## Administrative information

### 1.1. Trade names of the product

Antipuncture Spray IR
DERM IR Spray
Spray IR30

### 1.2. Authorisation holder

<b>Name and address of the authorisation holder</b>	Name	INCOS Cosmeceutica Industriale
	Address	Via P. Gobetti 4 40050 Funo di Argelato Italy
<b>Authorisation number</b>	2023-06-20-B04	
<b>R4BP 3 asset reference number</b>	MT-0030977-0000	
<b>Date of the authorisation</b>	20/06/2023	
<b>Expiry date of the authorisation</b>	16/05/2027	

### 1.3. Manufacturer(s) of the biocidal products

<b>Name of the manufacturer</b>	LCS SpA
<b>Address of the manufacturer</b>	Strada del Marano, 95 47896 Faetano San Marino
<b>Location of manufacturing sites</b>	Strada del Marano, 95 47896 Faetano San Marino

<b>Name of the manufacturer</b>	Tosvar srl
<b>Address of the manufacturer</b>	Via del Lavoro, 10 20060 Pozzo d'Adda (MI) Italy
<b>Location of manufacturing sites</b>	Via del Lavoro, 10 20060 Pozzo d'Adda (MI) Italy

#### 1.4. Manufacturer(s) of the active substance(s)

<b>Active substance</b>	1320 - Ethyl butylacetylaminopropionate
<b>Name of the manufacturer</b>	Merck S.L.U.
<b>Address of the manufacturer</b>	Calle Maria de Molina, 40 28006 Madrid Spain
<b>Location of manufacturing sites</b>	Polígono Merck 08100 Mollet del Vallés, Barcelona Spain

<b>Active substance</b>	1320 - Ethyl butylacetylaminopropionate
<b>Name of the manufacturer</b>	Merck KGaA
<b>Address of the manufacturer</b>	Frankfurter Straße 250 64293 Darmstadt Germany
<b>Location of manufacturing sites</b>	Polígono Merck 08100 Mollet del Vallés, Barcelona Germany

## 2. Product composition and formulation

### 2.1. Qualitative and quantitative information on the composition of the biocidal product

Common name	IUPAC name	Function	CAS number	EC number	Content (%)
Ethyl butylacetylaminopropionate		Active Substance	52304-36-6	257-835-0	20

## 2.2. Type of formulation

AE - Aerosol dispenser

## 3. Hazard and precautionary statements

### Hazard statements

Flammable aerosol.  
Pressurised container: May burst if heated  
Causes serious eye irritation.

### Precautionary statements

If medical advice is needed, have product container or label at hand.  
Keep out of reach of children.  
Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. - No smoking.  
Do not pierce or burn, even after use.  
Wash hands thoroughly after handling.  
IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.  
Protect from sunlight. Do not expose at temperatures exceeding 50 °C/122 °F.

## 4. Authorised use(s)

### 4.1 Use description

#### Use 1 - Aerosol to repel mosquitoes and ticks from human skin (general public)

### Product type

PT19 - Repellents and attractants (Pest control)

### Where relevant, an exact description of the authorised use

Repellent

### Target organism(s) (including development stage)

Scientific name: Culicidae:  
Common name: Mosquitoes  
Development stage: Adults

Scientific name: Ixodidae:  
Common name: Ticks  
Development stage: all

<b>Field(s) of use</b>	<p>Indoor</p> <p>Outdoor</p> <p>Use indoors only in well ventilated areas and outdoors</p> <p>Insect repellent Aerosol IR3535® 30% is a ready-to-use insect repellent used to protect humans against mosquitoes and ticks in temperate areas only. The product is not intended to be used in tropical areas.</p> <p>The repellent is sprayed onto the skin, only on uncovered parts of the body (face, hands, arms, legs and feet only).</p>
<b>Application method(s)</b>	<p>Method: Spraying</p> <p>Detailed description:</p> <p>Spray directly onto the exposed skin and distribute the liquid on the skin by hand.</p>
<b>Application rate(s) and frequencies</b>	<p>Application Rate: adults: 3 g or approx. 1.4 to 2.3 sec spraying; child: 1.6g or approx. 0.7 to 1.2 seconds spraying; toddler: 0.83g or approx. 0.4 to 0.6 seconds spraying</p> <p>Dilution (%): Ready-to-use (no dilution needed)</p> <p>Number and timing of application:</p> <p>Apply sparingly to uniformly cover uncovered parts of the body (face, hands, arms, legs and feet only).</p> <p>Dose per application:</p> <ul style="list-style-type: none"> <li>• adults: 3 g or approx. 1.4 to 2.3 seconds spraying.</li> <li>• Child: 1.6g or approx. 0.7 to 1.2 seconds spraying</li> <li>• Toddler: 0.83g or approx. 0.4 to 0.6 seconds spraying</li> </ul> <p>Insect Repellent Aerosol IR3535® 30% is intended to be used in summer when insects are frequent. It is usually applied once a day depending on outdoor activities, weather and presence of insects. The application can be repeated if necessary (noticeable reduction in repellence) and when allowed. The aerosol can be applied up to twice a day for adults, and once a day for children above the age of 1 year. The product is suitable only for children older than 1 year.</p>
<b>Category(ies) of users</b>	<p>General public (non-professional)</p>
<b>Pack sizes and packaging material</b>	<p>Aerosol can, Meta (aluminium): , ≥25.0 - ≤250.0 mL</p> <p>The aerosol can has a spray head covered by a cap.</p>

