

Summary of product characteristics for a biocidal product family

Family name: Christeyns' Propan-1/2-ol BPF

Product type(s): PT02 - Disinfectants and algaecides not intended for direct application to humans or animals (Disinfectants)

PT04 - Food and feed area (Disinfectants)

Authorisation number: IE/BPA 70776

R4BP 3 asset reference number: IE-0027655-0000

Part I.- First information level

1. Administrative information

1.1. Family name

Christeyns' Propan-1/2-ol BPF

1.2. Product type(s)

PT02 - Disinfectants and algaecides not intended for direct application to humans or animals (Disinfectants)

PT04 - Food and feed area (Disinfectants)

1.3. Authorisation holder

Name and address of the authorisation holder

| | |
|---------|----------------------------------|
| Name | Christeyns NV |
| Address | Afrikalaan 182 9000 Gent Belgium |

Authorisation number

IE/BPA 70776

R4BP 3 asset reference number

IE-0027655-0000

Date of the authorisation

23/02/2022

Expiry date of the authorisation

25/12/2031

1.4. Manufacturer(s) of the biocidal products

Name of the manufacturer

Christeyns N.V.

Address of the manufacturer

Afrikalaan 182 9000 Gent Belgium

Location of manufacturing sites

Afrikalaan 182 9000 Gent Belgium

| | |
|--|--|
| Name of the manufacturer | Christeyns s.r.o. |
| Address of the manufacturer | Vitovska 453/7 742 35 Odry Czech Republic |
| Location of manufacturing sites | Christeyns s.r.o. 742 35 Odry Czech Republic |

| | |
|--|--|
| Name of the manufacturer | Christeyns Food Hygiene sas |
| Address of the manufacturer | ZA Les Farges 24580 Rouffignac St. Cernin France |
| Location of manufacturing sites | ZA Les Farges 24580 Rouffignac St. Cernin France |

| | |
|--|---|
| Name of the manufacturer | Betelgeux sl |
| Address of the manufacturer | Poligono Industrial Raconc, Parcelas 2 y 3 CP 46729 Ador - Valencia Spain |
| Location of manufacturing sites | Poligono Industrial Raconc, Parcelas 2 y 3 CP 46729 Ador - Valencia Spain |

| | |
|--|--|
| Name of the manufacturer | Christeyns France sa |
| Address of the manufacturer | Rue de la Maladrie 31, PI de la Vertonne 44120 Vertou France |
| Location of manufacturing sites | Rue de la Maladrie 31, PI de la Vertonne 44124 Vertou France |

| | |
|--|--|
| Name of the manufacturer | Christeyns Professional Hygiene srl. |
| Address of the manufacturer | Via Aldo Moro 30 20060 Pessano con Bornago Italy |
| Location of manufacturing sites | Via Aldo Moro 30 20060 Pessano con Bornago Italy |

| | |
|--|--|
| Name of the manufacturer | Christeyns UK Ltd. |
| Address of the manufacturer | Rutland Street BD4 7EA Bradford United Kingdom |
| Location of manufacturing sites | Rutland Street BD4 7EA Bradford United Kingdom |

| | |
|--|---|
| Name of the manufacturer | Christeyns Food Hygiene Ltd. |
| Address of the manufacturer | 2 Cameron Court, Winwick Quay WA2 8RE Warrington United Kingdom |
| Location of manufacturing sites | 2 Cameron Court, Winwick Quay WA2 8RE Warrington United Kingdom |

| | |
|--|--|
| Name of the manufacturer | Clover Chemicals Ltd. |
| Address of the manufacturer | Clover House, Macclesfield Road, Whaley Bridge SK23 7DQ High Peak United Kingdom |
| Location of manufacturing sites | Clover House, Macclesfield Road, Whaley Bridge SK23 7DQ High Peak United Kingdom |

1.5. Manufacturer(s) of the active substance(s)

| | |
|--|--|
| Active substance | 1354 - Propan-1-ol |
| Name of the manufacturer | OQ Chemicals GmbH (Formerly OXEA GmbH) |
| Address of the manufacturer | Otto-Roelen-Str. 3 46147 Oberhausen Germany |
| Location of manufacturing sites | Oxea corporation. 2001 FM 3057 TX 77404 Bay City United States |

| | |
|--|---|
| Active substance | 1355 - Propan-2-ol |
| Name of the manufacturer | Brenntag GmbH |
| Address of the manufacturer | Stinnes Platz 1 45472 Mülheim an der Ruhr Germany |
| Location of manufacturing sites | Shell Nederland Raffinaderij BV, Vondelingenweg 601 3196 KK Rotterdam Netherlands |
| | Exxon Mobil, 4045 Scenic Hwy, Baton Rouge 70805 LA United States |

| | |
|--|--|
| Active substance | 1354 - Propan-1-ol |
| Name of the manufacturer | Sasol Chemie GmbH & Co. KG |
| Address of the manufacturer | Anckelmannsplatz 1 20537 Hamburg Germany |
| Location of manufacturing sites | Secunda Chemical Operations, Sasol Place, 50 Katherine streeed 2090 Sandton South Africa |
| Active substance | 1355 - Propan-2-ol |
| Name of the manufacturer | Alcoholes Montplet S.A. |
| Address of the manufacturer | NOVAPEX, NOVACAP, Le Carré Joannès, 29 avenue Joannès Masset CS 10619 69258 Lyon Cedex 09 France |
| Location of manufacturing sites | NOVAPEX, Rue Gaston Monmousseau 38150 Salaise-sur-Sanne France |

