

AUTHORISATION NUMBER:

IE/BPA 70039

EUROPEAN COMMUNITIES (AUTHORISATION, PLACING ON THE MARKET,
USE AND CONTROL OF BIOCIDAL PRODUCTS)
REGULATIONS

CERTIFICATE OF AUTHORISATION

The Competent Authority for Biocides in Ireland, pursuant to the provisions of the European Communities (Biocidal Products) Regulations, 2013, (S.I. 427 of 2013, as amended), grants authorisation to:

**Teknos A/S
Industrivej 19
6580
Vamdrup
Denmark**

to place the biocidal product:

Aqua Primer 2907-02

on the market in Ireland, subject to the conditions detailed in the Annexes to this certificate.

=====
Authorisation granted on behalf of the Competent Authority for Biocides in Ireland by

Pesticide Control Division, (PCD).

Date of authorisation: 10 July 2012

Version 3,
Version 3.1 (12/07/2016),
Version 3.2 (25/07/2016)
Version 3.3 (26/06/2020)
Version 3.4 (25/05/2021)

Official Stamp:

ANNEX I

Conditions and Product Summary

This authorization may be subject to review in accordance with the European Communities (Biocidal Products) Regulations, 2013, (S.I. 427 of 2013, as amended). The outcome of such a review may lead to amendments to or the revocation of this authorization.

The following conditions apply:

1. Product may **not** be placed on the Irish Market unless it complies with the Annexes of this authorisation.
2. The requirements and conditions, specified in the Annexes, of this authorisation may **not** be altered without prior approval of modifications by the Irish Competent Authority for Biocides in Ireland. Where any amendments are made to the original DK authorisation, the Irish Competent Authority for Biocides in Ireland must be informed by the authorisation holder.
3. All product placed on the Irish market must comply with the classification, labelling and packaging requirements established in: S.I. 625 (2001) Regulation 33 (as amended) transposing Article 20 of Directive 98/8/EC; S.I. 624 (2001) transposing Directive 99/45/EC; the Chemicals Act 2008 (as amended) transposing Regulation (EC) No 1272/2008; and the Classification, Labelling and Packaging Annex detailed in this certificate.
4. A printed copy of the Irish label must be submitted to the Irish Competent Authority for Biocides prior to any product being placed on the Irish market. All product labels must carry the authorisation number of the form: IE/BPA 70039.
5. A product safety data sheet (SDS) prepared in compliance with Regulation (EC) No 1907/2006 (as amended), as transposed in Ireland by the Chemicals Act 2008 (as amended), must be submitted to the Irish Competent Authority for Biocides and the National Poisons Information Centre of Ireland, Beaumont Hospital, Beaumont Road, Dublin 9 – before product is placed on the market for sale or use.
6. On an annual basis, details of the quantities of this product (by pack size) manufactured in Ireland, imported into Ireland and/or exported from Ireland must be submitted to the Irish Competent Authority for Biocides by 31 January of the following year.
7. Fees are payable for the maintenance of the product on the Register of Biocidal Products and shall be paid by the 31st December of the following year and each year thereafter.

Product Summary

Product name:	Aqua primer 2907-02 (BPF)
Authorisation type:	Authorisation by Mutual Recognition
Authorisation number:	IE/BPA 70039
Main Group:	MG 02 (Preservatives)
Product-type:	PT8 (Wood preservative)
Biocidal product family (Y/N):	Yes
Date of authorisation:	10 July 2012
Date of authorisation expiry:	30 October 2025
IUPAC name of the active substance(s):	3-iodo-2-propynyl butylcarbamate (IPBC), 1-[[2-(2,4-dichlorophenyl)-4-propyl-1,3-dioxolan-2-yl]methyl]-1H-1,2,4-triazole (Propiconazole)
Common name of the active substance(s):	IPBC Propiconazole
CAS number:	55406-53-6 (IPBC) 60207-90-1 (Propiconazole)
EC number:	259-627-5 (IPBC) 262-104-4 (Propiconazole)
Content of active substance:	0.3 % w/w IPBC 0.9 % w/w Propiconazole
Information on co-formulants that classify:	Not applicable
Formulation type:	VIII.2 Liquid formulations VIII.2.2 Ready-for-use VIII.2.2.1 Water based VIII.2.2.3 Emulsion/micro-emulsion (EW)
Statement of use:	A ready-to-use water-based and emulsion/micro-emulsion fungicide containing IPBC (0.3 % w/w) and Propiconazole (0.9 % w/w) for use as a wood preservative by professionals intended to protect wood against blue stain, wood destroying fungi and wood disfiguring fungi for internal and external wood components for the protection of wooden structures.
Area of use and use-class¹:	Internal and external wood components IV.1 Indoor use IV.1.2 Use-class 2 IV.2 Outdoor use IV.2.2 Use-class 3 (Use-classes 3.1 and 3.2)

