SUMMARY OF PRODUCT CHARACTERISTICS FOR A BIOCIDAL PRODUCT

Lebensmittelmotten-Falle

Product type(s)

PT19: Repellents and attractants

Authorisation number: EU-0032219-0000

R4BP asset number: EU-0032219-0000

1. ADMINISTRATIVE INFORMATION

1.1. Trade name(s) of the product

Trade name(s)	Lebensmittelmotten-Falle
---------------	--------------------------

1.2. Authorisation holder

Name and address of the authorisation holder	Name	Aeraxon Insect Control GmbH
	Address	Bahnhofstr. 35 71332 Waiblingen Germany
Authorisation number		EU-0032219-0000
<i>R4BP asset number</i>		EU-0032219-0000
Date of the authorisation		03/06/2024
Expiry date of the authorisation		03/06/2034

1.3. Manufacturer(s) of the product

Name of manufacturer	Aeraxon Insect Control GmbH
Address of manufacturer	Bahnhofstrasse 35 71332 Waiblingen Germany
Location of manufacturing sites	Aeraxon Insect Control GmbH site 1 Bahnhofstrasse 35 71332 Waiblingen Germany

Name of manufacturer	Fr. Kaiser GmbH
Address of manufacturer	Bahnhofstrasse 35 71332 Waiblingen Germany
Location of manufacturing sites	Fr. Kaiser GmbH Bahnhofstrasse 35 71332 Waiblingen Germany

Name of manufacturer	Aeraxon sro
Address of manufacturer	Dr. Sedlaka 827 339 01 Klatovy Czechia
Location of manufacturing sites	Aeraxon sro Dr. Sedlaka 827 339 01 Klatovy Czechia

1.4. Manufacturer(s) of the active substance(s)

Active substance	(Z,E)-Tetradeca-9,12-dienylacetat
Name of manufacturer	Bedoukian Research Inc
Address of manufacturer	21 Finance Drive CT 06810 Danbury United States (the)
Location of manufacturing sites	Bedoukian Research Inc site 1 21 Finance Drive CT 06810 Danbury United States (the)

2. PRODUCT COMPOSITION AND FORMULATION

2.1. Qualitative and quantitative information on the composition of the product

Common name	IUPAC name	Function	CAS number	EC number	Content (%)
(Z,E)-Tetradeca-9,12-dienylacetat	(9Z,12E)-Tetradeca-9, 12-dien-1-yl acetate	active substance	30507-70-1		100

2.2. Type(s) of formulation

AL Any other liquid

3. HAZARD AND PRECAUTIONARY STATEMENTS

Hazard statements	
Precautionary statements	

4. AUTHORISED USE(S)

4.1. Use description

Table 1. Attractant – Indian meal moth, Mediterranean Flour Moth – general public, professionals – RTU trap

Product type	PT19: Repellents and attractants
Where relevant, an exact description of the authorised use	attractant
Target organism(s) (including development stage)	Scientific name: <i>Plodia interpunctella</i> Common name: Indian meal moth Development stage: Adults (males) Scientific name: <i>Ephestia kuehniella</i> Common name: Mediterranean Flour Moth Development stage: Adults (males)
Field(s) of use	indoor use Indoor Ready-to-use product for indoor use in rooms or cupboards where food or feedstuff is stored.
Application method(s)	Method: stored product protection / food protection Detailed description: Use one trap per cupboard or for a small room. The traps should be checked at least once a week and replaced after 12 weeks or when they are covered with moths. The sexual attractant contained in the adhesive surface attracts the male moths and holds them securely in place. In addition, the slowly emitted pheromone confuses males in their search for females, preventing them from reproducing and reducing egg laying by disrupting mating.
Application rate(s) and frequency	Application rate: 1 trap (containing 2.5 mg active substance) per volume up to 30 m ³ (e.g. cupboard or small room) Dilution (%): 100 Number and timing of application: Preventive and upon infestation. Traps should be inspected at least once a week and replaced after 12 weeks or when they are covered with moths.
Category(ies) of users	professional ; general public (non-professional)
Pack sizes and packaging material	One packaging unit consist of 1-6 traps. There are 2 types of traps: Trap type 1: 2 dimensional form; the cardboard is covered with adhesive glue and has a size of 130x90 mm Trap type 2: triangle form; the cardboard is covered with adhesive glue and has a size of 65x341 mm or 86x356 mm

	Each trap contains 2.5 mg pheromone, which is slowly released.

4.1.1. Use-specific instructions

4.1.2. Use-specific risk mitigation measures

4.1.3. Use-specific risk mitigation measures

4.1.4. Where specific to the use, the particulars of likely direct or indirect effects, first aid instructions and emergency measures to protect the environment

4.1.5. Where specific to the use, the instructions for safe disposal of the product and its packaging

4.1.6. Where specific to the use, the conditions of storage and shelf-life of the product under normal conditions of storage

5. GENERAL DIRECTIONS FOR USE¹

5.1. Instructions for use

Place the ready-to-use trap in rooms or cupboards where food or feedstuff is stored. Use 1 trap per volume up to 30 m³ (e.g. cupboard or small room).

Remove the silicone paper from the sticky glue on front of the trap for its activation.

Check the traps at least once a week and replace them after 12 weeks or when covered with moths.

Keep out of reach of children.

Avoid contact with the product (adhesive tape).

5.2. Risk mitigation measures

None

5.3. Particulars of likely direct or indirect effects, first aid instructions and emergency measures to protect the environment

Particulars of likely direct or indirect effects:

Due to the application and dosage of the biocidal product (active ingredient on carrier (cardboard)) direct or indirect impact is not expected under foreseeable conditions of use.

First aid instructions:

After skin contact: Instantly wash with water and soap and rinse thoroughly. If skin irritation continues, consult doctor.

After eye contact: Rinse opened eye for several minutes under running water. If symptoms persist, consult doctor.

[add phone number of PCN, if nationally required]

Emergency measures to protect the environment:

Do not discharge into sewage/surface or groundwater.

5.4. Instructions for safe disposal of the product and its packaging

Dispose the used trap in residual waste or in accordance with national/local regulations.

5.5. Conditions of storage and shelf-life of the product under normal conditions of storage

Store in a cool and dry place.

Shelf life: 4 years.

N-372 Store at temperatures not exceeding 35°C.

¹Instructions for use, risk mitigation measures and other directions for use under this section are valid for any authorised uses.

6. OTHER INFORMATION

None