2. Product family composition and formulation

2.1. Qualitative and quantitative information on the composition of the family

| Common name | IUPAC name | Function | CAS number | EC number | Content (%) |
|-------------|------------|------------------|------------|-----------|---------------|
| Propan-1-ol | | Active Substance | 71-23-8 | 200-746-9 | 24,54 - 49,07 |
| Propan-2-ol | | Active Substance | 67-63-0 | 200-661-7 | 9,77 - 19,54 |

2.2. Type(s) of formulation

| |
|-----------------------|
| AL - Any other liquid |
|-----------------------|

Part II.- Second information level - meta SPC(s)

1. Meta SPC administrative information

1.1. Meta SPC identifier

Meta SPC 1: Mida San 335 RV

1.2. Suffix to the authorisation number

1-1

1.3 Product type(s)

PT02 - Disinfectants and algaecides not intended for direct application to humans or animals (Disinfectants)

PT04 - Food and feed area (Disinfectants)

2. Meta SPC composition

2.1. Qualitative and quantitative information on the composition of the meta SPC

| Common name | IUPAC name | Function | CAS number | EC number | Content (%) |
|-------------|------------|------------------|------------|-----------|---------------|
| Propan-1-ol | | Active Substance | 71-23-8 | 200-746-9 | 24,54 - 24,54 |
| Propan-2-ol | | Active Substance | 67-63-0 | 200-661-7 | 9,77 - 9,77 |

2.2. Type(s) of formulation of the meta SPC

Formulation(s)

AL - Any other liquid

3. Hazard and precautionary statements of the meta SPC

Hazard statements

Flammable liquid and vapour.
Causes serious eye damage.

| | |
|---------------------------------|--|
| Precautionary statements | <p>May cause drowsiness or dizziness.</p> <p>Repeated exposure may cause skin dryness or cracking.</p> |
| | <p>Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. - No smoking.</p> <p>Avoid breathing spray.</p> <p>Avoid breathing vapours.</p> <p>Wear eye protection.</p> <p>IF INHALED: Remove person to fresh air and keep comfortable for breathing.</p> <p>IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.</p> <p>Immediately call a POISON CENTER or doctor/physician.</p> <p>Store in a well-ventilated place. Keep container tightly closed.</p> <p>Dispose of contents to in accordance with local/regional/national/international regulations..</p> <p>Dispose of container to in accordance with local/regional/national/international regulations..</p> <p>Use only outdoors or in a well-ventilated area.</p> |

4. Authorised use(s) of the meta SPC

4.1 Use description

Use 1 - Use 1.1 - PT2 Surface disinfection, trigger spraying

| | |
|---|---|
| Product type | PT02 - Disinfectants and algacides not intended for direct application to humans or animals (Disinfectants) |
| Where relevant, an exact description of the authorised use | not relevant |
| Target organism(s) (including development stage) | <p>Scientific name: bacteria Common name: Bacteria Development stage:</p> <p>Scientific name: Yeasts Common name: Yeasts Development stage:</p> |
| Field(s) of use | <p>Indoor</p> <p>Indoors – In Non-food industries, institutions & workplaces. Disinfection of small hard/non-porous surfaces by trigger spraying, with prior cleaning</p> |

Application method(s)

Method: Trigger Spraying
Detailed description:

By trigger spraying.

After trigger spraying & required contact time achieved, the product may be wiped off with a tissue or cloth.

Application rate(s) and frequencies

Application Rate: 30 ml / m²
Dilution (%): 0%
Number and timing of application:

Active against bacteria & yeasts:
Ready-to-use
At room temperature
With 5 min contact time
Application rate: 30 ml / m²
Frequency: daily

Category(ies) of users

Industrial

Professional

Pack sizes and packaging material

1 L flasks with separate trigger spraying device (HDPE)
5, 10, 22, 25 L refill cans (HDPE)

4.1.1 Use-specific instructions for use

Please see general instructions for use.

4.1.2 Use-specific risk mitigation measures

The following risk mitigation measures shall be applied unless they can be replaced by technical and/or organisational measures:
Technical and organisational protection measures have to be considered by preference (personal protection measures shall not be

permanent measures).

Unspecified rooms:

max 1 application per day
RPE 4 required during application
unprotected bystanders should not be present during application

Pharmaceutical and cosmetics manufacturing facilities:

RPE 4 required during mixing and loading.

4.1.3 Where specific to the use, the particulars of likely direct or indirect effects, first aid instructions and emergency measures to protect the environment

Please see general directions for use.

4.1.4 Where specific to the use, the instructions for safe disposal of the product and its packaging

Please see general directions for use.

4.1.5 Where specific to the use, the conditions of storage and shelf-life of the product under normal conditions of storage

Please see general directions for use.

4.2 Use description

Use 2 - Use 1.2 - PT2 Surface disinfection, low-pressure spraying

Product type

PT02 - Disinfectants and algacides not intended for direct application to humans or animals (Disinfectants)

Where relevant, an exact description of the authorised use

not relevant

Target organism(s) (including development stage)

Scientific name: bacteria
Common name: Bacteria
Development stage:

Scientific name: Yeasts
Common name: Yeasts
Development stage:

| | |
|--|--|
| Field(s) of use | Indoor Indoors. Non-food industry (e.g. pharmaceutical) Disinfection of hard/non-porous surfaces by low-pressure spraying, with prior cleaning. |
| Application method(s) | Method: Low-pressure spraying Detailed description: Low-pressure spraying: after low-pressure spraying, the product is left to dry but not wiped off. |
| Application rate(s) and frequencies | Application Rate: 200 ml / m ² Dilution (%): 0% Number and timing of application: Active against bacteria & yeasts: Ready-to-use At room temperature with 5 min contact time Application rate: 200 ml/m ² Frequency: daily |
| Category(ies) of users | Industrial |
| Pack sizes and packaging material | 5, 10, 22, 25 L cans (HDPE), 220 L vessels (HDPE) 1000 L IBCs (HDPE) |

4.2.1 Use-specific instructions for use

Please see general instructions for use

4.2.2 Use-specific risk mitigation measures

The following risk mitigation measures shall be applied unless they can be replaced by technical and/or organisational measures:

Technical and organisational protection measures have to be considered by preference (personal protection measures shall not be permanent measures).

