SUMMARY OF PRODUCT CHARACTERISTICS FOR A BIOCIDAL PRODUCT

Baygon mat-GR-en

Product type(s)

PT18: Insecticides, acaricides and products to control other arthropods

Authorisation number: ΤΠ18-0474-ΟΠ 1-1

R4BP asset number: GR-0026523-0001

4. AUTHORISED USE(S)

4.1. Use description

Table 1. Insecticide against mosquitoes for indoor household use.

| | |
|--|--|
| Product type | PT18: Insecticides, acaricides and products to control other arthropods |
| Where relevant, an exact description of the authorised use | Insecticide against mosquitoes. For protection up to 10 hours. |
| Target organism(s) (including development stage) | Scientific name: family Culicidae Common name: mosquitoes Development stage: adults Scientific name: Anopheles stephensi Common name: Anopheles mosquitoes Development stage: adults Scientific name: Culex quinquefasciatus Common name: Southern house mosquito Development stage: adults Scientific name: Aedes Albopictus Common name: Asian tiger mosquito Development stage: adults Scientific name: Aedes Aegypti. Common name: yellow fever mosquito Development stage: adults |
| Field(s) of use | indoor use Indoor household |
| Application method(s) | Method: Mat application in an electrical heating device Detailed description: Insert one mat in the heating device. |
| Application rate(s) and frequency | Application Rate: One mat per 30m ³ Number and timing of application: Each mat provides up to 10 hours of protection. |
| Category(ies) of users | general public (non-professional) |
| Pack sizes and packaging material | Carton containing 10 or 20 or 30 or 40 or 50 or 60 mats, with or without an electrical heating device. Each mat is enclosed in a PET flexible pouch. The pouches are arranged in strips. Primary/commercial packaging also includes the cardboard Carton: paper board Flexible pouch: PET |

4.1.1. Use-specific instructions for use

1. Take out the mat from the wrap.
 2. Insert the mat while holding the mat by the thinnest edge/side into the holder and centering mat within grid. Wash and dry hands afterwards.
 3. Plug in the heater device. Product will start to work within 30 minutes.
 4. After 10 hours of use, unplug the device and remove the worn mat by pushing it with a new one as necessary.
 5. Store the product in a dry place away from extreme temperatures and direct sunlight.
- Strategies for managing the development of resistance:

-
- Where possible, application treatments should be recommended to be combined with non-chemical measures
 - Products should always be used in accordance with label recommendations
 - Where an extended period of control is required, treatments should be alternated with products with different modes of action
 - Levels of effectiveness should be monitored, and instances of reduced effectiveness should be investigated for possible evidence of resistance, noting that sanitary conditions and proximity of untreated refugia can contribute to the risk of re-infestation.
 - In cases where label rates, correctly applied, fail to give the expected level of control and resistance is demonstrated, use of any product containing active substances with the same mode of action should cease.
 - The users should inform if the treatment is ineffective and report straightforward to the authorization holder. The authorization holder should report any observed resistance incidents to the Competent Authorities (CA) or other appointed bodies involved in resistance management.

4.1.2. Use-specific risk mitigation measures

Retain the outer carton for full use and safety instructions.

Do not allow materials of any kind to cover the device while it is in use.

Do not touch device with metal instruments or wet hands.

Wash hands immediately after placing and removing the mat.

Keep cats away from treated areas due to high sensitivity to pyrethroids.

Remove or cover terrariums, aquariums and animal cages before application.

Turn off aquarium air-filter during use.

Do not store near food, drink and animal feedingstuffs

Prevent use in areas where food is stored, prepared and consumed such as kitchens, cellars, dining rooms e.t.c.

4.1.3. Where specific to the use, the particulars of likely direct or indirect effects, first aid instructions and emergency measures to protect the environment

Likely direct or indirect effects:

No adverse effects expected when used as directed.

Pyrethroids and pyrethrins may cause paresthesia (burning and prickling of the skin without irritation). If symptoms persist: Get medical advice.

First aid measures:

IF INHALED: Remove person to fresh air and keep comfortable for breathing.

Call a POISON CENTER/ doctor/.../if you feel unwell

IF ON SKIN: Wash with plenty of soap and water. If skin irritation or rash occurs: Get medical advice/attention.

IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do.

Continue rinsing. If eye irritation persists: Get medical advice/attention.

If medical advice is needed, have product container or label at hand.

Ingestion: No special requirements.

4.1.4. Where specific to the use, the instructions for safe disposal of the product and its packaging

Keep out of reach of children.

Dispose of contents/container in accordance with local regulations.

4.1.5. Where specific to the use, the conditions of storage and shelf-life of the product under normal conditions of storage

Shelf life is 4 years at room temperature in its primary/commercial package.

Do not store over 40°C

5. GENERAL DIRECTIONS FOR USE¹

5.1. Instructions for use

Please refer to the previous section

5.2. Risk mitigation measures

Please refer to the previous section

5.3. Particulars of likely direct or indirect effects, first aid instructions and emergency measures to protect the environment

Please refer to the previous section

5.4. Instructions for safe disposal of the product and its packaging

Please refer to the previous section

5.5. Conditions of storage and shelf-life of the product under normal conditions of storage

Please refer to the previous section

¹Instructions for use, risk mitigation measures and other directions for use under this section are valid for any authorised uses.

6. OTHER INFORMATION

Contains Piperonyl butoxide.
