SCIP database - delay in dissemination

Due to unexpected technical issues, we will need more time to make the SCIP data from companies available on our website. We are working hard on a solution and will communicate the new release date as soon as possible.

We are committed to providing greater transparency on the presence of hazardous substances in products to waste operators and consumers.

New questions and answers published

Take a look at our questions and answers, giving practical advice on SCIP obligations.

New questions:

- 1774 Can a United Kingdom-based (including Northern Ireland) company submit a SCIP notification?
- 1775 How can I use the Candidate List package reference substance?
- 1776 How can I search for my own SCIP numbers?
- 1777 Can simplified SCIP notifications be used by companies belonging to a corporate group?
- 1778 How can I count the number of components included in my IUCLID dossier?

In addition, many other questions have been updated.