Unspecified rooms:

1 application per day for a maximum of 8 m²
RPE 20 required during application
unprotected bystanders should not be present during application

Cleanrooms:

1 application per day for a maximum of 10 m²
RPE 4 and a ventilation rate of 20/h required during application
unprotected bystanders should not be present during application

Laboratories and biotechnology:

1 application per day for a maximum of 10 m²
RPE 10 required during application
unprotected bystanders should not be present during application

Pharmaceutical and cosmetics manufacturing facilities:

1 application per day for a maximum of 10 m²
RPE 4 required during application
unprotected bystanders should not be present during application

4.2.3 Where specific to the use, the particulars of likely direct or indirect effects, first aid instructions and emergency measures to protect the environment

please see general directions for use

4.2.4 Where specific to the use, the instructions for safe disposal of the product and its packaging

please see general directions for use.

4.2.5 Where specific to the use, the conditions of storage and shelf-life of the product under normal conditions of storage

Please see general directions for us

4.3 Use description

Use 3 - Use 1.3 – PT4 Surface disinfection, trigger spraying

| | |
|---|--|
| Product type | PT04 - Food and feed area (Disinfectants) |
| Where relevant, an exact description of the authorised use | not relevant |
| Target organism(s) (including development stage) | Scientific name: bacteria Common name: Bacteria Development stage: |

| | |
|--|---|
| | <p>Scientific name: Yeasts Common name: Yeasts Development stage:</p> |
| Field(s) of use | <p>Indoor</p> <p>Indoors. Large-scale kitchens, restaurants, food industry : Disinfection of small hard/non-porous surfaces by trigger spraying with prior cleaning.</p> |
| Application method(s) | <p>Method: Trigger Spraying Detailed description:</p> <p>By trigger spraying : after trigger spraying & required contact time achieved, the product may be wiped off with a tissue or cloth.</p> |
| Application rate(s) and frequencies | <p>Application Rate: 30 ml / m² Dilution (%): 0% Number and timing of application:</p> <ul style="list-style-type: none"> • Active against bacteria & yeasts : Ready-to-use <p>At room temperature</p> <p>With 5 min contact time Application rate: 30 ml / m²</p> <p>Frequency: daily</p> |
| Category(ies) of users | <p>Industrial</p> <p>Professional</p> |
| Pack sizes and packaging material | <p>1 L flasks with separate trigger spraying device (HDPE) 5, 10, 22, 25 L refill cans (HDPE)</p> |

4.3.1 Use-specific instructions for use

4.3.1 Use-specific instructions for use

Please see general instructions for use.

4.3.2 Use-specific risk mitigation measures

The following risk mitigation measures shall be applied unless they can be replaced by technical and/or organisational measures: Technical and organisational protection measures have to be considered by preference (personal protection measures shall not be permanent measures).

Unspecified rooms:

max 1 application per day
RPE 4 required during application
unprotected bystanders should not be present during application

Kitchen and canteens:

RPE 4 required during mixing and loading.

4.3.3 Where specific to the use, the particulars of likely direct or indirect effects, first aid instructions and emergency measures to protect the environment

Please see general directions for use.

4.3.4 Where specific to the use, the instructions for safe disposal of the product and its packaging

Please see general directions for use.

4.3.5 Where specific to the use, the conditions of storage and shelf-life of the product under normal conditions of storage

Please see general directions for use.

4.4 Use description

Use 4 - Use 1.4 – PT4 Surface disinfection, low-pressure spraying

| | |
|---|--|
| Product type | PT04 - Food and feed area (Disinfectants) |
| Where relevant, an exact description of the authorised use | not relevant |
| Target organism(s) (including development stage) | Scientific name: bacteria Common name: Bacteria Development stage: Scientific name: Yeasts Common name: Yeasts Development stage: |
| Field(s) of use | Indoor Indoors- In large-scale kitchens, restaurants, food industry: Disinfection of hard/non-porous surfaces by low-pressure spraying, with prior cleaning |
| Application method(s) | Method: Low-pressure spraying Detailed description: Low-pressure spraying: after low-pressure spraying, the product is left to dry but not wiped off. |
| Application rate(s) and frequencies | Application Rate: 200 ml / m ² Dilution (%): 0% Number and timing of application: <ul style="list-style-type: none">• Active against bacteria & yeasts : Ready-to-use At room temperature With 5 min contact time Application rate: 200 ml / m ² Frequency: daily |
| Category(ies) of users | Industrial |
| Pack sizes and packaging material | 5, 10, 22, 25 L cans (HDPE), 220 L vessels (HDPE) 1000 L IBCs (HDPE) |

4.4.1 Use-specific instructions for use

Please see general instructions for use.

4.4.2 Use-specific risk mitigation measures

The following risk mitigation measures shall be applied unless they can be replaced by technical and/or organisational measures: Technical and organisational protection measures have to be considered by preference (personal protection measures shall not be permanent measures).

