Section A9. CLASSIFICATION AND LABELLING

The proposed classification of Muscalure technical is based on the available studies present in Document IV-A of the 98/8/EC dossier.

The classification of dichlorvos according to the criteria set out in Directive 67/548/EC and Directive 1999/45/EC is as follows:

Current classification

Classification according to Annex I of Council Directive 67/548/EEC

Classification	as in Directive 67/548/EEC
Class of danger	There is no current classification
R phrases	
S phrases	

Proposed classification

If deviating from current classification

Classification	as in Directive 67/548/EEC
Class of danger	Xi
R phrases	R43: May cause sensitisation by skin contact
S phrases	S36/37: Wear suitable protective clothing and gloves

	Description	Justification
SYMBOL:	Xi	Following the R43 sentence
INDICATION OF DANGER:	Irritating	
RISK PHRASES:	R43 – May cause sensitisation by skin contact	By reference to the sensitising potential shown in a Guinea pig maximisation test
SAFETY PHRASES:	S36/37 - Wear suitable protective clothing and gloves	S36/37 – Obligatory for substances which are very toxic and for which R43 has been ascribed