¹ EN 335-1 and 2 (April 2006)

Target organism(s):	<p>I.1 Fungi</p> <p>I.1.1 Wood rotting fungi</p> <p>I.1.1.1 Wood rotting basidiomycetes - brown rot fungi (<i>Gloeophyllum trabeum</i>, <i>Poria placenta</i>, <i>Coniophora puteana</i>)</p> <p>I.1.2 Wood disfiguring fungi</p> <p>I.1.2.1 Blue stain fungi</p>
Development stage:	<p>II.1 Fungi</p> <p>II.1.1 Hyphae</p> <p>II.1.2 Spores and spore producing structures</p>
Function:	III.1 Fungicide
Mode of action:	<p>III.1.1 Inhibition of metabolism</p> <p>III.1.2 Active on membranes</p>
Application method:	<p>VI.1 Open system</p> <p>VI.1.1 Brush treatment (brushing and rolling)</p> <p>VI.1.5 Dip treatment</p> <p>VI.1.8 Deluging</p> <p>VI.5 fluting (flow-coat), vacuum machines or application machine</p> <p>VI.5 low pressure deluge with air knife recovery or automated brush recovery</p>
Application aim:	VII.1 Preventative
User Category:	V.3 Professional

ANNEX II

Product Classification, Labelling and Packaging

The following conditions apply:

Classification

Classification according to Regulation (EC) No 1272/2008

The following pictograms and signal word(s) (if applicable):

Warning

The following hazard statements (if applicable):

H412: Harmful to aquatic life with long lasting effects.
 EUH208: Contains 3-Iodo-2-propynyl-butyl carbamate, Propiconazole and 1,2-Benzisothiazol-3(2H)-one. May produce an allergic reaction.
 H360D: May damage the unborn child

The following precautionary statements (if applicable):

P102: Keep out of reach of children.
 P103: Read label before use.
 P201: Obtain special instructions before use.
 P220: Keep/Store away from food, drink and animal feedingstuffs.
 P270: Do not eat, drink or smoke when using this product.
 P273: Avoid release to the environment.
 P280: Wear protective gloves. Wear protective clothing. Wear eye or face protection.
 P301+P330+P331: IF SWALLOWED: Do NOT induce vomiting. Rinse mouth and get immediate medical advice/attention.
 P308+P313: IF exposed or concerned: Get medical attention.
 P501: Dispose of contents and container in accordance with all local, regional, national and international regulations.

Labelling

Please note: The section on labelling below outlines the minimum labelling requirements for the product in addition to the statutory classification requirements indicated in the classification section above. Authorisation holders may place additional label information as they consider necessary, which must be in accordance with relevant labelling legislation.

Product Name:	Aqua primer 2907-02 (BPF)
Authorisation No.:	IE/BPA 70039
Common names and content of each active ingredient:	IPBC (0.3% w/w) Propiconazole (0.9% w/w)
Name of any additional dangerous substances in the product:	Not applicable.
Nature of formulation:	Ready-to-use water based and emulsion/micro-emulsion product
Function:	For Use as a Fungicide Wood Preservative Only
Restriction on category of user:	For Professional Use
Batch number and expiry date:	Must be printed or embossed on label or packaging
'e-mark':	Must be printed on label
The name, address of the authorisation holder:	Teknos A/S Industrivej 19 6580 Vamdrup DK
Tel:	N/A
If different, the name and address of the marketing company:	As above
Addition safety Information:	To avoid risks to human health and the environment, comply with the instructions for use. Contains IPBC and Propiconazole: May produce an allergic reaction. Do not allow this product to reach the sewer system.
Special labelling provisions for Ireland:	Use Biocides Safely and Sustainably It is illegal to use this product for uses or in a manner other than that prescribed on this label. NOT for Amateur Sale

If a separate leaflet is attached to or supplied with the product, add the following information to the front label:

Read attached instructions before use

Particulars of direct or indirect adverse effects:

May produce an allergic reaction.