Unspecified rooms:

1 application per day for a maximum of 8 m²
RPE 20 required during application
unprotected bystanders should not be present during application

Institutional kitchens and canteens:

1 application per day for a maximum of 10 m²
RPE 4 required during application
unprotected bystanders should not be present during application

Industrial kitchens:

1 application per day for a maximum of 10 m²

Industrial production rooms:

1 application per day for a maximum of 10 m²

4.4.3 Where specific to the use, the particulars of likely direct or indirect effects, first aid instructions and emergency measures to protect the environment

Please see general directions for use.

4.4.4 Where specific to the use, the instructions for safe disposal of the product and its packaging

Please see general directions for use.

4.4.5 Where specific to the use, the conditions of storage and shelf-life of the product under normal conditions of storage

Please see general directions for use.

4.5 Use description

Use 5 - Use 1.5 – PT4 Object Disinfection by dipping

| | |
|---|---|
| Product type | PT04 - Food and feed area (Disinfectants) |
| Where relevant, an exact description of the authorised use | not relevant |
| Target organism(s) (including development stage) | <p>Scientific name: bacteria Common name: Bacteria Development stage:</p> <p>Scientific name: Yeasts Common name: Yeasts Development stage:</p> |
| Field(s) of use | <p>Indoor</p> <p>Indoors – In large-scale kitchens, restaurants, food industry: Disinfection of hard/non-porous surfaces (objects) by dipping, with prior cleaning</p> |
| Application method(s) | <p>Method: Dipping Detailed description:</p> <p>Disinfection of instruments or equipment by means of dipping (entering objects in a pre-filled bath) or filling (filling an empty bath, which already contains the objects). In both cases, objects are completely immersed.</p> |
| Application rate(s) and frequencies | <p>Application Rate: 25 litres Dilution (%): 0% Number and timing of application:</p> <ul style="list-style-type: none"> • Active against bacteria & yeasts : Ready-to-use <p>At room temperature</p> <p>With 5 min contact time</p> <p>Frequency: daily</p> |

| | |
|--|---|
| | |
| Category(ies) of users | Industrial Professional |
| Pack sizes and packaging material | 5, 10, 22, 25 L cans (HDPE), 220 L vessels (HDPE) 1000 L IBCs (HDPE) |

4.5.1 Use-specific instructions for use

Please see general instructions for use.

4.5.2 Use-specific risk mitigation measures

Please see general directions for use.

4.5.3 Where specific to the use, the particulars of likely direct or indirect effects, first aid instructions and emergency measures to protect the environment

Please see general directions for use.

4.5.4 Where specific to the use, the instructions for safe disposal of the product and its packaging

Please see general directions for use.

4.5.5 Where specific to the use, the conditions of storage and shelf-life of the product under normal conditions of storage

Please see general directions for use.

5. General directions for use of the meta SPC

5.1. Instructions for use

- Disinfection procedures by spraying, wiping or dipping :

All the surfaces to be disinfected should be cleaned/rinsed/dried before the disinfection procedure: the user should thoroughly clean, rinse and drain the cleaning liquids from the surfaces to be disinfected.

- Disinfection cycle :

All the products must be used UNDILUTED.

Please refer to the description of application method related to each use to duly know the required CONTACT TIME and if a FINAL RINSE (with potable water) after disinfection is required.

- - For the disinfection procedures by trigger spraying : Make sure to wet the surfaces completely, allow to take effect for the specified contact time.

- Disinfection procedures by dipping : The bath is not intended to be re-used. Use the bath only once a day after work & replace it by a fresh solution daily.

5.2. Risk mitigation measures

Use in well ventilated areas.

Provide adequate ventilation before entering treated rooms.

Not for use in areas accessible for the general public.

Disinfection by trigger spraying:

Wear protective chemical resistant gloves during product handling phase.

The use of eye protection (safety goggles) during handling of the product is mandatory.

Wear a face shield during product handling phase.

Disinfection by low pressure spraying:

Wear protective chemical resistant gloves during product handling phase.

The use of eye protection (full face mask) during handling of the product is mandatory.

A protective overall which is impermeable for the biocidal product shall be worn.

Disinfection by dipping:

Wear protective chemical resistant gloves during product handling phase.

The use of eye protection (safety goggles) during handling of the product is mandatory.

Wear a face shield during product handling phase.

5.3. Particulars of likely direct or indirect effects, first aid instructions and emergency measures to protect the environment

First-aid measures general: Never give anything by mouth to an unconscious person. If you feel unwell, seek medical advice (show the label where possible).
IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing. Obtain medical attention if breathing difficulty persists.
IF ON SKIN: Take off all contaminated clothing and wash it before reuse. Wash skin with water. If skin irritation occurs: Get medical advice.
IF IN EYES: Immediately rinse with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing for at least 15 minutes. Call 112/ambulance for medical assistance.
IF SWALLOWED: Immediately rinse mouth. Give something to drink, if exposed person is able to swallow. Do NOT induce vomiting. Call 112/ambulance for medical assistance.

Most important symptoms and effects, both acute and delayed
Symptoms/injuries: Irritation of the respiratory tract and the other mucous membranes. Risk of serious damage to eyes. Vapours may cause drowsiness and dizziness.
Indication of any immediate medical attention and special treatment needed: Prompt action is critical.
Avoid release to the environment. Prevent entry to sewers and public waters. Notify authorities if product enters sewers or public waters.

5.4. Instructions for safe disposal of the product and its packaging

Avoid release to the environment. Dispose in a safe manner in accordance with local/national regulations.

5.5. Conditions of storage and shelf-life of the product under normal conditions of storage

Technical measures:
Proper grounding procedures to avoid static electricity should be followed.

Storage conditions:
Keep only in the original container in a cool, well ventilated place.
Avoid high temperatures.

Protect from direct sunlight.
Protect from frost.

