

Summary of product characteristics for a biocidal product

Product name: Ameisen-Mittel

Product type(s): PT18 - Insecticides, acaricides and products to control other arthropods (Pest control)

PT18 - Insecticides, acaricides and products to control other arthropods (Pest control)

Authorisation number: 831-18

R4BP 3 asset reference number: DK-0014341-0000

Table Of Contents

Administrative information

1.1. Trade names of the product

| |
|-----------------------------------|
| Pest Stop Udvanding mod myrer |
| Tanaco Udvandning mod myrer Extra |
| Gardol Myremiddel |

1.2. Authorisation holder

| | | |
|---|-----------------|---|
| Name and address of the authorisation holder | Name | Detia Freyberg GmbH |
| | Address | Dr.-Werner-Freyberg-Str.11 69514 Laudenbach Germany |
| Authorisation number | 831-18 | |
| R4BP 3 asset reference number | DK-0014341-0000 | |
| Date of the authorisation | 27/06/2019 | |
| Expiry date of the authorisation | 25/03/2029 | |

1.3. Manufacturer(s) of the biocidal products

| | |
|--|--|
| Name of the manufacturer | Detia Freyberg Produktion GmbH |
| Address of the manufacturer | Dr.-Werner-Freyberg-Str. 11 69514 Laudenbach Germany |
| Location of manufacturing sites | Dr.-Werner-Freyberg-Str. 11 69514 Laudenbach Germany |

1.4. Manufacturer(s) of the active substance(s)

| | |
|--|--|
| Active substance | 1342 - Permethrin |
| Name of the manufacturer | Tagros Chemicals India Ltd. |
| Address of the manufacturer | Jhaver Centre, Rajah Annamalai Building, IV Floor, 72, Marshalls Road 600 008 Egmore Chennai India |
| Location of manufacturing sites | A-4/1&2, Sipcot Industrial Complex, Pachayankuppam 607 005 Cuddalore, Tamilnadu India |

2. Product composition and formulation

2.1. Qualitative and quantitative information on the composition of the biocidal product

| Common name | IUPAC name | Function | CAS number | EC number | Content (%) |
|-------------|------------|------------------|------------|-----------|-------------|
| Permethrin | | Active Substance | 52645-53-1 | 258-067-9 | 0,54 |

2.2. Type of formulation

| |
|-----------------------------------|
| Granule GR and soluble granule SG |
|-----------------------------------|

3. Hazard and precautionary statements

| | |
|---------------------------------|--|
| Hazard statements | <p>Very toxic to aquatic life with long lasting effects.</p> <p>Contains Permethrin. May produce an allergic reaction.</p> |
| Precautionary statements | <p>Avoid release to the environment.</p> <p>Collect spillage.</p> <p>Dispose of container to according to local rules.</p> |

4. Authorised use(s)

4.1 Use description

Use 1 - Non-professional use - Pouring

| | |
|---|---|
| Product type | PT18 - Insecticides, acaricides and products to control other arthropods (Pest control) |
| Where relevant, an exact description of the authorised use | Biocidal product knocks down and kills black garden ants of all development stages and has a complete nest kill effect. |
| Target organism(s) (including development stage) | Scientific name: <i>Lasius niger</i> Common name: Black garden ant Development stage: All stages |
| Field(s) of use | Outdoor Around houses on paved ways, balconies and terraces. |
| Application method(s) | Method: Pouring Detailed description: Dissolve the product in tap water, stir well and pour immediately into the nest. The solution must be slowly added to open nests, crevices etc. If the product settles, it can be stirred again. |
| Application rate(s) and frequencies | Application Rate: 10 g product in 1L tap water and pouring it into the nests (1L/nest). Dilution (%): 10 g product in 1L tap water Number and timing of application: Up to 4 applications per year. |
| Category(ies) of users | General public (non-professional) |
| Pack sizes and packaging material | Single-dose sachets and water soluble bags are limited to a size of 10 g. Pack sizes exceeding 10 g have to contain appropriate 10 g dosing equipment (e.g. measuring spoon). 1. Paper cardboard cans with an alu foil inside layer: 100 – 600 g 2. PE-Cans: 100g - 600 g 3. PE-Tubular bags placed in folding cartons: 10 -500 g 4. Water soluble PVA bags (10 g) in folding cartons (100 – 500 g) 5. Three-side sealed PE bags: 80 g |

4.1.1 Use-specific instructions for use

1. After the outdoor watering application, rinse the watering can several times with a little water. Apply the rinse water on the ant nest.
2. Resistance management advice (for non-professional use): In the case of reduced efficacy or suspected development of resistance, the use of the product has to be discontinued immediately and a professional pest control operator needs to be contacted. Products should always be used in accordance with label recommendations.