First aid information for use in the event of accidental exposure or ingestion.

First Aid:

GENERAL: In case of accident, suspected exposure or if you feel unwell, seek medical advice immediately (show the label where possible).

IF SWALLOWED: Do NOT induce vomiting. Seek medical advice/attention immediately.

IF ON SKIN: Remove contaminated clothing and shoes. Wash skin immediately with plenty of water. Do not use solvents or thinners.

IF IN EYES: Check for and remove any contact lenses if present. Immediately flush eyes continuously with water for at least 15 minutes whilst keeping eyelids open.

IF INHALED: Remove to fresh air.

Note to Physician:

Treat symptomatically.

If large quantities of product have been swallowed or inhaled contact a poison treatment specialist immediately.

National Poison Centre information and reporting of incidents

Poison Information: For information or to report a poisoning incident contact The National Poisons Information Centre, Beaumont Hospital, Dublin (01-8092166), retain the label for reference.

Directions for use (*may be included on separate leaflet - if separate leaflet is used, Trade Name and Authorization Number must be stated*):

Statement of use

“A ready-to-use water-based and emulsion/micro-emulsion fungicide, containing IPBC (0.3 % w/w) and Propiconazole (0.9 % w/w), for use as a wood preservative intended to protect wood against blue stain, wood destroying fungi and wood disfiguring fungi on internal and external wood components by professionals only for the protection of wood structures.”

Instructions for safe handling and use

- Always read the label before use and follow the instructions provided.
- Direct skin contact with the liquid product must be avoided.
- Do not decant product into unlabelled containers, store in the original container.
- Avoid all unnecessary exposure; in particular avoid ingestion or inhalation.

- Do not apply in areas where food/feed, food utensils or food processing surfaces may come into contact with, or be contaminated by the product
- Do not use the product when it is raining or use treated wood near rivers, streams lakes etc. to protect and prevent environmental hazards to aquatic organisms.
- For professional operations, run-off product must be collected by placing/storing the treated wood on a hard and impermeable surface and covering to prevent the run-off containing active ingredients from reaching the ground or water, including waste-water plants.
- The surface of the wood treated with Aqua Primer 2907-02 must be coated with e.g. varnish or paint (top coat) to prevent the active ingredients from been washed off. Coating of the surface must be carried out at regular intervals.
- Do not use product indoors, except for external window frames and external doors.
- Wash skin after application and use of the product, and before eating, drinking or smoking.

Application Details:

The product must be stirred well before use.

The wood must be clean and free of dust and impurities. The moisture content of the wood should be between 10-14%.

During drying and application the relative humidity of the air should be 40-60% and the ambient temperature 15 - 25°C

Category of User	Application method	Application rate
Professional	Flow coating, vacuum impregnation, dipping, brushing machine and brush	131-141 ml/m ²

Dry-out period: The treated wood is ready for handling after approximately 60 minutes at 20°C and ready for further treatment with coatings after approximately 3 hours at 25 – 30°C.

The application equipment is cleaned with water.

Storage Instructions

Store in a cool, dry, well-ventilated place

Store locked up in the original container tightly closed

Protect from frost

Directions for the safe disposal

This material and empty containers should be disposed safely as hazardous waste.

Any product collected during application that is not re-used must be disposed of safely as hazardous waste.

Do NOT dispose of unwanted product or the water used to clean the equipment down drains.

Dispose of packaging and of unused product in accordance with local regulations.

If required, consult a professional waste operator or local authority.

Packaging

Product must not be decanted from packaging into unlabelled containers.

Store in the original container.

Packaging type/description	Packaging material¹	Pack size
Metal containers	Container: Steel	20L, 120L or 1000L
PE (HDPE) containers	Container: HDPE	20L, 120L or 1000L

¹ PP = polypropylene, PS = polystyrene, PE = polyethylene, HDPE = high-density polyethylene, PVC = polyvinylchloride
