5. GENERAL DIRECTIONS FOR USE¹

5.1. Instructions for use

Read attached instructions before use.

Only for softwood.

Make sure that the timber to be treated is clean and free of any kind of finish or coating.

Apply the product without diluting it or mixing it with other products.

Apply a uniform layer on the surface of the wood according to dosage in label and let it dry until it is completely absorbed.

Do not use the product for wood, which is foreseen as part of playground structures and other indoor/outdoor structures (e.g. flooring, furniture), to which persons of the general public and pets may have prolonged contact.

5.2. Risk mitigation measures

Do not (use/apply) directly on or near food, feed or drinks, or on surfaces or utensils likely to be in direct contact with food, feed, drinks and livestock/pets.

The laundry of contaminated work clothes must be done by professional personnel wearing gloves and within the company's own facilities.

Wash hands and exposed skin before meal and after use.

Ensure adequate ventilation during and after the application, until treated surfaces have dried.

Keep uninvolved persons, children and pets away from treated surfaces/areas until dried.

Contains permethrin, may be dangerous/toxic to pets (e.g. cats, bees, fish and other aquatic organisms).

Keep cats away from treated surfaces. Due to their particular sensitivity to permethrin, the product can cause severe adverse reactions in cats.

Store in original packaging under recommended storage conditions.

Can be harmful to protected species such as bats, hornets or birds. The presence of protected species in the area to be treated must be assessed prior to use of the product. Appropriate protective measures must be taken if necessary.

The users should inform if the treatment is ineffective and report straightforward to the registration holder.

5.3. Particulars of likely direct or indirect effects, first aid instructions and emergency measures to protect the environment

IF INHALED: If symptoms occur call a POISON CENTRE or a doctor.

IF SWALLOWED: If symptoms occur call a POISON CENTRE or a doctor.

IF ON SKIN: Take off all contaminated clothing and wash it before reuse. Wash skin with water. If skin irritation occurs: Get medical advice.

IF IN EYES: If symptoms occur rinse with water. Remove contact lenses, if present and easy to do. Call a POISON CENTRE or a doctor.

“Pyrethroids may cause paresthesia (burning and prickling of the skin without irritation). If symptoms persist: Get medical advice.”

IF MEDICAL ADVICE IS NEEDED, HAVE THE PRODUCT CONTAINER OR LABEL AT HAND AND CONTACT THE POISON CONTROL CENTER

5.4. Instructions for safe disposal of the product and its packaging

Empty containers, unused product and other waste generated during the treatment are considered hazardous waste.

Dispose of in accordance with current regulations.

Do not release into soil, ground, surface water or any kind of sewer.

¹Instructions for use, risk mitigation measures and other directions for use under this section are valid for any authorised uses.

5.5. Conditions of storage and shelf-life of the product under normal conditions of storage

Keep out of reach of children and non-target animals/pets.

Store in the original container tightly closed.

Store in a dry, cool and well ventilated place.

Protect from frost.

Shelf-life: 4 years
