containers intended to contain them during use.

Do not eat, drink or smoke during use.

Do not breathe aerosols.

Use the product only in perfectly ventilated areas.

Do not use in the presence of open flames.

4.1.3. Where specific to the use, the particulars of likely direct or indirect effects, first aid instructions and emergency measures to protect the environment

In case of adverse reactions, immediately remove the product by washing thoroughly with soap and water, if symptoms persist contact a doctor and show him the label.

In case of ingestion, consult a doctor immediately and show him the container or label; alternatively consult a Poison Control Center.

Avoid contact with plastic materials.

Do not contaminate food, drinks or containers intended to contain them during use.

Avoid contact with eyes.

4.1.4. Where specific to the use, the instructions for safe disposal of the product and its packaging

Do not reuse the container and do not disperse it in the environment but dispose it in compliance with current regulations.

Product residues are considered special hazardous waste. The level of danger of the waste containing this product must be assessed according to the standards in force. Disposal must be entrusted to a company authorized to manage waste in compliance with national and local regulations.

CONTAMINATED PACKAGING: Contaminated packaging must be covered or disposed of in accordance with national waste management regulations.

4.1.5. Where specific to the use, the conditions of storage and shelf-life of the product under normal conditions of storage

Keep out of the reach of children. Keep away from food or feed and drinks.

Keep in a well-ventilated place, protected from direct sunlight and away from any source of combustion.

Keep away from heat sources, from sources of combustion and close to fire extinguishers. Do not expose to a temperature above 50 ° C.

Do not open or puncture the container.

The mixture can't stand the cold.

Accurate ventilation / extraction in the workplace.

Shelf-life: 36 months.

5. GENERAL DIRECTIONS FOR USE¹

5.1. Instructions for use

NO INSECT ACTIVE is a ready-to-use insect repellent Aerosol based on DEET, effective even after a single application.

NO INSECT ACTIVE protects against mosquito bites of various species, including the Tiger mosquito, both during the day, until dusk, and at night.

The action of NO INSECT ACTIVE takes place against mosquitoes for eight hours after application. The product is indicated for use in areas infested by tropical mosquito (*Anopheles gambiae*) where its protection lasts for five hours.

NO INSECT ACTIVE is very effective against simuliids, black gnats that attack mammals in rural areas, the use of NO INSECT ACTIVE is therefore indicated in areas infested with simuliids such as stables, farms, campsites, rural areas with generally protracted action for more than 5 hours.

NO INSECT ACTIVE is also effective against ticks allowing to protect the treated areas for three hours. Its use is therefore indicated in the case of frequenting infested areas such as wooded areas, meadows, agricultural areas and rural areas in general.

Useful in MTV areas (to control the spread of vector-borne diseases).

5.2. Risk mitigation measures

Contains DENATONIUM BENZOATE a very bitter substance to prevent accidental ingestion of the product by children.

Deny adults do not repeat the treatment more than twice a day.

Do not apply on children under 2 years of age.

Application on children between 2 and 12 years of age must be performed by an adult. Do not allow the product to come into contact with children's hands. Use with caution on delicate skin, especially in children up to 12 years.

Do not use on abraded, macerated, sunburned or wounded skin.

Avoid contact with eyes, nose and mouth.

Avoid contact with plastic materials.

Do not contaminate food, drinks or containers intended to contain them during use.

Do not eat, drink or smoke during use.

Do not breathe aerosols.

Use the product only in perfectly ventilated areas.

Do not use in the presence of open flames.

5.3. Particulars of likely direct or indirect effects, first aid instructions and emergency measures to protect the environment

In case of adverse reactions, immediately remove the product by washing thoroughly with soap and water, if symptoms persist contact a doctor and show him the label.

In case of ingestion, consult a doctor immediately and show him the container or label; alternatively consult a Poison Control Center.

Avoid contact with plastic materials.

Do not contaminate food, drinks or containers intended to contain them during use.

Avoid contact with eyes.

5.4. Instructions for safe disposal of the product and its packaging

Do not reuse the container and do not disperse it in the environment but dispose it in compliance with current regulations.

Product residues are considered special hazardous waste. The level of danger of the waste containing this product must be assessed according to the standards in force. Disposal must be entrusted to a company authorized to manage waste in compliance with national and local regulations.

CONTAMINATED PACKAGING: Contaminated packaging must be covered or disposed of in accordance with national waste management regulations.

¹Instructions for use, risk mitigation measures and other directions for use under this section are valid for any authorised uses.

5.5. Conditions of storage and shelf-life of the product under normal conditions of storage

Keep out of the reach of children. Keep away from food or feed and drinks.

Keep in a well-ventilated place, protected from direct sunlight and away from any source of combustion.

Keep away from heat sources, from sources of combustion and close to fire extinguishers. Do not expose to a temperature above 50 ° C.

Do not open or puncture the container.

The mixture can't stand the cold.

Accurate ventilation / extraction in the workplace.

Validity: 36 months.

6. OTHER INFORMATION