Incompatible products: Strong acids. Strong bases.
Shelf-life: 2 years

6. Other information

The product contains Propan-2-ol, for which an AEC inhalation for the professional user was agreed and used for the risk assessment of the product.

7. Third information level: individual products in the meta SPC

7.1 Trade name(s), authorisation number and specific composition of each individual product

Trade name(s)

| | |
|---------------------|-----------------|
| MIDA SAN 335 RV | Market area: EU |
| Form 335 | Market area: EU |
| IE-0027655-0001 1-1 | |

Authorisation number

(R4BP 3 asset reference number - National Authorisation)

| Common name | IUPAC name | Function | CAS number | EC number | Content (%) |
|-------------|------------|------------------|------------|-----------|-------------|
| Propan-1-ol | | Active Substance | 71-23-8 | 200-746-9 | 24,54 |
| Propan-2-ol | | Active Substance | 67-63-0 | 200-661-7 | 9,77 |

1. Meta SPC administrative information

1.1. Meta SPC identifier

Meta SPC 2: Mida San 334 MF

1.2. Suffix to the authorisation number

1-2

1.3 Product type(s)

PT02 - Disinfectants and algaecides not intended for direct application to humans or animals (Disinfectants)

PT04 - Food and feed area (Disinfectants)

2. Meta SPC composition

2.1. Qualitative and quantitative information on the composition of the meta SPC

| Common name | IUPAC name | Function | CAS number | EC number | Content (%) |
|-------------|------------|------------------|------------|-----------|---------------|
| Propan-1-ol | | Active Substance | 71-23-8 | 200-746-9 | 34,35 - 34,35 |
| Propan-2-ol | | Active Substance | 67-63-0 | 200-661-7 | 13,68 - 13,68 |

2.2. Type(s) of formulation of the meta SPC

Formulation(s)

AL - Any other liquid

3. Hazard and precautionary statements of the meta SPC

Hazard statements

Flammable liquid and vapour.
Causes serious eye damage.
May cause drowsiness or dizziness.
Repeated exposure may cause skin dryness or cracking.

Precautionary statements

Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. - No smoking.
Avoid breathing spray.
Avoid breathing vapours.
Wear eye protection.
IF INHALED: Remove person to fresh air and keep comfortable for breathing.
IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

Immediately call a POISON CENTER or doctor/physician.

Store in a well-ventilated place.Keep container tightly closed.

Dispose of contents to in accordance with local/regional/national/international regulations..

Dispose of container to in accordance with local/regional/national/international regulations..

Use only outdoors or in a well-ventilated area.

4. Authorised use(s) of the meta SPC

4.1 Use description

Use 1 - Use 2.1 – PT2 Surface disinfection, trigger spraying

| | |
|---|---|
| Product type | PT02 - Disinfectants and algacides not intended for direct application to humans or animals (Disinfectants) |
| Where relevant, an exact description of the authorised use | Not relevant |

Category(ies) of users

Industrial
Professional

Pack sizes and packaging material

1 L flasks with separate trigger spraying device (HDPE)
5, 10, 22, 25 L refill cans (HDPE)

4.1.1 Use-specific instructions for use

Please see general instructions for use.

4.1.2 Use-specific risk mitigation measures

The following risk mitigation measures shall be applied unless they can be replaced by technical and/or organisational measures: Technical and organisational protection measures have to be considered by preference (personal protection measures shall not be permanent measures).

Unspecified rooms:

max 1 application per day
RPE 4 required during application
unprotected bystanders should not be present during application

Pharmaceutical and cosmetics manufacturing facilities:

RPE 4 required during mixing and loading.

4.1.3 Where specific to the use, the particulars of likely direct or indirect effects, first aid instructions and emergency measures to protect the environment

Please see general directions for use.

4.1.4 Where specific to the use, the instructions for safe disposal of the product and its packaging

Please see general directions for use.

4.1.5 Where specific to the use, the conditions of storage and shelf-life of the product under normal conditions of storage

Please see general directions for use.

4.2 Use description

Use 2 - Use 2.2 – PT2 Surface disinfection, low-pressure spraying

Product type

PT02 - Disinfectants and algacides not intended for direct application to humans or animals (Disinfectants)

Where relevant, an exact description of the authorised use

not relevant

Target organism(s) (including development stage)

Scientific name: bacteria
Common name: Bacteria
Development stage: Adults

Scientific name: Yeasts
Common name: Yeasts
Development stage: Adults

Field(s) of use

Indoor

Indoors – In Non-food industries (e.g. pharmaceutical) :
Disinfection of hard/non-porous surfaces by low-pressure spraying, with prior cleaning.

Application method(s)

Method: Low-pressure spraying
Detailed description:

By Low-pressure spraying : after low-pressure spraying, the product is left to dry but not wiped off.

Application rate(s) and frequencies

Application Rate: 200 ml / m²
Dilution (%): 0%
Number and timing of application:

Active against bacteria & yeasts:

| | |
|--|--|
| | <p>Ready-to-use</p> <p>At room temperature</p> <p>With 5 min contact time Application rate: 200 ml / m²</p> <p>Frequency: daily</p> |

4.2.1 Use-specific instructions for use

Please see general instructions for use.

4.2.2 Use-specific risk mitigation measures

The following risk mitigation measures shall be applied unless they can be replaced by technical and/or organisational measures: Technical and organisational protection measures have to be considered by preference (personal protection measures shall not be permanent measures).

