

PT8 -products on the Finnish market 27.10.2020

Alltogether there are 29 PT8 products/product families on the Finnish market 27.10.2020 of which three contain boron. One product containing boric acid (Boracol 10_3Bd) is for use class 2 and with a claim: against dry rot (*Serpula lacrymans*). The second product with boric acid (Jerbor) is for UC 4 in-situ preventive and curative treatment. There are no other products available for that use.

Product	Active substances	Intended use	Use class UC	User category	Target organisms
Boracol 10_3Bd	DDAC, boric acid, disodium tetraborate	Preventive and curative treatment	2	Professionals/non-professionals	Brown rot fungi, mould fungi, dry rot fungus (<i>Serpula lacrymans</i>) (treatment of masonry)
Boracol 20	disodium octaborate tetrahydrate	Preventive and curative treatment	1, 2	Professionals	Insecticide and fungicide treatment, treatment in masonry against dry rot (<i>Serpula lacrymans</i>)
Jerbor	disodium tetraborate decahydrate, boric acid	Remedial/curative in-situ treatment of supporting foundations (wooden piles and grillages)	4	Professionals	Wood rotting fungi
Celcure M65	DDA-carbonate, basic copper carbonate, DDAC	Preventive treatment	1, 2, 3, 4	Industrial use	Wood rotting fungi and insects (termites)
Impralit ACA family	basic copper carbonate, propiconazole, tebuconazole	Preventive treatment	1, 2, 3, 4	Industrials use	Wood rotting fungi and insects
Celcure MC-T3	basic copper carbonate , tebuconazole	Preventive treatment	1, 2, 3	Industrial use	Wood rotting fungi and insects
Tanalith E 3463	basic copper carbonate, tebuconazole, propiconazole	Preventive treatment	1, 2, 3, 4	Industrial use	Wood rotting fungi and insects

Koralan GL220 family	IPBC	Preventive treatment	2,3	Industrial use, professionals, non-professionals	Blue stain fungi, mould fungi
Valtti Pohjuste	IPBC	Preventive treatment	2, 3	Professional, non-professionals	Wood rotting fungi
Teknol Aqua 1415-01	propikonazole, IPBC, permethrine	Preventive treatment	2, 3	Industrial use, professionals	Wood rotting fungi, blue stain fungi, insects
Wocosen 100 SL	propiconazole	Preventive treatment	2, 3	Professionals	Wood rotting fungi, blue stain fungi
Wolsit KD-10	propiconazole	Preventive and curative treatment	2, 3	Industrial use	Wood rotting fungi, blue stain fungi
Aqua Primer 2907-02	propiconazole, IPBC	Preventive treatment	2, 3	Industrial use, professionals	Wood rotting fungi
Aqua Primer 2907-42	propiconazole, IPBC	Preventive treatment	2, 3	Professionals	Wood rotting fungi
GVK-Pohjuste	propiconazole, IPBC	Preventive treatment	2, 3	Industrial use, professionals, non-professionals	Wood rotting fungi
Ilves maalit puunsuoja pohjamaali	propiconazole, IPBC	Preventive treatment	2, 3	Industrial use, professionals, non-professionals	Wood rotting fungi, blue stain fungi
Osmo Color jne	propiconazole, IPBC	Preventive treatment	2, 3	Industrial use, professionals, non-professionals	Wood rotting fungi
Pinotex Superbase BPR	propiconazole, IPBC	Preventive treatment	2, 3	Professionals, non-professionals	Wood rotting fungi
Protect Aqua	propiconazole, IPBC	Preventive treatment	2, 3	Industrial use, professionals, non-professionals	Wood rotting fungi, blue stain fungi
RAW Acryl Wood Primer exterior	propiconazole, IPBC	Preventive treatment	2, 3	Industrial use, professionals, non-professionals	Wood rotting fungi

StoPrim Protect WN	propiconazole, IPBC	Preventive treatment	2, 3	Industrial use, professionals, non-professionals	Wood rotting fungi
Teknol Aqua 1410.01	propiconazole, IPBC	Preventive treatment	2, 3	Professionals	Wood rotting fungi
TWP 085 BPF	propiconazole, IPBC	Preventive treatment	2, 3	Industrial use, professionals, non-professionals	Wood rotting fungi, blue stain fungi
Woodex Aqua Base	propiconazole, IPBC	Preventive treatment	2, 3	Professionals, non-professionals	Wood rotting fungi
WSL wood stain	propiconazole, IPBC	Preventive treatment	2, 3	Industrial use, professionals, non-professionals	Wood rotting fungi, blue stain fungi
Antiblu Select 3787	propiconazole, tebuconazole, IPBC	Preventive treatment	2, 3	Industrial use	For temporary wood protection against wood staining fungi and surface moulds on freshly sawn/felled wood
Xyligen 30F	K-HDO	Preventive treatment	2		Brown rot and white rot fungi
Vikane	sulfurylfluorid	Desinfection		Industrial use	Gas disinfection against wood destroying insects
Creosote	creosote	Preventive treatment	3, 4	Industrial user	Wood rotting basidiomycetes