4.1.2 Use-specific risk mitigation measures

Please refer to Directions for use below.

4.1.3 Where specific to the use, the particulars of likely direct or indirect effects, first aid instructions and emergency measures to protect the environment

Please refer to Directions for use below.

4.1.4 Where specific to the use, the instructions for safe disposal of the product and its packaging

Please refer to Directions for use below.

4.1.5 Where specific to the use, the conditions of storage and shelf-life of the product under normal conditions of storage

Please refer to Directions for use below.

4.2 Use description

Use 2 - Professional use - Pouring

| | |
|---|---|
| Product type | PT18 - Insecticides, acaricides and products to control other arthropods (Pest control) |
| Where relevant, an exact description of the authorised use | Biocidal product knocks down and kills black garden ants of all development stages and has a complete nest kill effect. |
| Target organism(s) (including development stage) | Scientific name: <i>Lasius niger</i> Common name: Black garden ant Development stage: All stages |

Field(s) of use

| | |
|--|--|
| Application method(s) | <p>Outdoor</p> <p>Around houses on paved ways, balconies and terraces.</p> <p>Method: Pouring Detailed description: Dissolve the product in tap water, stir well and pour immediately into the nest. The solution must be slowly added to open nests, crevices etc. If the product settles, it can be stirred again.</p> |
| Application rate(s) and frequencies | <p>Application Rate: 10 g product in 1L tap water and pouring it into the nests (1L/nest). Dilution (%): 10 g product in 1L tap water Number and timing of application: Up to 4 applications per year.</p> |
| Category(ies) of users | <p>Professional</p> |
| Pack sizes and packaging material | <p>1. Paper cardboard cans with an alufoil inside layer: 100 g - 600 g 2. PE-Cans: 100 g - 600 g 3. PE-Tubular bags placed in the folding cartons: 10 g – 500 g 4. Water soluble PVA bags (10 g -100 g) in folding cartons (100-500 g) 5. PE-Buckets: 2.5kg - 10 kg</p> |

4.2.1 Use-specific instructions for use

| |
|--|
| <p>1. After the outdoor watering application, rinse the watering can several times with a little water. Apply the rinse water on the ant nest.</p> |
|--|

4.2.2 Use-specific risk mitigation measures

| |
|--|
| <p>1. The use of an applicator (e.g. spoon or beaker) is recommended when loading the product from a bucket into the watering can.</p> <p>2. The use of waterproof footwear is recommended when applying the product.</p> <p>3. The following personal risk mitigation measures shall be applied unless they can be replaced by technical and / or organisational measures:</p> <ul style="list-style-type: none"> Wear protective chemical resistant gloves during product handling phase (glove material to be specified by the authorisation holder within the product information). |
|--|

4.2.3 Where specific to the use, the particulars of likely direct or indirect effects, first aid instructions and emergency measures to protect the environment

Please refer to Directions for use below.

4.2.4 Where specific to the use, the instructions for safe disposal of the product and its packaging

Please refer to Directions for use below.

4.2.5 Where specific to the use, the conditions of storage and shelf-life of the product under normal conditions of storage

Please refer to Directions for use below.

5. General directions for use

5.1. Instructions for use

1. Apply only around houses on paved ways, balconies and terraces.
2. Apply only outdoors in locations protected from rain.

5.2. Risk mitigation measures

1. Apply only in areas that are not liable to submersion or becoming wet, i.e. protected from rain, floods and cleaning water.
2. Do not use where release to drains (sewer) and/or surface water cannot be prevented.
3. Direct application to unpaved soil is not permitted.
4. Keep out of reach of children and pets.
5. Keep children and pets, particularly cats, away from treated surfaces.
6. Apply only in areas inaccessible to children and pets.
6. Do not re-enter before surface has dried.
7. Do not contaminate food, feed, eating utensils or food contact surfaces.

