### 1.2. Authorisation holder

<b>Name and address of the authorisation holder</b>	Name	MYLVA S.A.
	Address	Via Augusta, 48 08006 Barcelona Spain
<b>Authorisation number</b>	EU-0030315-0000	
<b>R4BP 3 asset reference number</b>	EU-0030315-0000	
<b>Date of the authorisation</b>	06/10/2023	
<b>Expiry date of the authorisation</b>	06/10/2033	

### 1.3. Manufacturer(s) of the biocidal products

<b>Name of the manufacturer</b>	Mylva S.A.
<b>Address of the manufacturer</b>	Via Augusta 48 08006 Barcelona Spain
<b>Location of manufacturing sites</b>	Sant Galderic, 23 08395 Sant Pol de Mar (Barcelona) Spain

#### 1.4. Manufacturer(s) of the active substance(s)

<b>Active substance</b>	2326 - D-Fructose
<b>Name of the manufacturer</b>	SUCESORES DE JOSÉ ESCUDER, S.L.
<b>Address of the manufacturer</b>	Avda. Antoni Gaudí, 60 - 62 Pol. Ind. Rubí-Sud 08191 Rubí (Barcelona) Spain
<b>Location of manufacturing sites</b>	Avda. Antoni Gaudí, 60 - 62 Pol. Ind. Rubí-Sud 08191 Rubí (Barcelona) Spain

## 2. Product composition and formulation

### 2.1. Qualitative and quantitative information on the composition of the biocidal product

Common name	IUPAC name	Function	CAS number	EC number	Content (%)
D-Fructose		Active Substance	57-48-7	200-333-3	6

### 2.2. Type of formulation

GD - Gel for direct application
---------------------------------

### 3. Hazard and precautionary statements

Hazard statements

Precautionary statements

### 4. Authorised use(s)

#### 4.1 Use description

##### Use 1 - Use #1 - Gel in syringes/cartridges with sticky traps

Product type

PT19 - Repellents and attractants (Pest control)

Where relevant, an exact description of the authorised use

Attractant for silverfishes.

Target organism(s) (including development stage)

Scientific name: Lepisma saccharina  
Common name: Silverfishes  
Development stage: adults and nymphs

Field(s) of use

Indoor

Private houses and commercial buildings.

Application method(s)

Method: Gel attractant with sticky cardboard traps  
Detailed description:  
Application of the gel from a syringe/cartridge directly in the sticky cardboard traps.

Application rate(s) and frequencies

Application Rate: 0.2g/sticky trap/1.5 m<sup>2</sup>  
Dilution (%):  
Number and timing of application:  
Apply 0.2 gr of product (4 drops) per sticky cardboard trap. Place one trap each 1.5 m<sup>2</sup> of floor surface.  
Frequency of treatment: Once full, replace the trap with a new one.

Category(ies) of users

Trained professional  
Professional  
General public (non-professional)

## Pack sizes and packaging material

LDPE plastic syringe of 1, 2, 3, 4, 5, 8, 10, 15, 20, 25, 30, 35, 40, 45, 50, 55 and 60 g of gel.  
LDPE/HDPE plastic tube of 1, 2, 3, 4, 5, 8, 10, 15, 20, 25, 30, 35, 40, 45, 50, 55 and 60 g of gel.  
PP plastic cartridge of 1, 2, 3, 4, 5, 8, 10, 15, 20, 25, 30, 35, 40, 50, 60, 75, 80, 100, 125, 175, 200, 250, 300, 350, 400, 450 and 500g of gel. (only professional and trained professional)  
Secondary packaging: Cardboard box  
Square cardboard traps or corner cardboard traps supplied with the product.

### 4.1.1 Use-specific instructions for use

Remove the pre-cut part of the cardboard and place 0.2 g of gel in the opposite side, in the upper part of the sticky trap. Close it by attaching the two indents at each end, and place the trap with the central hole in contact with the ground.

### 4.1.2 Use-specific risk mitigation measures

See general directions for use

### 4.1.3 Where specific to the use, the particulars of likely direct or indirect effects, first aid instructions and emergency measures to protect the environment

See general directions for use

### 4.1.4 Where specific to the use, the instructions for safe disposal of the product and its packaging

See general directions for use

### 4.1.5 Where specific to the use, the conditions of storage and shelf-life of the product under normal conditions of storage

See general directions for use

## 4.2 Use description

### Use 2 - Use #2 - Gel in capsules with sticky substance

<b>Product type</b>	PT19 - Repellents and attractants (Pest control)
<b>Where relevant, an exact description of the authorised use</b>	Attractant for silverfishes.
<b>Target organism(s) (including development stage)</b>	Scientific name: Lepisma saccharina Common name: Silverfishes Development stage: adults and nymphs
<b>Field(s) of use</b>	Indoor  Private houses and commercial buildings.
<b>Application method(s)</b>	Method: Ready-to-use capsules in re-usable bait stations Detailed description: Ready-to-use capsules with gel attractant and a sticky substance in re-usable bait stations.
<b>Application rate(s) and frequencies</b>	Application Rate: One capsule of 0.5g / 4.5 m <sup>2</sup> of floor surface Dilution (%): Number and timing of application:  Place inside the bait station one capsule containing 0.5 g gel attractant, per 4.5 m <sup>2</sup> of floor surface. Frequency of treatment: Once full, remove the cup from the bait station and replace with a new one.
<b>Category(ies) of users</b>	Trained professional  Professional  General public (non-professional)
<b>Pack sizes and packaging material</b>	PET-PE + Aluminium pre-filled cup of 0.5 g of gel. Secondary packaging: Cardboard box Re-usable bait station supplied with the product.

#### 4.2.1 Use-specific instructions for use

Insert the capsule inside the bait station and carefully remove the lid.

#### 4.2.2 Use-specific risk mitigation measures

See general directions for use

#### 4.2.3 Where specific to the use, the particulars of likely direct or indirect effects, first aid instructions and emergency measures to protect the environment

See general directions for use

#### 4.2.4 Where specific to the use, the instructions for safe disposal of the product and its packaging

See general directions for use

#### 4.2.5 Where specific to the use, the conditions of storage and shelf-life of the product under normal conditions of storage

Keep the capsules away from heat or direct sunlight and at a maximum temperature of 30°C.

See general directions for use

### 5. General directions for use

#### 5.1. Instructions for use

Always read the label or leaflet before use and respect all the instructions provided.  
Place the product in the areas most frequented by insects, such as bathrooms or damp areas of the house, under furniture, sofas, cabinets and/or shelves, etc.  
Remove alternative food source that may be in competition from near areas.  
Magnet Gel Silverfish controls the infestation in approximately 2 weeks after application.  
Magnet Gel Silverfish is effective when applied up to 2 weeks after opening.

#### 5.2. Risk mitigation measures

-

#### 5.3. Particulars of likely direct or indirect effects, first aid instructions and emergency measures to protect the environment

No adverse effects are expected. If medical advice is needed, have product container or label at hand.

#### **5.4. Instructions for safe disposal of the product and its packaging**

Packaging can be recycled. The used product and the dead insects can be disposed in household rubbish.

#### **5.5. Conditions of storage and shelf-life of the product under normal conditions of storage**

The storage stability of this product in its original container is 2 years under normal condition of storage.  
Protect from frost.  
Store in a dry, cool and well ventilated place and in the original container tightly closed.

#### **6. Other information**
