1.2. Authorisation holder

Name and address of the authorisation holder	Name	Kollant S.r.l.
	Address	Via C.Colombo, 7/7A 30030 Vigonovo Italy
Authorisation number	RO/2014/01110/MRA/ IT/2013/00169/AUT	
R4BP 3 asset reference number	RO-0009486-0000	
Date of the authorisation	06/12/2013	
Expiry date of the authorisation	01/07/2024	

1.3. Manufacturer(s) of the biocidal products

Name of the manufacturer	KOLLANT S.r.l.
Address of the manufacturer	Via Trieste, 49/53 35121 Padova Italy
Location of manufacturing sites	Via C.Colombo, 7/7A 30030 Vigonovo (VE) Italy

1.4. Manufacturer(s) of the active substance(s)

Active substance	12 - Bromadiolone
Name of the manufacturer	ACTIVA S.r.l.
Address of the manufacturer	Viale Lombardia, 22 20131 Milano Italy
Location of manufacturing sites	D. Tezza S.r.l., Via Tre Ponti, 22 37050 S.Maria di Zevio (VR) Italy

2. Product composition and formulation

2.1. Qualitative and quantitative information on the composition of the biocidal product

Common name	IUPAC name	Function	CAS number	EC number	Content (%)
Bromadiolone		Active Substance	28772-56-7	249-205-9	0,005

2.2. Type of formulation

PA - Paste

3. Hazard and precautionary statements

Hazard statements	
Precautionary statements	If medical advice is needed, have product container or label at hand. Keep out of reach of children. Read carefully and follow all instructions. Keep container tightly closed. Do no eat, drink or smoke when using this product. Avoid release to the environment.

IF SWALLOWED:Immediately call a POISON CENTER.

Dispose of container to hazardous waste facilities in accordance with national regulations..

4. Authorised use(s)

4.1 Use description

Use 1 - Professional Use

Product type

PT14 - Rodenticides (Pest control)

Where relevant, an exact description of the authorised use

ready to use rodenticide bait effective against mice and rats after a single ingestion.

Target organism(s) (including development stage)

Scientific name: Rattus norvegicus
Common name: Brown rat
Development stage: all

Scientific name: Rattus rattus
Common name: Roof rat
Development stage: all

Scientific name: Mus musculus
Common name: House mouse
Development stage: all

Field(s) of use

Indoor

Outdoor

In and around buildings; open areas

Application method(s)

Method: Bait application

Detailed description:

Covered application by bait stations.RATIBROM 2 MOMEALA PROASPATA is a ready-to-use fresh pasta bait furnished in sealed food paper bags. It is not intended to be mixed with other products, diluted in any medium, sprayed or dusted. Place the bait inside appropriate container (bait box with access only for rodents) in order to reduce the risk of ingestion by non target animals. Avoid to touch barehanded the product. Utilize the appropriate gloves.Place the container in place of major presence in and around buildings, waste dumps, open areas, store, gardens, etc. and fixed in order to avoid dispersion of bait in the environment.

Application rate(s) and frequencies

Application Rate: The amount of product used per application is 40 g per 10m² for Mus musculus and 60 - 100 g per 10m² for Rattus norvegicus.Bait points are placed typically every 2 to 5 m for mouse infestation and 5 to 10 m for rat infestation

Dilution (%): 0

Number and timing of application:

Closer placement is required for heavier infestations. The duration of the program is at maximum up to 6 weeks. Permanent, preventive treatments are possible under the supervision of a pest control operator or other competent operator. In case of permanent baiting, a minimum dose shall be applied (60 g) and the baiting points are inspected 4-6 times per year. The bait must be placed in appropriate bait stations,

protected from atmospheric agents, in order to avoid accidental swallowing of infants, non target species and undesired dispersion of bait in the environment.

Category(ies) of users

Professional

Pack sizes and packaging material

Bag /Sack - Plastic: composite: - Kg 1 – 2 – 5 – 10 – 20 - 25 kg (containing rodenticide baits 10 g each)

Box - Plastic: composite: - Kg 1 – 2 – 5 – 10 – 20 - 25 kg (containing rodenticide baits 10 g each)

5. General directions for use

5.1. Instructions for use

The product is ready to use and must be used according to the doses indicated on the label. The rodenticide baits must be placed in an appropriate bait box, tamper resistant and marked, available on the market. The rodenticide bait is placed in an appropriate bait box, protected from the atmospheric agents, the ingestion of non-target species and dispersion in the environment. Always ensure that the bait boxes are secured properly and that the bait cannot be dragged away by rodents. Observe the area of infestation and place the bait box that contains the bait at the rodents dens, along their routes and places of major attendance. Bait boxes should be placed 5-10 m far from each other. The product is not intended for permanent use, organize treatments lasting up to 6 weeks.

5.2. Risk mitigation measures

Avoid touching the product with bare hands, use appropriate gloves.

5.3. Particulars of likely direct or indirect effects, first aid instructions and emergency measures to protect the environment

Avoid treatment in areas where is any unprotected food or fodder. Do not use on cultivated areas. In case of contamination wash hands thoroughly with soap and plenty of water. Do not reuse the bait box and not release to the environment, but eliminate it in accordance with current rules. In case of suspected ingestion consult an Anti-poison centre. The product can be dangerous if ingested by pets or other non-target animals. If swallowed, induce vomiting. Contact a veterinarian immediately and show this container or label.

5.4. Instructions for safe disposal of the product and its packaging

Do not dispose of carcasses with garbage or in landfills. Use suitable gloves when handling dead animals. At the end of treatment dispose of bait boxes containing the bait remained, according to current rules. Read the instructions on the label carefully.

5.5. Conditions of storage and shelf-life of the product under normal conditions of storage

the products is valid 2 years under normal conditions of storage.

6. Other information