Unspecified rooms:

1 application per day for a maximum of 8 m²
RPE 20 required during application.
Unprotected bystanders should not be present during application

Cleanrooms:

1 application per day for a maximum of 10 m²
RPE 4 and a ventilation rate of 20/h required during application
unprotected bystanders should not be present during application

Laboratories and biotechnology:

1 application per day for a maximum of 10 m²

RPE 10 required during application
unprotected bystanders should not be present during application

Pharmaceutical and cosmetics manufacturing facilities:

1 application per day for a maximum of 10 m²
RPE 4 required during application
unprotected bystanders should not be present during application

4.2.3 Where specific to the use, the particulars of likely direct or indirect effects, first aid instructions and emergency measures to protect the environment

Please see general directions for use.

4.2.4 Where specific to the use, the instructions for safe disposal of the product and its packaging

Please see general directions for use.

4.2.5 Where specific to the use, the conditions of storage and shelf-life of the product under normal conditions of storage

Please see general directions for use.

4.3 Use description

Use 3 - Use 2.3 – PT4 Surface disinfection, trigger spraying

| | |

Please see general directions for use.

4.5.4 Where specific to the use, the instructions for safe disposal of the product and its packaging

Please see general directions for use.

4.5.5 Where specific to the use, the conditions of storage and shelf-life of the product under normal conditions of storage

Please see general directions for use.

5. General directions for use of the meta SPC

5.1. Instructions for use

- Disinfection procedures by spraying, wiping or dipping :

All the surfaces to be disinfected should be cleaned/rinsed/dried before the disinfection procedure: the user should thoroughly clean, rinse and drain the cleaning liquids from the surfaces to be disinfected.

- Disinfection cycle :

All the products must be used UNDILUTED.

Please refer to the description of application method related to each use to duly know the required CONTACT TIME and if a FINAL RINSE (with potable water) after disinfection is required.

- - For the disinfection procedures by trigger spraying : Make sure to wet the surfaces completely, allow to take effect for the specified contact time.

- Disinfection procedures by dipping : The bath is not intended to be re-used. Use the bath only once a day after work & replace it by a fresh solution daily.

5.2. Risk mitigation measures

Use in well ventilated areas.

Provide adequate ventilation before entering treated rooms.
Not for use in areas accessible for the general public.

Disinfection by trigger spraying:

Wear protective chemical resistant gloves during product handling phase.
The use of eye protection (safety goggles) during handling of the product is mandatory.
Wear a face shield during product handling phase.

Disinfection by low pressure spraying:

Wear protective chemical resistant gloves during product handling phase.
The use of eye protection (full face mask) during handling of the product is mandatory.
A protective coverall which is impermeable for the biocidal product shall be worn.

Disinfection by dipping:

Wear protective chemical resistant gloves during product handling phase.
The use of eye protection (safety goggles) during handling of the product is mandatory.
Wear a face shield during product handling phase.

5.3. Particulars of likely direct or indirect effects, first aid instructions and emergency measures to protect the environment

First-aid measures general: Never give anything by mouth to an unconscious person. If you feel unwell, seek medical advice (show the label where possible).

IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing. Obtain medical attention if breathing difficulty persists.

IF ON SKIN: Take off all contaminated clothing and wash it before reuse. Wash skin with water. If skin irritation occurs: Get medical advice.

IF IN EYES: Immediately rinse with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing for at least 15 minutes. Call 112/ambulance for medical assistance.

IF SWALLOWED: Immediately rinse mouth. Give something to drink, if exposed person is able to swallow. Do NOT induce vomiting. Call 112/ambulance for medical assistance.

Most important symptoms and effects, both acute and delayed

Symptoms/injuries: Irritation of the respiratory tract and the other mucous membranes. Risk of serious damage to eyes. Vapours may cause drowsiness and dizziness.

Indication of any immediate medical attention and special treatment needed: Prompt action is critical.

Avoid release to the environment. Prevent entry to sewers and public waters. Notify authorities if product enters sewers or public waters.

5.4. Instructions for safe disposal of the product and its packaging

Avoid release to the environment. Dispose in a safe manner in accordance with local/national regulations.

5.5. Conditions of storage and shelf-life of the product under normal conditions of storage

Technical measures:

Proper grounding procedures to avoid static electricity should be followed.

Storage conditions:

Keep only in the original container in a cool, well ventilated place.

Avoid high temperatures.

Protect from direct sunlight.

Protect from frost.

Incompatible products: Strong acids. Strong bases.
Shelf-life: 2 years

6. Other information

The product contains Propan-2-ol, for which an AEC inhalation for the professional user was agreed and used for the risk assessment of the product.

7. Third information level: individual products in the meta SPC

7.1 Trade name(s), authorisation number and specific composition of each individual product

| | | |
|--|---------------------|-----------------|
| Trade name(s) | MIDA SAN 334 MF | Market area: EU |
| | Form 334 | Market area: EU |
| Authorisation number <small>(R4BP 3 asset reference number - National Authorisation)</small> | IE-0027655-0002 1-2 | |

| Common name | IUPAC name | Function | CAS number | EC number | Content (%) |
|-------------|------------|------------------|------------|-----------|-------------|
| Propan-1-ol | | Active Substance | 71-23-8 | 200-746-9 | 34,35 |
| Propan-2-ol | | Active Substance | 67-63-0 | 200-661-7 | 13,68 |

1. Meta SPC administrative information

1.1. Meta SPC identifier

Meta SPC 3: Mida San 311 KZ

1.2. Suffix to the authorisation number

1-3

1.3 Product type(s)

PT02 - Disinfectants and algacides not intended for direct application to humans or animals (Disinfectants)

PT04 - Food and feed area (Disinfectants)

2. Meta SPC composition

2.1. Qualitative and quantitative information on the composition of the meta SPC

| Common name | IUPAC name | Function | CAS number | EC number | Content (%) |
|-------------|------------|------------------|------------|-----------|---------------|
| Propan-1-ol | | Active Substance | 71-23-8 | 200-746-9 | 49,07 - 49,07 |
| Propan-2-ol | | Active Substance | 67-63-0 | 200-661-7 | 19,54 - 19,54 |

2.2. Type(s) of formulation of the meta SPC

Formulation(s)

AL - Any other liquid

3. Hazard and precautionary statements of the meta SPC**Hazard statements**

Flammable liquid and vapour.