5.3. Particulars of likely direct or indirect effects, first aid instructions and emergency measures to protect the environment

1. Pyrethroids and pyrethrines may cause paresthesia (burning and prickling of the skin without irritation). If symptoms persist: Get medical advice.
2. Relocate the individual from the exposure source and remove any contaminated/spattered clothing articles, without contaminating yourself or others.
3. Eye exposure; ALWAYS check for and remove contact lenses, wash eyes with plenty of water with eye lids open for at least 15 minutes.
4. Skin contact; wash affected area with plenty of water and soap, NO scrubbing.
5. Inhalation/aspiration; Keep the individual calm and at rest, conserve body temperature and control breathing. If necessary check for pulse and initiate artificial respiration.
6. Mouth contact/ingestion; Rinse mouth and drink plenty of water, do NOT induce vomiting unless indicated by medical or healthcare personnel and do NOT give anything by mouth to an unconscious individual.
7. If symptoms appear, persist or worsen seek medical attention IMMEDIATELY and bring the packaging or label whenever possible. NEVER LEAVE THE AFFECTED INDIVIDUAL UNATTENDED!

Advice for medical and healthcare personnel:

- Symptomatic and supportive treatment.

WHEN ASKING FOR MEDICAL ADVICE KEEP PACKAGING OR LABEL AT HAND AND CALL YOUR LOCAL POISON CONTROL CENTER [INSERT LOCAL NUMBER HERE].

5.4. Instructions for safe disposal of the product and its packaging

1. Residues of the biocidal products must be disposed off in accordance with the Waste Framework Directive (2008/98/EG) and the European Waste Catalogue (EWC) as well as national and regional regulations.
2. Leave biocidal products in original containers. Do not mix with other wastes. Containers containing residues of the product have to be handled accordingly.

Waste entry on pesticides: 20 01 19

Waste entry on packaging containing residues of or contaminated by dangerous substances: 15 01 10

5.5. Conditions of storage and shelf-life of the product under normal conditions of storage

1. The product must be stored and transported without exposition to light.
2. Storage stability: 36 months

6. Other information

III. Etiketten skal indeholde nedenstående oplysninger. Oplysninger i citationstegn skal angives ordret:

1) I hovedfeltet:

"Insektmiddel

Må kun anvendes som insektmiddel mod sort havemyre (*Lasius niger*) udendørs omkring bygninger. Må kun anvendes til udvanding på fast underlag som fliser, terrasser og altaner."

2) I advarselsfeltet:

"ADVARSEL

Meget giftig med langvarige virkninger for vandlevende organismer. (H410)

Undgå udledning til miljøet.

Udslip opsamles.

Vask huden grundigt efter brug.

Overtrædelse af nedenstående særligt fremhævede forskrifter kan medføre straf:

Må kun anvendes til udendørs bekæmpelse af sort havemyre (*Lasius niger*) ved udvanding på fast underlag som fliser, terrasser og altaner.

Må ikke anvendes mod andre skadevoldere og ikke i højere doseringer end de i brugsanvisningen nævnte.

Må kun anvendes udendørs på områder beskyttet mod regn.

Må ikke anvendes hvor der kan ske afledning til kloakfløb og andre vandmiljøer.

Behandlede overflader må ikke betrædes før de er tørre.

Må ikke tømmes i kloakfløb.

Opbevares utilgængeligt for børn.

Må ikke opbevares sammen med fødevarer, drikkevarer og foderstoffer.”

Farepiktogrammet GHS09.

Indeholder pyrethroiden permethrin. Pyrethroider kan forårsage paræstesi (prykkende/brændende hud uden irritation). Søg lægehjælp hvis symptomerne er vedvarende.

3) I deklarationsfeltet:

a) Teksten "Insektmiddel BPR-reg. nr. 831-18. Aktivstof og biocidholdigt produkt er godkendt efter biocidforordningen (Forordning (EU) nr. 528/2012)".

b) Oplysning om præparattype: "Granulat" for dette præparat.

c) Indholdet af aktivstof i vægtprocent (% w/w) og g/kg.

d) Sætningen: "Indeholder permethrin. Kan udløse allergisk reaktion".

e) Udløbsdatoen skal anføres. Denne dato må højst være 36 måneder efter produktionsdatoen. Etikettens dato kan udformes som en henvisning til en produktionsdato andetsteds på emballagen.

f) Batchnummer eller – betegnelse skal anføres.

g) Pakningsstørrelse i g.

h) Godkendelsesindehavers navn og adresse.

4) Brugsanvisningen:

Oplysninger om skadevoldere, anvendelsesområde og doseringer.

Følgende retningslinjer gælder i forhold til bortskaffelse.

Der skal mærkes med sikkerhedssætning P501: "Indholdet/holderen bortskaffes i overensstemmelse med kommunale regler for affaldshåndtering."

Derudover skal mærkningen ske efter retningslinjerne:

"Rester skal afleveres til den kommunale affaldsordning for farligt affald. Tomme beholdere kan bortskaffes med dagrenovationen."