#### 4.1.1 Use-specific instructions for use

Apply the product evenly onto exposed skin and distribute the applied spray liquid on the skin by hand. ONLY apply to uncovered parts of the body, limited to arms, hands, legs, feet and face. Do not spray directly on the face. For treatment of the face, spray the repellent solution onto the palm of the hand and distribute the solution over the skin of the face thereby taking care to protect the eyes. Do not spray into the eyes or apply to eye area.

An adult should apply the product to children below 11 years of age. Do not use on children's hands. Do not apply over cuts, wounds, freshly shaven or irritated skin. Do not use under clothing. Only for external use.

In case of strong perspiration and after having taken a swim, the repellent will need to be reapplied. Reapplication is authorized for adults only. Reapply only when noticeable reduction in repellence is observed and no later than ten hours after first application.

When reapplying, respect the allowed maximum number of applications per day: twice for adults, once for children above the age of 1 year.

Product is suitable only for children older than 1 year. Caution must be taken when using these products on children. Use products very responsibly. Mechanical protection (clothing, mosquito nets) is to be preferred at all times.

Avoid contact with synthetic materials. Synthetic materials should be protected during spraying.

Applying sun care products or cosmetic formulations after repellent use will decrease the efficacy of the repellent considerably.

The product is not for application on animals/pets.

#### 4.1.2 Use-specific risk mitigation measures

Use repellent safely. Always read the label and product information before use.

Suitable only for children older than 1 year.

Keep out of reach of children.

Avoid breathing spray. Do not spray directly on the face.

Use only outdoors or in a well-ventilated area.

ONLY apply to arms, hands, legs, feet and face. Do not use under clothing.

Mechanical protection (clothing, mosquito nets) is to be preferred at all times.

Only for external use. Do not inhale. Use only as directed.

The users should inform if the treatment is ineffective and report straightforward to the registration holder

#### 4.1.3 Where specific to the use, the particulars of likely direct or indirect effects, first aid instructions and emergency measures to protect the environment

Causes serious eye irritation.

After inhalation: fresh air.

After eye contact: rinse out with plenty of water. Call in ophthalmologist.

After swallowing: immediately make victim drink water (two glasses at most). Consult a physician.

Most important symptoms and effects, both acute and delayed: irritant effects

Indication of any immediate medical attention and special treatment needed: No information available

Personal precautions, protective equipment and emergency procedures

Advice for non-emergency personnel: Do not breathe vapours, aerosols. Avoid substance contact. Ensure adequate ventilation.

Evacuate the danger area, observe emergency procedures, consult an expert.

Environmental precautions: Do not discharge superfluous fluids to the drain.

#### 4.1.4 Where specific to the use, the instructions for safe disposal of the product and its packaging

Pressurised gas bottle: dispose of only in empty condition.

Waste material must be disposed of in accordance with the Directive on waste 2008/98/EC as well as other national and local regulations. Leave chemicals in original containers. No mixing with other waste. Handle uncleaned containers like the product itself. Do not discharge superfluous fluids to the drain.

#### 4.1.5 Where specific to the use, the conditions of storage and shelf-life of the product under normal conditions of storage

Storage conditions: Keep container tightly closed in a dry and well-ventilated place. Keep away from heat, combustible materials and sources of ignition.

The product should not be stored for prolonged times at temperatures >35°C. The product should not be exposed to temperatures exceeding 50°C/122°F.

Shelf-life: 2 years

Advice on safe handling: Observe label precautions. Keep away from open flames, hot surfaces and sources of ignition. Take precautionary measures against static discharge.

Environmental exposure controls: Donot let product enter drains.

## 5. General directions for use

### 5.1. Instructions for use

See use-specific instructions for use.

### 5.2. Risk mitigation measures

See use-specific risk mitigation measures.

### 5.3. Particulars of likely direct or indirect effects, first aid instructions and emergency measures to protect the environment

See use-specific particulars.

### 5.4. Instructions for safe disposal of the product and its packaging

See use-specific instructions.

### 5.5. Conditions of storage and shelf-life of the product under normal conditions of storage

See use-specific conditions.

## 6. Other information

**NOTE:** The canned aerosol product does contain 20 % IR3535®. However, when the product is applied, the propellant is lost through evaporation, leaving only the liquid phase. This liquid phase then contains 30 % IR3535®, which is in fact the concentration to which the skin is exposed. Hence the name given to the product.