Causes serious eye damage.

May cause drowsiness or dizziness.

Repeated exposure may cause skin dryness or cracking.

Precautionary statements

Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. - No smoking.

Avoid breathing spray.

Avoid breathing vapours.

Wear eye protection.

IF INHALED:Remove person to fresh air and keep comfortable for breathing.

IF IN EYES:Rinse cautiously with water for several minutes.Remove contact lenses, if present and easy to do. Continue rinsing.

Immediately call a POISON CENTER or doctor/physician.

Store in a well-ventilated place.Keep container tightly closed.

Dispose of contents to in accordance with local/regional/national/international regulations..

Dispose of container to in accordance with local/regional/national/international regulations..

Use only outdoors or in a well-ventilated area.

4. Authorised use(s) of the meta SPC**4.1 Use description****Use 1 - Use 3.1 – PT2 Surface disinfection, trigger spraying****Product type**

PT02 - Disinfectants and algaecides not intended for direct application to humans or animals (Disinfectants)

Where relevant, an exact description of the authorised use

not relevant

Target organism(s) (including development stage)

Scientific name: bacteria
Common name: Bacteria
Development stage:

Scientific name: Yeasts
Common name: Yeasts
Development stage:

Scientific name: Fungi
Common name: Fungi
Development stage:

Scientific name: Mycobacteriaceae
Common name: Mycobacteria
Development stage:

Scientific name: Viruses
Common name: Adenovirus Type 5, Murine Norovirus
Development stage:

Field(s) of use

Indoor

Indoors – In Non-food industries, institutions & workplaces :
Disinfection of small hard/non-porous surfaces by trigger spraying, with prior cleaning

Application method(s)

Method: Trigger Spraying
Detailed description:

By trigger spraying : after trigger spraying & required contact time achieved, the product may be wiped off with a tissue or cloth.

Application rate(s) and frequencies

Application Rate: 30 ml / m²
Dilution (%): 0%
Number and timing of application:
Ready-to-use
At room temperature
application rate: 30 ml/m²

Active against bacteria, mycobacteria & yeasts: 5 min contact time
Active against bacteria, fungi/yeasts, mycobacteria & viruses: 20 min contact time

Category(ies) of users

Industrial

Professional

Pack sizes and packaging material

750 mL flasks with separate trigger spraying device (HDPE)

1 L flasks with separate trigger spraying device (HDPE)

4.5.1 Use-specific instructions for use

Please see general instructions for use.

4.5.2 Use-specific risk mitigation measures

Please see general directions for use.

4.5.3 Where specific to the use, the particulars of likely direct or indirect effects, first aid instructions and emergency measures to protect the environment

Please see general directions for use.

4.5.4 Where specific to the use, the instructions for safe disposal of the product and its packaging

Please see general directions for use.

4.5.5 Where specific to the use, the conditions of storage and shelf-life of the product under normal conditions of storage

Please see general directions for use.

4.6 Use description

Use 6 - Use 3.6 – PT4 Object Disinfection by dipping

Product type

PT04 - Food and feed area (Disinfectants)

Where relevant, an exact description of the authorised use

not relevant

Target organism(s) (including development stage)

Scientific name: bacteria
Common name: Bacteria
Development stage:

Scientific name: Yeasts
Common name: Yeasts
Development stage:

Scientific name: Mycobacteriaceae
Common name: Mycobacteria
Development stage:

Scientific name: Viruses
Common name: Adenovirus type 5, Murine Norovirus
Development stage:

Scientific name: Fungi
Common name: Fungi
Development stage:

Field(s) of use

Indoor

Disinfection of instruments or equipment by means of dipping (entering objects in a pre-filled bath) or filling (filling an empty bath, which already contains the objects). In both cases, objects are completely immersed.

Application method(s)

Method: Dipping
Detailed description:
Dipping

Application rate(s) and frequencies

Application Rate: 25 litres
Dilution (%): 0%
Number and timing of application:

Ready-to-use
At room temperature

- Active against bacteria, mycobacteria & yeasts : 5 min contact time
- Active against bacteria, fungi/yeasts, mycobacteria and viruses : 20 min contact time

Category(ies) of users

Industrial
Professional

Pack sizes and packaging material

5, 10, 22, 25 L cans (HDPE)

4.6.1 Use-specific instructions for use

Please see general instructions for use.

4.6.2 Use-specific risk mitigation measures

Please see general directions for use.

4.6.3 Where specific to the use, the particulars of likely direct or indirect effects, first aid instructions and emergency measures to protect the environment

Please see general directions for use.

4.6.4 Where specific to the use, the instructions for safe disposal of the product and its packaging

Please see general directions for use.

4.6.5 Where specific to the use, the conditions of storage and shelf-life of the product under normal conditions of storage

Please see general directions for use.

5. General directions for use of the meta SPC

5.1. Instructions for use

- Disinfection procedures by spraying, wiping or dipping :

All the surfaces to be disinfected should be cleaned/rinsed/dried before the disinfection procedure: the user should thoroughly clean, rinse and drain the cleaning liquids from the surfaces to be disinfected.

- Disinfection cycle :

All the products must be used UNDILUTED.

Please refer to the description of application method related to each use to duly know the required CONTACT TIME and if a FINAL RINSE (with potable water) after disinfection is required.

- - **For the disinfection procedures by trigger spraying** : Make sure to wet the surfaces completely, allow to take effect for the specified contact time.

- Disinfection procedures by dipping : The bath is not intended to be re-used. Use the bath only once a day after work & replace it by a fresh solution daily.

5.2. Risk mitigation measures

Use in well ventilated areas.

Provide adequate ventilation before entering treated rooms.
Not for use in areas accessible for the general public.

Disinfection by trigger spraying:

Wear protective chemical resistant gloves during product handling phase.
The use of eye protection (safety goggles) during handling of the product is mandatory.
Wear a face shield during product handling phase.

Disinfection by low pressure spraying:

Wear protective chemical resistant gloves during product handling phase.
The use of eye protection (full face mask) during handling of the product is mandatory.
A protective coverall which is impermeable for the biocidal product shall be worn.

Disinfection by dipping:

Wear protective chemical resistant gloves during product handling phase.
The use of eye protection (safety goggles) during handling of the product is mandatory.
Wear a face shield during product handling phase.

5.3. Particulars of likely direct or indirect effects, first aid instructions and emergency measures to protect the environment

First-aid measures general: Never give anything by mouth to an unconscious person. If you feel unwell, seek medical advice (show the label where possible).

IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing. Obtain medical attention if breathing difficulty persists.

IF ON SKIN: Take off all contaminated clothing and wash it before reuse. Wash skin with water. If skin irritation occurs: Get medical advice.

IF IN EYES: Immediately rinse with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing for at least 15 minutes. Call 112/ambulance for medical assistance.

IF SWALLOWED: Immediately rinse mouth. Give something to drink, if exposed person is able to swallow. Do NOT induce vomiting. Call 112/ambulance for medical assistance.

Most important symptoms and effects, both acute and delayed

Symptoms/injuries: Irritation of the respiratory tract and the other mucous membranes. Risk of serious damage to eyes. Vapours may cause drowsiness and dizziness.

Indication of any immediate medical attention and special treatment needed: Prompt action is critical.

Avoid release to the environment. Prevent entry to sewers and public waters. Notify authorities if product enters sewers or public waters.

5.4. Instructions for safe disposal of the product and its packaging

Avoid release to the environment. Dispose in a safe manner in accordance with local/national regulations.

5.5. Conditions of storage and shelf-life of the product under normal conditions of storage

Technical measures:

Proper grounding procedures to avoid static electricity should be followed.

Storage conditions:

Keep only in the original container in a cool, well ventilated place.

Avoid high temperatures.

Protect from direct sunlight.

Protect from frost.

Incompatible products: Strong acids. Strong bases.
Shelf-life: 2 years

6. Other information

The product contains Propan-2-ol, for which an AEC inhalation for the professional user was agreed and used for the risk assessment of the product.

7. Third information level: individual products in the meta SPC

7.1 Trade name(s), authorisation number and specific composition of each individual product

Trade name(s)

| | |
|-----------------|-----------------|
| Mida San 311 KZ | Market area: EU |
| Form 311 | Market area: EU |
| DYBACOL LQ | Market area: EU |

Authorisation number

(R4BP 3 asset reference number - National Authorisation)

IE-0027655-0003 1-3

| Common name | IUPAC name | Function | CAS number | EC number | Content (%) |
|-------------|------------|------------------|------------|-----------|-------------|
| Propan-1-ol | | Active Substance | 71-23-8 | 200-746-9 | 49,07 |
| Propan-2-ol | | Active Substance | 67-63-0 | 200-661-7 | 19,54 |

1. Meta SPC administrative information

1.1. Meta SPC identifier

Meta SPC 4: Mida San 311 KZ wipes - Saniwipe

1.2. Suffix to the authorisation number

1-4

1.3 Product type(s)

PT02 - Disinfectants and algacides not intended for direct application to humans or animals (Disinfectants)

PT04 - Food and feed area (Disinfectants)

2. Meta SPC composition

2.1. Qualitative and quantitative information on the composition of the meta SPC

| Common name | IUPAC name | Function | CAS number | EC number | Content (%) |
|-------------|------------|------------------|------------|-----------|---------------|
| Propan-1-ol | | Active Substance | 71-23-8 | 200-746-9 | 49,07 - 49,07 |
| Propan-2-ol | | Active Substance | 67-63-0 | 200-661-7 | 19,54 - 19,54 |

2.2. Type(s) of formulation of the meta SPC

Formulation(s)

AL - Any other liquid

3. Hazard and precautionary statements of the meta SPC

Hazard statements

Flammable liquid and vapour.
Causes serious eye damage.
May cause drowsiness or dizziness.
Repeated exposure may cause skin dryness or cracking.

Precautionary statements

Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. - No smoking.
Avoid breathing spray.
Avoid breathing vapours.
Wear eye protection.
IF INHALED: Remove person to fresh air and keep comfortable for breathing.
IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
Immediately call a POISON CENTER or doctor/physician.
Store in a well-ventilated place. Keep container tightly closed.
Dispose of contents to in accordance with local/regional/national/international regulations..
Dispose of container to in accordance with local/regional/national/international regulations..
Use only outdoors or in a well-ventilated area.

4. Authorised use(s) of the meta SPC

4.1 Use description

Use 1 - Use 4.1 – PT2 Surface disinfection, wet wipes

| | |
|---|---|
| Product type | PT02 - Disinfectants and algaecides not intended for direct application to humans or animals (Disinfectants) |
| Where relevant, an exact description of the authorised use | not relevant |
